MOTIONS AND RESOLUTIONS.

The Chair stated

That he would appoint Messrs. Little, Garland and Herron as members of a special committee to prepare a memorial and resolution on the death of John H. Henderson, late City Controller.

The Chair stated

That Council was now ready to go into an election of a Controller to fill the unexpired term of the late City Controller, John H. Henderson.

Mr. Garland arose and said
Mr. President,—

I desire to place in nomination for the office of City Controller the name of Henry O. Evans.

It is well known to the members of Council that there is at this time much constructive work to be done in that office, and I feel that Mr. Evans is peculiarly qualified, not only to carry out that work efficiently, but also to perform satisfactorily all the other duties of the office that will devolve upon him as Controller for the City and the Board of Education. Mr. Evans is a native of Pittsburgh, a member of a family that has for some generations been prominent in the Civic and Industrial Life of our City. His Uncle, Henry W. Oliver, who, by the way, was President of Pittsburgh Council 58 years ago, was one of Pittsburgh's Greatest Steel Manufacturers and the largest individual owner of Real Estate in Pittsburgh. Another Uncle of this nominee was Senator George T. Oliver, who served this Community with distinction in the Senate of the United States, and was the owner of the Gazette Times and Chronicle Telegraph. Another Uncle is David B. Oliver of this City, Pittsburgh's oldest Steel Manufacturer—now in his 95th year who for 50 years served this Community faithfully and with distinction, without compensation at any time, in School Board Educational Work, for many years being President of that body, and for whom the David B. Oliver High School was named.

It is a distinct pleasure to me to place in nomination one whom I know is exceedingly well equipped for the work, and who at all times will have the best interests of the Community at heart.

Mr. Winters arose and said

Mr. Chairman, I desire to second the nomination for the many good reasons set forth by Mr. Garland. The office of City Controller is a dignified and responsible office and is considered by the citizens of Pittsburgh as that of the "watch-dog" of the City Treasury. It has been occupied in the past by many men of prominence in public affairs—John B. Larkin, Henry I. Gourley, Eustace S. Morrow and our late friend, John H. Henderson—all men of standing in the community and men of integrity and character. In filling this position, we should bear that in mind and elect a man who stands true to those traditions and, I believe, the people will give

Council credit for electing such a man.

I therefore take pleasure in seconding this nomination of Henry Oliver Evans.

Mr. Anderson moved

That the nominations close on the name of Henry Oliver Evans.

Which motion prevailed.

And the Chair ordered the clerk to call the roll on the name of Henry Oliver Evans:

For Mr. Evans

Messrs. Alderdice, Anderson, English, Garland, Herron, Little, McArdle, Winters, Malone (President.)

And Mr. Henry Oliver Evans having received all of the votes of Council, was declared duly elected City Controller to fill the unexpired term of John H. Henderson, deceased.

And the Chair appointed

Messrs. Anderson, Garland and Winters a Special Committee to escort Controller-elect Henry Oliver Evans to the Council Chamber.

And the committee retired and returned with the Controller-elect, who was introduced by Mr. Garland.

And the oath of office was administered to the Controller-elect, Henry Oliver Evans, by President Malone.

And Controller Evans said

Mr. President and Members of Council, I hardly need to say that I appreciate to the highest possible extent the honor which has been conferred upon me by you, of being elected to this very important office of City Controller.

If you will permit me personal references, I might state that the first member of the Evans family came to McKeesport in 1796. He formerly lived near Wilmington, Delaware; came to McKeesport and bought two farms, one on the river bank where the National Tube Company and the American Sheet and Tin Plate Company now stand, and the other up on the hill, on which many of the residences of the City of McKeesport are built. From that time until now, every generation of the Evans family has been interested in good government. Only two of them had been office-holders—one of them my father, a member of the old Council for Twenty-three years continuously.

Now this great community has been a bountiful mother to me and mine, the descendants on both sides of my family, and in an endeavor to repay as much as I can

that long legacy and justify your confidence in electing me, I shall do everything in my power for the best interests of the City of Pittsburgh and for every citizen thereof. I take great pride in the fact that I am a citizen of this City, and additional pride in the fact that you have shown your confidence in me. I thank you.

The Chair stated

That the pupils of the Eighth grade of the Woolslair School were present with their principle, R. H. Henderson, and their teacher, Miss Blanche Riddle, and asked if either the teachers or the pupils had any thing to say.

Mr. Henderson arose and said

Mr. President and Members of Council,—I guess none of the pupils have anything to say. We are thankful to you for the opportunity of being here and appreciate very much the visit you gave us three weeks ago. We are interested in the work you are doing.

The Chair asked if any of the boys or girls had anything to say.

And Mr. Henderson said

It appears that they have nothing to say. I guess they will talk over what they have seen and heard when they get back to school.

Mr. McArdle moved

That the Minutes of Council, at a meeting held on Monday, December 31, 1928, be approved.

Which motion prevailed.

Mr. Garland, at this time, presented,

No. 3687.

In the National Municipal Review for December there is printed a schedule showing the comparative tax rates of 237 of the cities of the Country over 30,000 population for 1928, compiled by Mr. C. E. Rightor of Detroit Bureau of Governmental Research, Inc. This is very illuminating and Mr. Rightor deserves considerable credit for his informative and interesting data. The schedule for the first 10 cities is attached hereto.

The usual criticisms in newspapers of the Country have been going the rounds in the old-fashioned manner, slamming Pittsburgh, pointing to her "unenviable position at the head of the list."

Mr. Rightor has done the best he could, but let me say emphatically that no man or set of men can say what the City of Pitts-

burgh's tax rate is on mixed real estate, and this for the reason that we operate under the Graded Tax Law.

While we have a uniform tax rate of 25 Mills on land, and a uniform tax of 12½ Mills on Buildings (1928 and 1929 basis,) we have no uniform or flat tax rate on land and building combined. Like the tub, every

taxable stands on its own bottom. Flat tax rates on Pittsburgh mixed realty holdings range all along the line from about 13 Mills to 25 Mills, or \$13.00 to \$25.00 per \$1,000 of assessed valuation, the \$25.00 rate applying on land. A short example follows. (Thousands of holdings could be shown in this column, all with varying flat rates.)

Taxable	Assessed	Assessed	City Flat Tax on \$1000	
	Value of Land	Value of Building.	Assessed	Valuation
John Smith	\$ 500.00	\$5,000.00	13-6/10	Mills or \$13.60
William Brown	1,000.00	5,000.00	14-6/10	Mills or \$14.60
David Jones	5,000.00	5,000.00	18-¾	Mills or \$18.75
Land Owner	Any Amount—	No Building	25	Mills or \$25.00
	Land only			

The home owner with his modest holding is benefited, the owner of unimproved land is penalized.

Now with reference to the Detroit schedule, a particular factor that is difficult to determine correctly is the one under the head "Estimated Ratio of Assessed Valuation to Liquid Basis." It will be noted that Pittsburgh is shown as assessing 85% of actual valuation. There may be cases here where this 85% will apply, but in my opinion, not over 66-2/3% would be a fair average, and this would change considerably the schedule figures.

I have in mind one of our recently-built apartment house buildings, which within the last 90 days put out a Bond Issue of a little under \$1,250,000, secured by mortgage on the land and buildings. In their prospectus it was shown that said land and buildings were valued at an amount somewhat over \$1,750,000, this being done by independent appraisement, while the City of Pittsburgh's assessed valuation for tax purposes is between \$800,000 and \$850,000, or about 46% of real value, if the owner's or bond seller's own statement as given in the prospectus is correct as to the value of said holding by independent appraisals.

Comparisons can not be made properly between cities unless there is some uniformity or accuracy in appraised valuations; for example, the above-mentioned taxable is in the class of a 45% valuation, which, if it carried right along, and of course it does not, would place Pittsburgh in the last column of the Detroit schedule as \$17.03.

If, however, Pittsburgh's actual flat City Tax of \$13.30, which this property pays, were substituted for the \$18.96 Pittsburgh City tax shown in the Detroit schedule, this

particular holding would show under the last column heading as \$14.50, final readjusted tax rate.

Large tracts of land in Pittsburgh along the Allegheny River, in the heart of the City, have been purchased recently at a price over three times the assessed valuation.

Mr. Rightor in his article submitting the Detroit schedule, covers this point thoroughly, as follows:

"The rate alone, however, is decidedly inadequate as a basis for comparison between cities. As has been repeatedly stated, the comparative real tax burden may be indicated only when the tax rate is expressed as applied to the true cash or market value in all cities. Most assessing officials will assert that such basis, or any gradation permitted by law, is actually enforced. Yet where is the city in which all the property owners will honestly hold that they believe assessments are made upon that basis? Undoubtedly it varies with cities, and no way has been found of measuring the diversified practices. The only test of the degree to which such adherence is had by the assessing officials would be a check by an impartial and competent person or agency. And the wonder today, with existing tax demands, is that heavy taxpaying groups in every city have not demanded such independent check. Were the results of such study available in each city, an acceptable basis for the last two columns of the table would be at hand, and furnish a much-sought-for but not now available index to the tax problem."

(The underlinings are mine)

This is a fair frank statement. Evidently those who are leveling their criticisms at Pittsburgh did not read this submission which accompanied the schedule.

Let us consider our Office Buildings and Apartment Houses. The following buildings pay flat City tax as shown: (Note the variations, due to varying land values.)

Per \$1000 of Assessed Valuation.	
Highland Building	\$14.90
Frick Building	16.90
Carnegie Building	18.80
El Tower Apartments	12.70
Morrowfield Apartment	13.20
Schenley Apartments	14.40
and so on ad infinitum—all varying —no uniform City tax rate, except on unim- proved land where the City tax rate is uniformly \$25.00 per \$1000 assessed valua- tion.	

We are shown in Mr. Rightor's statement as having an average 18.96 City tax rate. No criticism of Mr. Rightor, as it could be stated in no other way, this being based upon receipts by the City on the total of land and buildings. We should bear in mind, however, that we are penalized by the fact that all land unoccupied or vacant is assessed at \$25.00 per \$1000 assessed valuation, and of course we have considerable vacant land in our present boundaries. But the small home owner on the modest lot is the beneficiary, for the very reason that land pays a double tax rate over buildings—the improved lot benefits by a lower flat rate.

The high building on a contracted lot is also a beneficiary under our system, the man with slightly improved or totally unimproved land is mulcted.

Pittsburgh taxes land and buildings only. (We collect for water furnished as a commodity—the term "water tax" is a misnomer.) Machinery of all descriptions is exempt, whether it be the expensive in-

stallation of the Power or Heating Plant or the machinery in a Mill, Factory or Laundry, or what not. Nor do we tax personal property of any description, whether it be books, jewelry, rugs, pictures, or other furnishings, or the automobile at value; or inventory, being stock on hand, raw, semi-finished, or finished, in the Mill or Factory, or the goods or commodities in the Department Store or the stores of any merchants. If we did, and practically all other Cities outside of Pennsylvania do, we would have a larger total of assessed valuations with a correspondingly much lower tax rate.

It might here be noted that the Cities of our neighboring State of Ohio exact a tax on all the items mentioned, and also exact a tax on bank deposits.

But again I say that the "small home" owner on the modest-priced lot under the graded tax system, is not hurt, while the owner of vacant or unimproved land is penalized.

As previously shown, John Smith's flat City tax rate is 13-6/10 Mills or \$13.60 per \$1000 of assessed valuation.

The person with unimproved land pays 25 Mills or \$25.00 on \$1000 of assessed valuation, or 84% higher City tax rate.

William Brown (shown in example above) pays 14-6/10 or \$14.60; the taxable with unimproved land pays 71% higher City tax.

Under our bewildering system, how can we be compared with other Cities? In Pittsburgh, "Every tub stands on its own bottom."

We have no uniform City tax rate on mixed real estate; we have it on unimproved land only.

Let us get to the root of the whole matter by giving the following example:—

Take William Brown's taxable cited above, which is a common one. Let us assume that his house and lot are worth \$9000, (\$1500 for land and \$7500 for house) and he is assessed \$6000 (\$1000 for land and \$5000 for house.)

This would show as follows:

Detroit Formula.

City	School				
Flat Tax	Tax	County	Total	Ratio	Final Rate
14.60	11.50	7.38	33.48	66-2/3%	\$22.32

This is quite a difference from \$2.16 heralded as Pittsburgh's experience.

Every taxable must do his own figuring.

If we take a **per capita tax**, which might be more equitable, and which can be arrived at by taking the assessed valuation multiplied by the rate of tax; as, for example, in the case of Pittsburgh—population 673,000 — assessed valuation, \$1,108,842,440, multiplied by 3216, which is the Detroit Bureau's final readjusted tax rate as shown in the statement, it would show Pittsburgh as 52.90 per capita, and this on the assumption that we assess at 85% (?) of actual valuation, which as stated, in the writer's opinion is entirely too high; but for the purpose of illustration we are here taking the Detroit Bureau's figures throughout, even if they do penalize us. This data would show the per capita tax as follows:

Cleveland	\$41.40
Baltimore	49.30
Pittsburgh	52.90
Philadelphia	55.30
Detroit	56.20
Boston	63.00
New York	64.00

Chicago's figures are not given above because those shown in the Detroit Bureau statement are based on 1927 assessed valuation instead of 1928; nor is Los Angeles shown for the reason that the Detroit Bureau states on a foot-note that the population figures shown are locally estimated, and the figures for St. Louis are not shown for the reason that the writer cannot reconcile the data as shown for that City.

Notwithstanding these slams that Pittsburgh seems to be constantly receiving, we continue our march of progress—Still doing business at the same old stand. Through tax exemptions common to cities of Pennsylvania only, we encourage industry to such an extent that Pennsylvania is the great Industrial State of the Union, and our fair City, while ranking tenth in population, is the Fifth

City in business transacted. What additions have recently been made and are now being made to preserve and secure our supremacy? Over \$100,000,000 (One Hundred Millions) expended by the Carnegie Steel Company alone in the past 4 years, and many additional millions to be spent.

Ground now being broken for the construction of the Davison Coke and Iron Company Plant, \$10,000,000, an entirely new proposition, well capitalized.

The A. M. Byers Company, New Plant, for which an initial expenditure of \$10,000,000 has been authorized, work now under way.

The National Tube Company and Jones and Laughlin—expansions over \$30,000,000.

The Duquesne Light Company, with its huge new Power Generating System (The James H. Reed Power Station) and the new Steam Generating Station of the Allegheny County Steam Heating Company (a Public Utility,) an ultimate expenditure of over \$40,000,000.

The Pennsylvania Railroad new Freight and Passenger Terminals, now under way, \$25,000,000.

The Pittsburgh and Lake Erie (New York Central Lines) enlarging of Pittsburgh Terminals, \$10,000,000.

Bell Telephone Company, addition to Pittsburgh Telephone Plant, over \$6,000,000.

The City and County (municipal governments) with their programs, covering an early expenditure of over \$50,000,000—and there are many other industrial expansions—and we have the following new structures, some just completed, others under construction, the values shown below being for building only, land value not included:—

New Stanley Theatre and

Clark Office Building.....10,000,000

Loew New Theatre and

Office Building 5,000,000

New University of Pittsburgh Building, (Cathedral of Learning)	6,500,000
Grant (Office) Building.....	5,500,000
Koppers (Office) Building	4,500,000
Plaza (Office) Building	800,000
Insurance Exchange Building	1,250,000
Law and Finance Building	1,300,000
Joseph Horne Company Warehouse	1,500,000
Keystone Athletic Club.....	1,600,000
William Penn Hotel Annex	2,650,000
Roosevelt Hotel	1,500,000
Press Publishing Company Plant	2,000,000
Mayflower Hotel	2,000,000
The Pittsburgher (Hotel).....	1,000,000
May Drug Company Building	500,000

Also a new Town Hall, for which \$6,000,000 is available. And there could be enumerated in this list many Apartment Houses and other new constructions to the extent of some

millions additional. It might be particularly noted, however, that the **additional Office Building space**, some just completed and all ready for occupancy the coming spring, **will add 1,067,000 square feet** (about 24½ acres) to our available space in the Golden Triangle of downtown Pittsburgh. New York and Chicago will, of course, surpass this record, but can any other American City equal it?—certainly none in proportion to population.

If we are over-taxing, and we are not, building is going along somewhat stronger than usual.

We must admit that the land owner with no improvements is highly taxed, **but the home owner is NOT—The Factory is NOT—Nor is the Department Store, the Office Building, the Hotel, the Theatre, or the Apartment Building.** We compare more than favorably with other cities. We have more than most of them and perhaps we give more. So we go along our way—Awake—Accomplishing — and Progressing—Just Watch Our Step.

DEPARTMENT OF PUBLIC SAFETY

January 5, 1929.

To the President and
Members of City Council.
Gentlemen:

At the request of a member of Your Honorable Body, investigation was made of traffic conditions on Park Way (Carrick), and as a result,

it is deemed advisable to institute a 60-day trial of "No Parking at any time" on the northerly side of Park Way, from Brownsville Road to the entrance to the Carrick Public Park; effective.

Jany. 15, 1929.

This regulation meets with the approval of the principal of the High School and representative residents in that block.

Very truly yours,

JAMES M. CLARK,

DIRECTOR.

DEPARTMENT OF PUBLIC SAFETY

January 14th, 1929.

To the President and
Members of City Council.

Gentlemen:

After investigation of the complaints made to this office by residents of Ellsworth Avenue, between Negley Avenue and Spahr Street, regarding the annoyance and inconvenience caused by the solid all-day parking on both sides of the street in this section, and because our investigation showed that this parking hindered the free movement of traffic, it is deemed advisable to institute a 60-day trial of the following regulations; effective.

Jany. 15, 1929.

"No Parking from 7:30 to 8:00 A. M. and from 5:00 to 7:00 P. M., with one-hour parking from 8:30 A. M. to 5:00 P. M. on both sides of Ellsworth Avenue, from Negley Avenue to Spahr Street."

Very truly yours,
James M. Clark

DEPARTMENT OF PUBLIC SAFETY

January 14, 1929.

President and Members

of City Council.

Gentlemen:

On December 17th, I wrote you concerning a proposed sixty-day trial of the elimination of about forty left turns in the downtown district. In view of the importance of this trial to the public and the fact, as stated in the letter, that for a period at least, the trial will cause some confusion and a certain amount of hardship to drivers, and possibly to businesses, until drivers have readjusted themselves, it was respectfully suggested that City Council hold a hearing on this matter previous to today, when the trial was scheduled to start.

Realizing that your honorable body has been very busy with the 1929 budget, and still believing it desirable that there be a public hearing on this matter before the trial is put

into effect, I have postponed the inauguration of the trial until Monday, February 4th.

Trusting that you will find it convenient to hold the suggested public hearing prior to that date, I am

Very truly yours,

James M. Clark.

DIRECTOR

Which was read, received and filed, and the Chair stated that a public hearing on the subject would be held in the near future.

NINE MILE RUN

COMMITTEE ON PUBLIC WORKS,
Council, City of Pittsburgh.

Gentlemen:—

Replying to a request of the Committee on Public Works held Tuesday, January 8th, 1929 for an additional report on Bill No. 3590, Resolution authorizing the issue of a warrant in favor of Dunn & Ryan Contracting Co. in the sum of \$4,794.55, for payment of certain additional work and material furnished in connection with the construction of the NINE MILE RUN Drainage Basin sewer, we submit the following additional information:—

Shortly after the contract was awarded, the question of paying \$7.00 per Cu. Yd. for Trench Excavation as called for in ITEM 16 of the contract, where the estimated quantity was shown as 70 Cu. Yds., was given consideration. This item instead of being 70 Cu. Yds. should have been approximately 700 Cu. Yds. The price of \$7.00 was considered unreasonable and the contractor requested at a conference held in the office of the City Solicitor, to reduce his price to \$3.65 and to submit a bid accordingly. This bid was received and approved by the Director of the Department of Public Works, June 16, 1928. The total amount of ITEM 16 included in the estimate is 100.3 Cu. Yds. of Trench Excavation at \$7.00 per Cu. Yd.—\$702.10. The item included in the extra work as covered in the Resolution is 808.3 Cu. Yds. at \$3.65—2,950.30. \$2,950.30.

The second item in the Resolution was additional Cement used in the construction of the concrete sewer. A one-half bag of cement was added to each six (6) bag batch in order to secure a more workable mix and a better concrete. An inspector was

assigned to the supervision of the materials and mixing of the concrete and the checking of the extra one-half bag of cement used. By actual count of the Inspector assigned, Mr. Bonadio, 2,459 bags were used. This amount of additional material, 2,459 bags at .75.....\$1,844.25

\$4,794.55

The total amount as covered in the Resolution is the sum of these two (2) quantities, or \$4,794.55.

Yours truly,

Edward G. Lang.

DIRECTOR.

REPORTS OF SPECIAL COMMITTEES

Mr. Herron presented

No. 3756.

Pittsburgh, January 14, 1929.

President and Members
of Council.

Gentlemen:—

Your Committee, appointed to investigate the complaints that the collection of garbage and rubbish throughout the City of Pittsburgh was costing too much and that con-

siderable abuses have entered into it, respectfully submit the following:—

We have investigated the cost of the service and compared it with similar service rendered in other cities, and from the best information obtainable, we are quite sure that Pittsburgh's cost compares favorably with others.

We have carefully considered the suggestions offered by the Allied Boards of Trade, through its spokesman, Mr. Kountz, for what they considered would cause reduction in the cost, and cannot see where these would make any material savings.

The small store owner, who is receiving this service now, in the judgment of this Committee, is entitled to it, and we do not feel like putting any additional costs upon him.

The plan in vogue in some cities of having the householder place the garbage and rubbish at the curb, we also reject as we do not feel as though the savings would justify the inconvenience to the householder and it would also result in a very untidy and unsanitary condition.

We have taken up their suggestion of closer inspection and recommend that the Department of Public Health instruct all of its Inspectors and Weighmasters that this contract is to be lived up to and that no abuses are to be permitted. We feel as though a closer supervision may bring more satisfactory results.

In our judgment, the question of Municipal handling of these materials would not prove as satisfactory as the present form. Surveys made by Mr. Knowles and others have convinced us that the contract which we have at the present time is not in any way detrimental to the City. Because of the usual unsatisfactory conditions surrounding a garbage and rubbish disposal plant, we feel as though we cannot recommend the establishment of any of them within the corporate limits of the City and that if municipal handling is to be considered, it can only be approached after a very careful survey. We, however, feel as though the sugges-

tion that this contract be extended might bring better results, and therefore recommend that the contract for the year 1929 be written so as to invite bids for one, two or five year periods.

We have been informed that there has been considerable less tonnage, especially in rubbish, last year, and we have every reason to believe that the reduction will be continued. This condition may be the result of the privately installed incinerating plants in most of our large apartment houses recently erected, as well as to the clean-up campaigns which have resulted in a thorough cleaning out of premises during past years.

Robt. Garland,

John S. Herron,

Committee.

Which was read.

Mr. Herron moved

That the report be approved.

Mr. Alderdice asked if this finished the work of the committee, or whether it would be continued.

The Chair stated

That the committee would be continued, and asked that the Clerk file a copy of the report with the ordinance.

Mr. McArdle arose and said:—

I would like to make this suggestion—that if the pending ordinance is passed, and if amended so as to provide for these longer terms as recommended by this Committee, we do not receive bids other than those from the present contractors, that we be advised to that effect, so that we may determine as to whether there is a lack of time in advertising, and if so, we may advertise for these contracts further in advance, so that we may get some satisfactory answer as to whether there are other bona fide bidders who want to bid, but who are prevented from bidding on these contracts on account of lack of time.

Mr. English asked that the Director of the Department of Public Health be given a copy of the report

to read so that Council could get his reaction on it. And the question returning on the motion that the report be approved.

The motion prevailed

Mr. Little presented

No. 3757. Report of the Special Committee submitting memorial resolution on the death of the late City Controller, John H. Henderson.

Which was read, received and filed.

Also

No. 3758.

John H. Henderson was born September 9th, 1866; was educated in the Public Schools and Allegheny College; studied law with his father, and was admitted to the Allegheny County Bar in 1889, since which time he practiced his profession and was also successfully engaged in various business enterprises.

In 1889, and several times subsequently, he was elected a delegate to State Conventions of the Republican Party; in 1897, before its consolidation with Pittsburgh, he was elected to the City Council of Allegheny; in 1898, he was elected as Representative of Allegheny to the State Legislature, and served until the Special Session of 1906, when Allegheny was annexed to Pittsburgh; in 1919, he was elected a member of the City Council of Pittsburgh, and in 1922, was elected City Controller to fill the vacancy caused by the death of Eustace S. Morrow, which position he filled until the time of his death, December 22nd, 1928; Therefore, be it

RESOLVED, That in the death of John H. Henderson, the City of Pittsburgh has lost a capable and conscientious official and the members of this Body have lost a valued friend, and take this means of expressing their sense of sorrow and loss over his death; and be it further

RESOLVED, That an engrossed copy of these resolutions be forwarded to the widow of the late City Controller.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed by an unanimous rising vote.

MOTIONS AND RESOLUTIONS.

Mr. Little, at this time obtained leave, and presented

No. 3759. Resolution authorizing and directing the City Treasurer to exonerate city taxes levied on property at 1112 Forbes street, Pittsburgh, used as Keystone Hotel, amounting in the aggregate to \$651.87.

Which was read and referred to the Committee on Finance.

Mr. McArdle presented

No. 3760. Petition of Residents of Sebring avenue, 19th Ward, asking that the grading, paving and curbing of said Sebring avenue be extended from lot Nos. 116 and 117 to lot Nos. 118 and 119.

Which was read and referred to the Committee on Public Works.

Mr. English presented

No. 3761.

WHEREAS, Through delay in advising the Department of Public Works of motion passed Finance Committee regarding the desire of Council to provide water service and fire hydrants in former Union Township, now part of the 20th Ward, supplied by the South Pittsburgh Water Company, this installation was not provided for; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be and he is hereby requested to have fifty-eight (58) fire hydrants installed in that portion of the 20th Ward, formerly called Union Township; said hydrants to be placed on the other streets in addition to those already approved for Banksville avenue.

Which was read.

Mr. English moved

The adoption of the resolution.

Which motion prevailed.

Mr. McArdle moved

That the Minutes of Council, at a meeting held on Monday, January 7, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

DEPARTMENT OF PUBLIC SAFETY

January 17th, 1929.

To the President and Members of City Council.

Gentlemen:—

Under date of January 2nd, I instituted 60 day trial of no parking at any time on both sides of Water Street, from Ferry Street to Penn Avenue, and on West Street, both sides, from Water Street to Liberty Avenue.

Experience with the trial has made it seem desirable to make the following changes which I propose to institute as a new 60 day trial, effective January 22, 1929.

(a) One hour parking on the northerly side of Water street from Ferry street to Penn avenue.

(b) No parking at any time on the southerly side of Water street from Ferry street to Penn avenue.

(c) One hour parking on West street, both sides, from Water street to Liberty avenue.

Very truly yours,

James M. Clark
DIRECTOR.

APPROVED:

Charles H. Kline
MAYOR.

Which was read, received and filed.

DEPARTMENT OF PUBLIC WORKS

January 14, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

At your convenience I would like you to appoint a time to view the various locations in the West Parks on the North Side for the location of the Soldiers Monument that you contemplate removing from Monument Hill to the said parks. Inasmuch as the removal of the Monument is before you and contract will be entered into with your permission after proper legislation is passed to relocate this Monument, we should know

just where it is to be located in order to provide specifications that will cover these two phases of the matter and get the work under way without delay, so that little interference will be had with our excavation on Monument Hill for the raising of the North Side streets.

I shall await your advices and be prepared to attend your body when you are ready.

Yours very truly,

Edward G. Lang
Director.

President and Members of Council,
City of Pittsburgh, Pennsylvania.

Gentlemen:—

The report of the Special Committee of Council on garbage and rubbish removal, sent to the Health Department for reaction on the same, has been received and read with much interest.

The Committee's suggestion to the Health Department for closer inspection through its inspectors and weighmasters has been acted upon at once by this office. The Health Department particularly conforms with the judgment of the Committee that the placing of garbage and rubbish receptacles at the curb would result in a very untidy and insanitary condition.

Even with the limited experience I have had in this matter, it is clear that the main interest of the citizens of Pittsburgh is for regular and efficient service. To this end, every facility of the Department of Public

Health—with the co-operation of your honorable body—will be utilized.

Very truly yours,

Chas. B. Maits.

Director.

DEPARTMENT OF CITY PLANNING
Suite 919 City-County Building
Pittsburgh

January 26, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

The City Planning Commission sub-
mits herewith its approved plans for
Carson Street West, between Chartiers
Creek and Smithfield Street.

Plans very similar to these have
been held by the Commission for sev-
eral years subject to any modifica-
tions which might appear necessary
when the project or any part thereof
should be considered for construction.
A resolution of the City Council (Bill
1753) passed May 28, 1928, called upon
the Department of Public Works to
"report upon the cost and the best
plan for the widening and repaving
of Carson Street West from Steuben
Street to Chartiers Creek."

The City Planning Commission and
the Department of Public Works have

(1) Jointly considered these plans
with a view to assuring that such
work as may now be undertaken will
be within the lines of, and not con-
flict with, plans for the ultimate
amplification and improvement of this
thorofare;

(2) Jointly conferred with the
County Public Works Department and
incorporated into the thorofare plan
the County's plan for the south ap-

proach of the West End North Side
Bridge;

(3) Jointly conferred with officials
of the Pittsburgh and Lake Erie
Railroad concerning adjustment of
the street plans to railroad property.

Moreover the plans here submitted
conform to, and are a part of, the
Master Plan of Major Streets formally
approved by the Commission as a par-
tial plan on November 20, 1928.

Therefore, the Planning Commission
recommends, by formal action when
finally approving these plans, on Jan-
uary 22, 1929, that the Council accept
the same and use them as the basis
of negotiation with the various inter-
ests affected, meanwhile requesting
the Department of Public Works to
verify questions of adjustment of
plans of immediate improvements
thereto.

Respectfully submitted,

DEPARTMENT OF CITY PLANNING

By L. W. Monteverde, Chairman

Bill No. 3657.

WHEREAS, J. T. Nealon, Contractor on California Avenue Bridge, Contract No. 1, Foundations, Controller's Contract No. 2257, claimed additional compensation under said contract, and WHEREAS, Said claim has resulted in extensive investigations including hearings in Council and negotiations, and

WHEREAS, The said J. T. Nealon has signified his willingness to accept One Hundred Five Thousand (\$105,000.00) Dollars as full compensation for all work under said contract; and

WHEREAS, The Final Estimate for said contract amounts to One Hundred Five Thousand (\$105,000.00) Dollars before deductions for previous payments; NOW, THEREFORE, BE IT

RESOLVED—That the Mayor be and he is hereby authorized to issue and the City Controller to countersign a warrant in favor of J. T. Nealon for the sum of Thirty Two Thousand Six Hundred Thirty-nine and 39/100 (\$32,639.39) Dollars and charge the same to Code Account No. 268 in full settlement for all claims against the City of Pittsburgh for the construction of the California Avenue Bridge.

In Finance Committee, January 22, 1929, Read and amended by striking out the entire resolution, and by inserting in lieu thereof the following: WHEREAS, J. T. Nealon, contractor on the California Avenue Bridge, Contract No. 1, Foundations, Controller's Contract No. 2257, claims additional compensation under said contract; and

WHEREAS, The amount of the original contract awarded to J. T. Nealon was \$65,285.00; and,

WHEREAS, Under the contract additional excavation was necessary and also additional concrete work, as well as reinforcement was required to provide for better foundation, all of which could not reasonably have been foreseen by the engineers and the Director of the Department of Public Works even though test holes had been made, and the cost of said extra work is estimated at \$39,715.00, as explained by the Director and Chief Engineer of the Department of Public Works; and,

WHEREAS, At the hearings before the Director, as well as the hearings before Council, it developed that a number of subcontractors have not been paid for work or materials as furnished for this contract; and,

WHEREAS, It would work a great hardship upon them if the City does not make a compromise agreement to pay the contractor additional sums for the extra work as done by him so as to furnish deeper foundation for said bridge; and,

WHEREAS, Payments have already been made to the said J. T. Nealon amounting to \$72,360.61, and the work having been finished and a final estimate now being prepared; now, therefore, be it

RESOLVED, That the Mayor be and he is hereby authorized and directed to issue and the City Controller to countersign a warrant in favor of J. T. Nealon in the sum of \$32,639.39, in lieu of final estimate and in full settlement for any and all claims or demands of any kind or character against the City of Pittsburgh, growing out of or for the construction of the California Avenue Bridge, and charge the same to Bond Fund No. 268.

And as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. Garland moved

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the resolution, as amended in committee and agreed to by council, was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Chas. A. Waldschmidt

City Solicitor

FINANCE COMMITTEE OF COUNCIL,
Gentlemen:

On Bill No. 3657, being a Resolution to pay J. T. Nealon additional monies growing out of his contract for the foundation for the California Avenue Bridge, I beg to report as follows:

It is impossible to mathematically determine what money, if any, should be paid Mr. Nealon in addition to the amounts already submitted in the proposed final estimate. Equitably he is probably entitled to some additional compensation. What that amount is, can only be determined by considering the claim and trying to do justice between the claimant and the City. There is no doubt the City made numerous changes in the plans and that the structure as finally constructed was in some respects different from the proposed structure when the contract was let. Of the thirty-three (33) revisions in the plans, most of them are immaterial. Many of them were made on the ground and did not involve, in my opinion, any additional cost upon the structure. This is based upon the information and statements as made by the engineers in the Department of Public Works.

Carrying the structure down to the depth it was, put the contractor to a considerable unanticipated expense, and, in my opinion, caused this controversy in the following respect:

The concrete work consisted of what might be called the stem, built upon a foundation, the foundation being greater in area than the cross section of the stem. When the structure was carried deeper into the earth than originally contemplated, the contractor had to excavate the full width of the foundation to the extreme depth, put in the foundation and the upper part of the concrete work, which I have called a stem, and then backfill around the stem. I am also informed, that before this contract was let, there were test holes made of the condition of the ground. The going down to great additional depths was possibly not foreseen by either party at the time of the letting of the contract, and the using of reinforced concrete at these lower depths seems possibly a consideration

taken for the safety of the structure.

The only way that justice could be done in this matter is to consider the reasonable or actual cost for this work, which was not fully comprehended by the contract and at most was contingent. This, of course, is a matter of estimate for the engineers, as the contractor has not kept any accurate records of this additional cost. Of course, these changes as made by the Department would naturally cause some delay in the work, but under the contract, the contractor is not allowed anything for any delay in the work except the extension of the time for finishing the contract and cannot be compensated in dollars and cents. Taking the whole matter into consideration, the contract for the work, the changes made by the Department of Public Works and the amount of extra work done by the contractor, there surely appears to be some equity in his claim for extra work and additional payment. There has not been submitted to the Law Department any statement of actual costs for this work, these being purely estimates of the engineers for the contractor and estimates of the engineers for the City. After going over the whole question, considering the estimates of both parties, both the engineers for the City and the engineers for the contractor, and the position of the City in this matter, this Department must rely on the judgment of our engineers and the final judgment of the Director of the Department of Public Works in the amount to be arrived at.

We have submitted to Council our opinion and have suggested to the Director the amount, but this, of course, does not necessarily mean that we are absolutely correct, as the matter of determining what in our judgment is the correct amount, is in the final analysis, a matter for Council. There can be no question that in the work done on the bridge there was quite an additional cost involved, and as we have no figures for the actual amount of additional cost incurred, but merely estimates, and considering further that the work was done for the City, the character and condition of the same, the manner in which the

work was done, and no proper records of cost kept therefor by the contractor, this claim has a moral side, which is wholly within the jurisdiction of Council. In arriving at our price, or in suggesting any settlement for same, the Law Department must rely entirely upon the information of our engineers, which is our only source of knowledge.

Respectfully,

Chas. A. Waldschmidt,
CITY SOLICITOR.

CITY OF PITTSBURGH

January 22, 1929

PRESIDENT AND MEMBERS OF
COUNCIL,

City of Pittsburgh.

Gentlemen:—

In reference to the J. T. Nealon Company claim for extra work on the California Avenue Bridge foundation contract No. 1, I wish to state that the contract price for this work was \$65,285.00, but after the work was under way, it was necessary to make some changes which necessitated additional work, which has been a subject of controversy between the City Engineers and the J. T. Nealon Company. The J. T. Nealon Company at one time claimed \$135,000.00. At no time have our engineers been able to get to the point where they could recommend more than a total of \$96,000.00, which includes the final estimate of cost at unit prices of \$85,564.48. Mr. Lee Beatty, the attorney representing the J. T. Nealon Company, has submitted a proposition to us whereby upon the payment of \$105,000.00, his client will give a receipt to the City for payment in full.

As you know, I must be guided largely by the recommendation of our engineers and our City Solicitor. We made no offer to the J. T. Nealon Company, because we were, at no time able to meet their proposition of \$105,000.00, which was submitted to us some time ago.

Of course, time has passed and interest has accrued, and if Council is willing to settle this on a compromise basis for \$105,000.00, I wish to say that to save any further litigation and the expense incident thereto, and with the understanding that the incident be closed, I will concur in the payment of \$105,000.00. I have conferred with Mr. Waldschmidt and he will not oppose this, realizing that this matter has been long drawn out and ought to be settled.

Yours very truly,

Edward G. Lang,

Director.

Chicago

January 24, 1929.

Finance Committee,
Council of the City of Pittsburgh,
Pittsburgh, Pa.

Gentlemen:

This will acknowledge, for the Arlington Apartment Corporation, receipt of your letter of January 23rd, 1929, advising us that at a meeting of the Finance Committee, held January 22nd, 1929, Bill No. 3777 was referred to us for report as to what we propose to build on the property at Center avenue and Aiken avenue, Pittsburgh.

In reply, we are pleased to advise you that we propose to erect on this property, an apartment building for not over one hundred seventy-six (176) families, in accordance with the plans submitted to the City when application for permit was made. A further brief description of this building, is that it is to be of fire-proof construction, is to contain a Garage for the storage of tenants' cars, is to set back a minimum of 15 feet from Aiken street, is to have a 15 foot back yard and a twelve foot side yard, is to be built around a very large court, is to have stores only on the Center Avenue elevation, and is to be approximately 105 feet high.

All points concerning this building have been passed on and approved by the City officials, and by the City Planning Commission.

This building is to be a strictly first class residential apartment building, comparable in construction and quality to the Fairfax Apartment Building on Fifth Avenue in Pittsburgh.

We trust that this information is what you require, and we hope that you will see fit to pass favorably on this bill.

Yours very truly,

ARLINGTON APARTMENT
CORPORATION,

CITY OF PITTSBURGH
Pennsylvania

Department of City Controller

John H. Henderson, Controller

John Schilpp, Jr., Deputy Controller

January 23rd, 1929,

Mr. John Schilpp, Jr.,

Clerk of Finance Committee

Dear Sir:—

With reference to Bill No. 3571, an Ordinance amending certain sections of the salary ordinance, I beg to report as follows:—

This bill provides for an increase in Inspectors in the Division of Housing and Sanitary Inspection from 30 to 31 to provide for sanitary inspection in the former Borough of Hays.

An increase in the number of patrolmen from 939 to 945 to provide for the patrolmen employed by the former Borough of Hays.

An increase in the number of pumpmen in the Bureau of Fire from 92 to 98 and an increase in the number of hosemen and laddermen from 572 to 580. The increase in pumpmen being to provide for 6 enginemen at the same rate of pay whose duties have been changed by the installation of new equipment. Six of the eight hosemen and laddermen are to take the place of six Assistant Enginemen at the same rate of pay whose duties have been changed by the installation of new equipment, the other two being to provide for employes of the former Borough of Hays.

An increase in the number of street foremen in the Bureau of Highways and Sewers from 38 to 39 to provide for the Street Commissioner of the former Borough of Hays.

An increase from 19 to 34 female recreation leaders at the summer playgrounds in accordance with the action of the Budget Committee in allowing this increase in force.

The authorization of 8 male recreation leaders with an unlimited number of laborers at the North Side Athletic Fields in accordance with the action of the Budget Committee in making provision for this additional service.

The amendment also includes provision for a stenographer-clerk at \$1,-

830.00 per annum in the general office of the Department of Public Works and a stenographer at \$1,692.00 per annum in the Division of Accounting, also abolishing the position of stenographer at \$1,692.00 per annum in the general office and the position of stenographer-clerk at \$1,830.00 per annum in the Division of Accounting. This amendment merely provides for the payment of two employees in the division of Public Works to which they are assigned and makes no change whatever in the rate of compensation of either individual or in the work which they perform.

Very truly yours,

H. S. Breitenstein,
CHIEF ACCOUNTANT.

Which was read and referred to the Committee on Finance.

Mr. Little presented

No. 3907. Whereas, Recent petitions to the Board of Public Education on the part of students of Allegheny High School, appealing for replacement of the old structure with a modern fireproof building, have developed the fact that school authorities agree that the building is not in keeping with present-day requirements to provide proper school facilities; and

Whereas, Recent inspection of the Allegheny High School building by officials of the Bureau of Fire showed that the structure is not modern and apparently inadequate to care for the needs of the community; and

Whereas, There are many old school buildings in the City, both grade and high schools, which may be classified as inadequate and of old type construction; Therefore, be it

Resolved, That City Council request and urge the Board of Public Education to raze the present Allegheny High School building and erect a modern fireproof structure; and, be it further

Resolved, That officers of the Bureau of Fire, under the direction of Fire Chief Richard L. Smith, be authorized to devote as much time as is necessary for immediate inspection of school buildings throughout the City.

Which was read.

Garland

McArdle
Winters

Ayes—5.

Noes—4.

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. English moved

That the City Solicitor be and he is hereby requested to present to Council a resolution or an ordinance setting forth a plan or policy for the City to adopt in the matter of costs and damages to property in making public improvements.

Which motion prevailed.

Mr. Little presented

No. 3908. Whereas, There have been several fires discovered in the old City Hall, North Side; and

Whereas, this has caused considerable worry because of the housing of the City's fire alarm equipment; and

Whereas, The loss of this apparatus would cause untold inconvenience and danger to the citizens of the North Side; Therefore, be it

Resolved, That the Mayor be requested to direct the Director of the Department of Public Safety and the Director of the Department of Public Works to take the necessary steps to immediately protect the building from all fire hazards.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 3909.

WHEREAS, There has been a new combination fire and police station contemplated for the North Side for some time; and

WHEREAS, A large sum of money has been set aside for the purpose of building and equipping it; and

WHEREAS, The constant recurring of fires have caused unnecessary worry on the part of a great many citizens living in the

North Side District and constantly reminding them of the hazard existing there; and

WHEREAS, A period of seven or eight years has elapsed since this work was first projected; and

WHEREAS, The best thought and judgment of the fire officials is that this fire apparatus should be erected and maintained in a separate building where it will be free from that hazard; Therefore, be it

RESOLVED, That the Mayor be requested to direct the Director of the Department of Public Safety to cause plans to be drawn and arrangements made for the housing of the valuable equipment used in the fire alarm office in a site other than the proposed new station, and that a report be made to Council on the status of these buildings within two weeks.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 3910.

WHEREAS, The late E. H. Swindell advocated for many years the construction of a bridge over East street to connect Charles street and Essen street, and labored earnestly in behalf of such a structure; and

WHEREAS, It was largely through his efforts that funds were provided in the various Bond issues to finance the construction thereof; Now, Therefore, be it

RESOLVED, That the proposed bridge, now known as the "East Street Bridge to connect Charles and Essen Streets," be named the "E. H. Swindell Bridge," and that the Mayor and the Director of the Department of Public Works be requested to suitably designate such commemoration in the construction of the bridge.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

The Chair presented
No. 3911.

WHEREAS, There are great numbers of unemployed men in the City of Pittsburgh at the present time, and immediate action should be taken to provide every means to relieve this condition; and

WHEREAS, Council has authorized, by the final passage of ordinances, as well as setting up appropriations in the Budget, monies to the amount of more than eight million dollars; and

WHEREAS, These improvements cover the grading, paving and curbing of approximately one hundred streets and also sewers, bridges, concrete steps, retaining walls, etc., in all sections of the City, and the people residing on and near these streets are insisting on prompt completion of the various improvements which have been authorized; and

WHEREAS, By awarding the contracts for the work authorized, it will greatly relieve the state of unemployment now existing; and

WHEREAS, Unfortunately contracts for work authorized in 1927, were not awarded until late in July, 1928, thus preventing a great deal of the work being completed; and

WHEREAS, Every effort should be put forth to prevent such a delay again occurring in the vast amount of work at present authorized by Council; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be requested to immediately prepare for advertising these various improvements, so that the work may be started on them at the earliest possible date in the Spring, and to this end, that all available forces under his control be assigned to the said work; and be it further

RESOLVED, That the estimates of cost for the proposed Repaving Schedule be immediately submitted to Council, so that the complete approved schedule for the year 1929 may be decided on in the very near future.

Which was read.

Mr. Herron moved

The adoption of the resolution.

Which motion prevailed.

Mr. **Winters** moved

That the Minutes of Council,
at a meeting held on Monday, January
21st, 1929, be approved.

Which motion prevailed.

And there being no further business
before the meeting, the **Chair** de-
clared

Council adjourned.

CITY OF PITTSBURGH, PA.

Department of Public Health,
C. B. Maits, M. D.,
Director.

February 4th, 1929.

Committee on Health and Sanitation,
Council of City of Pittsburgh, Pa.
Gentlemen:

As requested in your letter of January 30th, 1929, I am attaching herewith a copy of the specifications covering the collection, removal and disposal of rubbish and collection, removal and disposal of garbage—which specifications include the recommendations of the Special Committee of Council.

Very truly yours,
CHAS. B. MAITS,
Director.

SPECIFICATIONS

For the collection, removal and disposal of rubbish

In the City of Pittsburgh
For the year ending December 31st, 1929.

FIRST: All the provisions of the following Acts of Assembly shall be deemed, taken, included and made part of the specifications, to wit: An Act entitled, "An Act for the government of cities of the second class" approved the 7th day of March, A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled "An Act for the government of cities of the second class," approved the 7th day of March, A. D. 1901, in the following particulars, etc., approved the 20th day of June, A. D. 1901; and an Act entitled "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class, defining the powers and duties thereof and the officers thereunder, prescribing rules, regulations and laws respecting public health, and authorizing and imposing fines, penalties and punishment for the violations thereof" approved the 26th day of June, A. D., 1895. And an Act approved April 1, 1909, amending Article Two, Article Six, Article Sixteen, and Paragraph twenty-four of Article Nine-

teen, of an Act entitled "An Act for the government of cities of the second class" approved the 7th day of March, A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30th, 1915, shall also be deemed, taken included and made part of the specifications.

SECOND: The manner, mode and form of the disposal of rubbish under these specifications shall be by that process known as the incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall be sole and absolute judge as to what might be termed any other approved method.

THIRD: Such incineration, or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh, shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh, if he so desires.

FOURTH: If, in the disposal of rubbish in the City of Pittsburgh, by incineration or any other method, that may be used, there shall be any residuum, refuse matter or materials of any kind whatever, of any offensive character arising or resulting from or remaining after such disposal of said residuum, refuse matter or material, shall within twenty-four (24) hours, be removed from and beyond the limits of the City of Pittsburgh, by the contractor.

FIFTH: The term "Rubbish" wherever it occurs in these specifications, means all paper, pasteboard, rags, mattresses, wornout furniture, old clothing, old shoes, old rubbers, leather, carpets, broken glass, crockery, bottles, straw, excelsior, floor sweepings, old metal, packing boxes and barrels and broken parts thereof, tin cans, Christmas trees, leaves, grass cuttings and household refuse generally, exclusive of garbage and ashes.

SIXTH: The rubbish shall be removed at least once each week from all dwellings and apartment buildings, all public buildings, religious, educational and charitable institutions and

hospitals; also small stores connected with living apartments.

SEVENTH: Rubbish shall be collected in and transported through the streets of the City in vehicles to be approved by the Director of the Department of Public Health, and shall not be changed without the approval of the aforesaid Director. These receptacles or wagons shall have canvas coverings, which coverings at all times must be closed, except when loading or unloading rubbish, and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition; and for any failure, neglect or refusal of the part of the contractor, or any of his agents or employees, to comply with the same as herein provided, there shall be deducted from the next monthly pay due the said contractor until improper conditions are remedied, the sum of five dollars (\$5.00) for each and every offense, which deduction shall be deemed, taken and treated as liquidated damages, and not as penalties.

EIGHTH: The entire work of collecting, removing and disposing of rubbish shall be at all times accessible to the Director of the Department of Public Health and his authorized representatives and the said Director reserves the right to cause the contractor to deliver any portion of the rubbish at any point within the city limits for the purpose of experimentation.

NINTH: Each bidder shall submit with his bid, drawings, distinctly and clearly showing the method by which he intends to dispose of the rubbish, but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the city, except as herein previously provided in case of residuum.

TENTH: All receptacles, carts and conveyances of whatever kind, used for the collection or removal of rubbish, shall be so constructed and loaded as to prevent any part therein from falling on any of the streets, alleys, lanes, or public highways of the city, and must have the name of the contractor and the number of the wagon printed on each side of the same in letters of a size to be easily read; and

for any failure on his part to comply herewith there shall be deducted from the next monthly payroll of sum due the contractor, the sum of ten (\$10.00) dollars for each and every offense, which sum shall be deemed, taken and treated as liquidated damages, and not as penalties.

ELEVENTH: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the city shall be charged, received or taken by the contractor or any of his agents or employees, for doing or failing to do any part of the work required to be done under these specifications.

TWELFTH: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications as will secure a satisfactory rate of progress and quality of work and in case it shall appear at any time that the work, or any part thereof, is not being properly done, the same shall be immediately corrected upon the demand of the Director of the Department of Public Health, or his authorized representatives, but no omission on the part of the said Director to notice or call attention to such deficit shall be held to be a waiver of the right of said Director to do so, or from directing the same to be corrected as aforesaid.

THIRTEENTH: In case of failure by the contractor to comply in any respect with the specifications or with the contract, the Director of the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and dispose of, and to charge the contractor shall fail to collect, remove and dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable for the expense incurred therein.

FOURTEENTH: The contractor shall make monthly reports on blanks approved by the Director of Public Health, which shall show the number of all loads and parts of loads and tonnage collected, and shall be sworn to before the City Controller.

FIFTEENTH: All work shall be done under the supervision of the Di-

rector of the Department of Public Health, all details of such work which are not herein specified, shall be done in a manner acceptable to him.

SIXTEENTH: The contractor shall have and maintain telephone communication with the office or the Department of Public Health, and be prepared to receive orders within the hours of 6 a. m. and 12 p. m., said telephone communications to be at said contractor's own proper cost and expense.

SEVENTEENTH: Any official or employe of the contractor for removing rubbish using vile language, being under the influence of liquor while on duty, or demanding or accepting pay from citizens for service rendered, or falsifying any report he may be called on to make, or refusing to collect or remove rubbish and refuse without being paid for same, except as provided or allowed as compensation by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ, or should he at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him, \$5.00 for each person, for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages, and not as a penalty. Only adult men shall be employed in said work and each of said employes shall wear in a conspicuous place a badge showing his number and marked "Rubbish Collector."

EIGHTEENTH: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, of the City of Pittsburgh, against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of rubbish under these specifications; said bond shall indemnify and hold harmless the Mayor, the Director of the Department of Public Health, the Superintendent of the Bureau of Sanitation of the City of Pittsburgh, its officers, agents or servants, and each and every one of

them against and from all suits and actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents, or servants of the city and each and every one of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents, or servants, and also from damages and costs to which it, they or any of them may be put by reason of injury to the person or property of any other resulting from negligence or carelessness or otherwise in the performance of its obligations under the contract, or from any defective or improper appliance used in the performance of same.

NINETEENTH: The City shall direct all persons having rubbish to be collected by the contractor to provide and maintain suitable receptacles therefore in which nothing but rubbish shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employes of the contractor for the purpose of collection and removal of the rubbish. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health.

TWENTIETH: The Director of the Department of Public Health shall print at the expense of the contractor a notice or notices to be left at each and every dwelling, apartment building, all public buildings, religious, educational and charitable institutions, small stores in connection with apartments and living conditions, stating that the collector will call for rubbish on a certain day each week mentioned in the notice or notices, and requesting that such rubbish be ready in prescribed and suitable vessels for the collector when he calls for same. Each notice shall have appended thereto a statement based on Section 20 of an Act of Assembly entitled "An Act creating a Bureau of Health in the Department of Public Safety in cities

of the second class," defining the powers and duties thereof, and of the officers thereunder, prescribing rules and regulations thereunder respecting the public health and authorizing and imposing fines and penalties for violation thereof, approved June 26th, A. D. 1895, and the various amendments and supplements thereto. The said notice or notices shall also contain the name, address and telephone number of the contractor and the address and telephone number of the Department of Public Health. It shall also contain the official definition of the term "rubbish" and the term "garbage" and directions for and the manner of preparing the rubbish and garbage for the collector, and such other information as may be necessary, based upon Ordinance No. 180 or other ordinances referring to the same subject. In case of any failure to collect rubbish on the day or days specified in the notice or at the times provided for in Paragraph Six, there shall be deducted from the next monthly payroll, or sum due said contractor, the sum of two dollars (\$2.00) for each and every said failure, which sum shall be deemed and taken as liquidated damages and not as a penalty, except, no deduction shall be made if the contractor shall remove the rubbish within twenty-four (24) hours after the receipt of notice of such failure from the Superintendent of the Bureau of Sanitation.

TWENTY-FIRST: Each bid shall be accompanied with a bond in the sum of Ten Thousand Dollars (\$10,000.00), with two sureties, executed before the City Clerk, or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond a certified check or bank certificate of deposit payable to the City of Pittsburgh, may be filed with the proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten (10) days after the contract has been awarded in the sum of fifty per centum (50%) of the cost of said contract to faithfully carry out its provisions.

TWENTY-SECOND: All labor and equipment of every kind necessary to

carry out the provisions of these specifications shall be furnished by and at the expense of the contractor.

TWENTY-THIRD: When the contract has been entered into, it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect monies due be recognized, and any party assuming the direction of the work, or taking part therein, shall be considered as an employee, under these specifications and under the contract. Any violation of the Act of Assembly or the ordinances or these specifications shall be sufficient cause for immediate cancellation of the contract by the Mayor and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or re-advertise and re-let the work at the expense of the offending contractor and his sureties.

TWENTY-FOURTH: All parts of these specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for their decision, and their interpretation shall be final, binding and conclusive, without exception or appeal.

TWENTY-FIFTH: Monthly payments shall be made to the contractor within the first ten days of each and every month, said payments to be made after the contractor has filed proper vouchers according to law for same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

TWENTY-SIXTH: The provisions of these specifications as set forth in Paragraph Twenty shall be suspended for each period or periods of time as the shipment or delivery of rubbish by railroad to the disposal plant of the contractor may be prevented by reason of acts of the United States Government, priority orders, railroad

embargo, insufficient car supply, railroad congestion or inability or failure otherwise, upon the part of any railroad used to transport such rubbish to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation is sued or if the disposal plant is located upon the river bank, the provisions of these specifications as set forth in Paragraph Twentieth (20) shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a disposal plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

TWENTY-SEVENTH: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fines imposed under the provisions of these specifications. The signed statement of any householder of failure to collect according to the terms of the specifications shall be sufficient evidence of the contractor's failure to do so, when verified by a representative of the Department of Public Health.

TWENTY-EIGHTH: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person or persons who shall weigh the rubbish collected and removed by the contractor and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and the weights of rubbish collected during the said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or before the filing of the claim for the preceding month's services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the

sum of one thousand (\$1,000.00) dollars for the faithful performance of his duty. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

SPECIFICATION.

For the collection, removal and disposal of garbage, offal, dead animals and condemned meat in the City of Pittsburgh for the year ending December 31st, 1929.

FIRST: All the provisions of the following Act of Assembly shall be deemed, taken, included and made part of the Specifications to-wit: An Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901, and an Act entitled, "An Act amending and supplementing an Act entitled, "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901, in the following particulars, etc., approved the 20th day of June A. D. 1901; and an Act entitled, "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class, defining the powers and duties thereof and the officers thereunder, prescribing rules and regulations and laws respecting the public health, and authorizing and imposing fines, penalties and punishments for violations thereof," approved the 26th day of June A. D. 1895. And an Act approved April 1st, 1909, amending Article Two, Article Six, Article Sixteen and paragraph Twenty-four of Article Nineteen, of an Act entitled "An Act for the government of cities of the second class," approved the 7th day of March A. D. 1901. Ordinance No. 180 of the City of Pittsburgh, approved June 30th, 1915, shall also be deemed, taken, included and made part of the specifications.

SECOND: The manner, mode and form of the disposal of garbage, offal, dead animals and condemned meat in and throughout the City under these specifications shall be by that process known as the reduction process, incineration method, or by some other equally as good method, subject to the approval of the Director of the Department of Public Health, who shall

be the sole and absolute judge as to what might be termed any other approved method.

THIRD: Any reduction, incineration or other plant or plants as may be necessary for carrying out these specifications in their entirety, if located within the limits of the City of Pittsburgh, shall be at such point or points as the Director of the Department of Public Health shall select and approve, but the contractor may locate his plant or plants outside of the corporate limits of the City of Pittsburgh, if he so desires.

FOURTH: If, in the disposal of garbage, offal, dead animals and condemned meat in the City of Pittsburgh by reduction or any other method that may be used, there shall be any residuum, refuse matter or materials of any kind whatever of any offensive character arising or resulting from or remaining after said disposal, said residuum, refuse matter and material shall, within Twenty-four hours, be removed from and beyond the limits of the City of Pittsburgh by the contractor.

FIFTH: The term "garbage," wherever it occurs in these specifications, means all refuse of animal and vegetable matter which has been used for food for man, and all refuse, animal and vegetable matter which was intended to be so used, and includes condemned food. The term "dead animals" wherever it occurs in these specifications, means all dead animals or parts thereof, not intended to be used as food for man.

SIXTH: The contractor shall collect, remove and dispose of all garbage and dead animals, as defined in these specifications, from all places wherever the same may accumulate within the corporate limits of the City of Pittsburgh, Namely: from the first to the thirtieth wards, both inclusive, except from storage and produce commission houses.

SEVENTH: No person other than the contractor shall carry, convey or transport through the streets, alleys of public places of the City from the first to the thirtieth wards, both inclusive, any garbage, offal, condemned meat or dead animals, without per-

mission from the Director of the Department of Public Health.

EIGHTH: Collection shall be made daily, except Sunday, from all public markets, hotels, restaurants, fish markets, butcher shops, hospitals and places where animals, game and fowl are killed or dressed within the City providing, however, that the removal of dead animals and animal offal shall be at such hours as shall be prescribed by the Director of the Department of Public Health.

NINTH: Collection shall be made once each week from all places except those designated in the Eighth Paragraph. Provided that the Director of the Department of Public Health shall have the right to require two collections each week from private houses where the accumulation of garbage may be such as to require it, and provided further that said two collections each week shall not be made from more than one hundred private houses.

TENTH: Dead animals, lying upon any of the streets, alleys or public highways, or elsewhere, must be removed immediately to the disposal plant upon receiving notification thereof; either from the Department of Public Health or the Bureau of Police; and if the contractor fails, neglects or refuses to have the same removed within four (4) hours after receiving notice, either by telephone or otherwise (excepting in cases where such notices shall be given between the hours of 9 P. M. and 6 A. M. in which instance the reckoning of the four (4) hours shall be computed from 6 A. M.) the sum of \$10.00 per day for every day of failure, neglect or refusal to comply herewith shall be deducted from the next monthly bill of said contractor, which deduction shall be deemed, taken and treated as liquidated damages and not as penalties.

ELEVENTH: Garbage, offal and condemned meat shall be collected in and transported through the streets of the city in vehicles in water-tight, closed metal boxes, the same to be approved by the Director of the Department of Public Health, and shall not be changed without the approval

of the aforesaid Director. These receptacles or wagons shall have closely fitted lids, which lids must be at all times closed and kept closed except when loading or unloading garbage, offal and condemned meat and must not at any time be driven over the public streets or highways in an overcrowded or overloaded condition. The wagons shall be thoroughly washed and disinfected in a manner approved by the Director of the Department of Public Health, each day during the period from November 1st to May 1st, immediately after the close of the day's hauling, and after each load during the period from May 1st to November 1st, and shall not appear in the public streets and highways of the City of Pittsburgh in an insanitary or unsightly manner. For any failure, neglect or refusal on the part of the contractor or any of his agents or employees to thoroughly wash and disinfect daily the wagons as herein provided, there shall be deducted from the next monthly pay due said contractor, until improper conditions are remedied, the sum of \$5.00 per day for each and every offense, which deduction shall be deemed, taken and treated as liquidated damages and not as penalties.

TWELFTH: The entire work of collection, removing and disposing of garbage, offal, dead animals and condemned meat shall be at all times accessible to the Director of the Department of Public Health or his authorized representatives, and the said Director may reserve the right to cause the contractor to deliver any portion of garbage, offal or dead animals at any point within the City limits for the purpose of experimentation.

THIRTEENTH: Each bidder shall submit with his bid drawings distinctly and clearly showing his method by which it is intended to dispose of garbage, dead animals and animal offal; but no bid will be considered which contemplates the dumping of such material either within or without the corporate limits of the City, except as herein previously provided in case of residuum.

FOURTEENTH: All receptacles, carts or conveyances of whatever kind

used for the collection and removal of garbage, offal dead animals and condemned meat shall be so constructed and loaded as to prevent any part therein from falling on any of the streets, alleys, lanes or public highways of the City, and must have the name of the contractor and the number of the wagon printed on each side of the same in letters of a size to be easily read, and shall thereon have at least one gallon of good quality of disinfectant for use in cases of emergency, and should any driver or employee of the contractor, by his carelessness or negligence, allow any garbage, offal, dead animals or condemned meat to fall upon any public streets, lanes, alleys, highways or sidewalks of the City of Pittsburgh, he shall immediately clean up the same and place it in the wagon or receptacle, and thoroughly disinfect the place on which said garbage, etc., was dropped; and for any failure on his part to comply herewith, there shall be deducted from the next monthly payroll or sum due the said contractor, the sum of \$10.00 for each and every offense, which sum shall be deemed, taken and treated as liquidated damages and not as penalties.

FIFTEENTH: No money, gratuity, reward, fee or other valuable consideration, except the compensation agreed to be paid by the City, shall be charged, received or taken by the contractor, or any of his agents or employees, for doing or failing to do any part of the work required to be done under these specifications.

SIXTEENTH: The contractor shall at all times use such appliances and employ such or so many men for the performance of all the operations connected with the work embraced under these specifications as will secure a satisfactory rate of progress and quality of work, and in case it shall appear at any time that the work, or any part thereof, is not being properly done, the same shall be immediately corrected upon the demands of the Director of the Department of Public Health, or his authorized representative, but no omission on the part of the said Director to notice or call attention to such defect shall be held to be a waiver of said rights of

said Director to do so, or from directing the same to be corrected as aforesaid.

SEVENTEENTH: In case of failure by the contractor to comply in any respect with the specifications or with the contract, the Director of the Department of Public Health shall have the right and power and is authorized to provide for the collection, removal and disposal of garbage, offal, dead animals and condemned meat which the contractor shall fail to collect, remove or dispose of, and to charge the expense to the contractor, and the contractor and his sureties shall be liable for the expense incurred therein.

EIGHTEENTH: The contractor shall make monthly reports on blanks approved by the Director of the Department of Public Health which shall show the number of all loads and parts of loads and tonnage collected, or in case of dead animals, the number of species collected together with the weights thereof, and shall be sworn to before the City Controller.

NINETEENTH: All the work shall be done under the supervision of the Director of the Department of Public Health, and all details of such work as are not herein particularly specified shall be done in a manner acceptable to him.

TWENTIETH: The contractor shall have and maintain telephone communication with the office of the Department of Public Health, and be prepared to receive orders between the hours of 6 A. M. and 12 P. M., said telephone communication to be at said contractor's own proper cost and expense.

TWENTY-FIRST: All wagons for hauling dead animals shall have a lid or covering of an approved design or style, which lid or covering must be at all times thrown over the wagon so as to cover up all carcasses or dead animals, except when loading or unloading.

TWENTY-SECOND: Any official or employee of the contractor for removing garbage, offal, dead animals or condemned meat, using improper or vile language, being under the influence of liquor while on duty, fill-

ing his wagon with water or other foreign matter, or demanding or accepting pay from citizens for services rendered, or falsifying any reports he may be called upon to make, or if refusing to collect or remove garbage, offal, dead animals and condemned meat without being paid for same, except as is provided and allowed as compensation by the City of Pittsburgh, shall immediately be discharged and debarred from further employment in said work. Should the contractor keep in his employ or at any time re-employ any person or persons in violation of this paragraph, there shall be deducted from the next monthly sum due him five (\$5.00) dollars for each person for each and every day so employed, which sum shall be deemed, taken and treated as liquidated damages and not as penalties. Only adult men shall be employed in said work, and each of said employees shall wear in a conspicuous place a badge showing his number and marked "Garbage Collector."

TWENTY-THIRD: The contractor shall indemnify and hold harmless the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh against any and all claims which may be made by reason of any infringement of any patent right in the use of any machinery or apparatus necessary in the disposal of garbage, offal, dead animals and condemned meat under these specifications, and said bond shall also indemnify and hold harmless the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation of the City of Pittsburgh, its officers, agents and servants, and each and everyone of them against and from all suits or actions of every kind and description brought against the City of Pittsburgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants; and each and everyone of them against and from all suits or actions of every kind and description brought against the City of Pitts-

burgh, the Mayor, the Director of the Department of Public Health and the Superintendent of the Bureau of Sanitation, or any of the officers, agents or servants; and also from damages and costs to which it, they, or any of them may be put by reason of injury to the person or property of any other, resulting from negligence or carelessness, or otherwise, in the performance of its obligations under the contract, or from any defective or improper appliances used in the performance of same.

TWENTY-FOURTH: The City shall direct all persons having garbage to be collected by the contractor to provide and maintain suitable receptacles therefor in which nothing but garbage shall be deposited and all such receptacles shall be required to be kept or placed in a location accessible to the employees of the contractor for the purpose of collection and removal of the garbage. The size, type, character and the location of said receptacles shall be prescribed and approved by the Director of the Department of Public Health.

TWENTY-FIFTH: The Director of the Department of Public Health shall print, at the expense of the contractor, a notice or notices to be left at each and every dwelling house and all other buildings in the City of Pittsburgh where garbage may accumulate, stating that the collector will call for garbage on certain days mentioned in the notice or notices and requesting that such garbage be ready in prescribed and suitable vessels for the collector when he calls for the same. Each notice shall have appended thereto, a statement, based on Section 20 of an Act of Assembly entitled "An Act creating a Bureau of Health in the Department of Public Safety in cities of the second class," defining the powers and duties thereof, and of the officers thereunder, prescribing rules and regulations thereunder respecting the public health, and authorizing and imposing fines and penalties for the violations thereof, approved June 26, A. D. 1895, and the various amendments and supplements thereto. The said notice shall also contain the name, address and telephone number of the contractor and

the address and telephone number of the Department of Public Health. It shall also contain the official definition of the term "Garbage and the term "Rubbish," and directions for and the manner of preparing the garbage and rubbish for the collector, and such other information as may be necessary, based upon Ordinance No. 180 or other ordinances referring to the same subject. In case of any failure to collect garbage on the day or days specified in the notice, or at the time provided in Paragraphs Eight and Nine, there shall be deducted from the next monthly payroll or sum due said contractor, the sum of \$2.00 for each and every said failure, which sum shall be taken and deemed as liquidated damages and not as a penalty, except, no deductions shall be made if the contractor shall remove the garbage within Twenty-four hours after receipt of notice of such failure from the Superintendent of the Bureau of Sanitation.

TWENTY-SIXTH: Each bid shall be accompanied with a bond in the sum of Ten Thousand (\$10,000.00) Dollars, with two sureties executed before the City Clerk or the bond of a Surety Trust Company, for the acceptance of the contract if awarded by the City of Pittsburgh, or in lieu of such bond, a certified check or bank certificate of deposit payable to the City of Pittsburgh, may be filed with proposals, and the person or persons, firm or corporation to whom the contract is awarded shall file a bond to the City of Pittsburgh within ten days after the contract has been awarded, in the sum of fifty per centum of the cost of said contract to faithfully carry out its provisions.

TWENTY-SEVENTH: All labor and equipment of every kind necessary to carry out the provisions of these specifications, shall be furnished by and at the expense of the contractor.

TWENTY-EIGHTH: When the contract has been entered into, it shall not be assigned, transferred or set over to any other person or persons, firm or firms, corporation or corporations, nor will any power of attorney to collect moneys due be recognized, and any party assuming the direction

of the work, or taking part therein, shall be considered as an employee under these specifications and under the contract. Any violation of the Acts of Assembly or the ordinance or these specifications shall be sufficient cause for the immediate cancellation of the contract by the Mayor, and the Director of the Department of Public Health, who may thereupon employ the necessary labor to perform the work, or readvertise and re-let the work at the expense of the offending contractor and his sureties.

TWENTY-NINTH: All parts of these specifications are intended to be explanatory of each other, but in case any misunderstanding or doubt as to the meaning of any of the provisions hereof shall arise, the same shall be submitted to the Mayor and the Director of the Department of Public Health for their decision, and their interpretation shall be final, binding and conclusive, without exception or appeal.

THIRTIETH: Monthly payments shall be made to the contractor within the first ten days of each and every month, said payment to be made after the contractor has filed proper vouchers, according to Law for the same, and upon the certificate of the Director of the Department of Public Health, in such sums as may be agreed upon and fixed in the contract hereinafter to be entered into between the City of Pittsburgh and the contractor, said payments to be made subject to the provisions of these specifications.

THIRTY-FIRST: The provisions of these specifications as set forth in paragraph twenty-fifth (25) shall be suspended for such period or periods of time as the shipment or delivery of garbage by railroad to the disposal plant of the contractor may be prevented by reason of: Acts of the United States Government, priority orders, railroad embargo, insufficient car supply; railroad congestion or inability or failure, otherwise, upon the part of any railroad used to transport such garbage to furnish proper and adequate transportation facilities for said purpose. Or if the river transportation is used, or if the disposal plant is located upon the river

bank, the provisions of these specifications as set forth in paragraph 25 shall be suspended at such period of time as high water in the river may interfere with transportation or proper operation of the disposal plant. All questions of fact relating to what shall constitute proper and adequate transportation facilities within the meaning of this paragraph, or all questions of fact as to what shall constitute interference by reason of a high river with the proper operation of a reduction plant within the meaning of this paragraph, shall be decided by the Director of the Department of Public Health.

THIRTY-SECOND: The Director of the Department of Public Health shall notify the contractor within forty-eight (48) hours after each and every assessment of liquidated damages or fine imposed under the provisions of these specifications. The signed statement of any householder of failure to collect according to the terms of the specifications shall be sufficient evidence of the contractor's failure to do so, when verified by a representative of the Department of Public Health.

THIRTY-THIRD: If the contract for the work herein provided shall be let on a tonnage basis, the City of Pittsburgh shall provide a suitable person or persons who shall weigh all garbage, offal, dead animals, condemned meat, etc., collected or removed by the contractor, and file with the Superintendent of the Bureau of Sanitation daily a report setting forth the number of loads and weights of garbage, offal, dead animals, condemned meat, etc., collected during said day. The Superintendent of the Bureau of Sanitation shall verify such reports on or before the filing of the claim for the preceding months' services, and no claim for services rendered will be approved until such verification has been made. Each person so employed to take such weights shall be bonded by the City of Pittsburgh in the sum of One Thousand (\$1,000.00) dollars for the faithful performance of his duties. Nothing contained in this paragraph shall interfere with the requirements of these specifications as set forth.

DEPARTMENT OF PUBLIC WORKS.

February 1st, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

By letter dated December 11th, 1929, this Department submitted to Council an ordinance agreement authorizing and directing the Mayor and the Director of the Department of Public Works, for and in behalf of the City of Pittsburgh, to enter into an agreement with the County of Allegheny relating to the improvement of Wind-gap Road.

The letter of transmittal stated that the code account from which to pay the City's share of the cost, \$63,500.00, was left blank.

This ordinance was passed by Council and approved by the Mayor January 1st, 1929, and is ordinance No. 818. The ordinance as passed leaves the code account blank.

The proper City and County officials have executed the agreement in accordance with the terms of the ordinance, but the City Controller, we are informed, cannot countersign same for the reason that no funds are provided by the ordinance to pay the City's share of the cost.

It is accordingly suggested that ordinance No. 818, approved January 3rd, 1929, be amended by inserting the particular code account from which funds are to be obtained to pay the City's share, and that said funds be obtained from Bond Fund No. 296, Street Improvement Bonds.

Yours truly,

EDWARD G. LANG,
Director.

Which was read and referred to the Committee on Finance.

Bureau of Traffic Planning.

February 4, 1929.

To the President and
Members of City Council.

Gentlemen:

At the conference on the subject of Prohibition of Left Turns in the downtown district, Friday, February 1st, your Honorable Body requested information concerning the status of what we call the "outlying sections" traffic signal contract.

Attached is a copy of letter from Bertram L. Succop, Director, Department of Supplies, which is self-explanatory.

Very truly yours,

BURTON W. MARSH,
Traffic Engineer.

February 1st, 1929.

Mr. Burton W. Marsh,

Traffic Engineer,

Department of City Traffic.

Dear Sir:

I beg to notify you that the City Solicitor has advised the Mayor and myself that on account of no competitive bids having been received for the furnishing of bids for the outlying traffic signal equipment, all bids have been rejected and it will be necessary for us to re-advertise this schedule.

Unless you have other plans, we will use your present schedule and proceed to advertise not later than Tuesday, next.

Yours very truly,
BERTRAM L. SUCCOP,
Director.

February 1st, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Relating to Council Bill No. 3761, being a Resolution requesting the Director of the Department of Public Works to have 58 fire hydrants installed in what was formerly known as Union Township:

We have this day issued instructions to the South Pittsburgh Water Company to have installed the 58 fire hydrants in question, and we have furnished to that Company a list of such hydrants, in addition to a blueprint showing the location of same.

Without doubt you understand that these hydrants are in excess of the number of hydrants provided for in the budget appropriations for 1929. The amount of such excessage cannot be determined at this time, inasmuch as the hydrants will be installed progressively and will be paid for only for the portion of the year in which they are in place. A fair estimate, however, for the probable excessage due to these additional fire hydrants for the year 1929 would be \$1000.00.

Yours very truly,

EDWARD G. LANG,
Director.

Robt. Clark, City Clerk,
City of Pittsburgh.

Dear Sir:

I beg to advise you that at today's meeting of the Planning Commission, the General Plans Committee reported progress in the study of the question

of grade changes at and near the intersection of Water and Grant streets, as the same relates to the completion of the widening of the latter street. The Committee will report to the Commission at an early date, when the Commission will advise you, what the effect of not raising the above-mentioned intersection will have upon the Commission's old proposals to develop water front streets and connect Water street with the Liberty Bridge.

Office of the Mayor.
January 31st, 1929.

To the President and Members of
Council, City of Pittsburgh.

Gentlemen:

I return herewith without my approval Bill No. 3499, for the following reasons:

The purpose of this ordinance is to change the classification of the rear portion of the lot at the corner of Mellon street and Stanton avenue from a B residence use district to a commercial use district for the sole purpose of permitting this small lot to be used for the erection of three store buildings.

I am of the opinion that it is in violation of the spirit of the zoning ordinance in that it is granting a special privilege and creates a separate use district containing but a single lot.

Sincerely yours,

CHARLES H. KLINE,

Mayor.

Which was read.

Please note the attached copy of re-
port on same from the Superintendent
of the Bureau of Highways and
Sewers.

Yours very truly,
EDWARD G. LANG,
Director.

January 31st, 1929.

Subject:

MISCELLANEOUS.

Edward G. Lang, Director,
Department of Public Works,
City of Pittsburgh.

Dear Sir:

Replying to your memo of January
30th, transmitting letter from the Clerk
of the Finance Committee, relative to
the expenditure of this bureau on
January 16th, of \$1644.06 for the re-
moval of snow and asking whether or
not it was impossible for the depart-
ment to cope with the situation, would
advise you that we do not have avail-
able equipment for the removal of
snow.

We do have a Barber-Greene Snow
Lifter but this can only be used to ad-
vantage during extreme heavy snow
fall.

After consultation with the Director
it was believed proper to remove the
snow within the triangle as expediently
as possible, consequently we employed
trucks and men of the Rodgers Sand
Company, Booth & Flinn Co. and Scan-
lon Brothers.

Yours very truly,
CHAS. A. HILLEGAS,
Superintendent.

Which was read, received and filed.

No. 3965.

Subject:

COUNCIL BILL NO. 399,
AIKEN AVENUE BRIDGE.

February 2, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

At a meeting of the Committee of Public Works held Wednesday, January 30, 1929, when Council Bill No. 399, the same being an ordinance widening South Aiken avenue from Ellsworth avenue to Center avenue, was under consideration, a motion was adopted that the Department of Public Works inform Council on Monday, at its meeting, whether the owners of the Apartment House at the corner of Center and Aiken avenues are effected by this ordinance and when they took out their building permit it provided for the set back to permit the widening of this street without destroying any foundation work which they might have done on this building. In compliance therewith, I wish to report the following:

Attached hereto is blueprint showing the proposed widening and also showing the Arlington Apartments at the corner of Center and Aiken avenues. This print shows the manner and extent to which the property will be effected. The proposed widening of 6 feet does not effect the building itself in any way. The Apartment House sets back 15 feet from the east building line of South Aiken avenue at the south end of the property and sets back 25.4 feet at Center avenue or the north end of the property. As shown on the print, a walk and driveway give access to the property from South Aiken avenue, making use of this set

back. The proposed widening will decrease the length of the walk and driveway by 6 feet on either end. The work actually done on the foundations has been checked against the plans and found in accordance therewith. The only effect on the Apartment will be that at the south end of its property, the building will set back 9 feet from the street line instead of 15 feet and at Center avenue will set back 19.4 feet instead of 25.4 feet.

It is not known if this set back was made to provide for the widening of South Aiken avenue. This street has been listed for widening by the City Planning Commission for some years. Work on the building was actually started a few years ago and before the widening of South Aiken avenue was contemplated by this Bureau.

Yours very truly,

EDWARD G. LANG,
Director.

Which was read, received and filed.
And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

DEPARTMENT OF PUBLIC SAFETY

February 7, 1929.

To the President and
Members of City Council.
Gentlemen:

32nd Street, between Penn and Liberty Avenues, having been closed by the Department of Public Works in the course of construction of a sewer, the volume of traffic on 34th Street has increased to such an extent that in the interest of safety and facilitation of traffic movement, I have instituted a 60-day trial of "No Parking at any Time" on both sides of 34th Street between Penn and Liberty Avenues, effective February 14, 1929.

Very truly yours,

James M. Clark

DIRECTOR.

APPROVED:

DEPARTMENT OF PUBLIC SAFETY

February 9, 1929.

To the President and
Members of City Council.
Gentlemen:

Supplementing my letters of December 17th and January 14th on the subject of left turn prohibitions in the downtown area, 8:00 A. M. to 6:00 P. M. I am submitting herewith a list which has been revised in accordance with the views of the Committee on Public Safety with respect to making the changes by degrees so that motorists may become accustomed to them with a minimum of confusion. A 60-day trial of such of these prohibitions as Your Honorable Body approves will commence at a date to be named at the proposed conference on the subject.

Finance Committee,
City Council.

Gentlemen:—

Referring to Council Bill No. 3921. Resolution for the transfer of \$8,650.00 from Code Account No. 42, to Code Account No. 1009-F, attached hereto please find copy of report on same from the Superintendent of the Bureau of Highways and Sewers.

Yours very truly,
Edward G. Lang.
Director.

February 7th, 1929.

Subject: Miscellaneous.

Edward G. Lang, Director,
Department of Public Works,
City of Pittsburgh.

Dear Sir:

Replying to your memo of February 2nd, transmitting correspondence from John Schilpp, Jr., which I return herewith, wherein he advises that at a meeting of the Finance Committee, held, February 5th, Bill No. 3921, a resolution for the transfer of \$8,650.00 from Code Account No. 42 to Code Account No. 1099-F was presented by the Bureau and asking that a report be made to Council as to why the resolution was presented and for what purpose we desire to use this equipment; would refer you to letter of January 31st, from the City Clerk wherein he advises that at a meeting of the Committee on Public Works held Wednesday, January 30th, a motion was adopted that the Department of Public Works prepare and present to Council on Monday next, February 4th, an ordinance for the purchase of necessary equipment and material to do the work of repairing the roadway on Saline street, and suggesting that we leave the Code Account blank and Council to provide money when ordinance comes up for consideration in Finance Committee.

In compliance with this request, you will note that ordinance was drawn leaving Code Account blank and mentioning the transfer to be made to Code Account No. 1099-F. This was inserted for the reason that all equipment for the purpose of Bureau of Highways and Sewers for the year 1927 has been purchased from this Code, and we do not have any set-up in our budget for the purchase of any equipment this year, and, therefore, we believe that Council would desire to purchase this equipment from the same Code that was formerly used during 1927; which is the explanation for its appearance in the resolution.

Evidently, there has been some error in the matter for the reason that this resolution did not emanate from the bureau, but as above outlined by Coun-

cil in session as Committee on Public Works, as of January 30th.

Yours very truly,
Chas. A. Hillegas,
Superintendent.

Which was read, received and filed.
And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

DEPARTMENT OF PUBLIC WORKS

February 14, 1929.

PRESIDENT AND MEMBERS OF COUNCIL,

City of Pittsburgh.

Gentlemen:—

On February 6, 1929, this department sent to you a list of equipment which was desired in the department, and among the items was a Pressure Distributor at a cost of \$7,500.00.

After a thorough discussion of this matter, we believe that we can eliminate this without in any way curtailing our activities, or efficiency of the character of work to be done by such an apparatus.

Yours very truly,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC WORKS

February 14, 1929.

RESIDENT AND MEMBERS OF
COUNCIL,

City of Pittsburgh.

Gentlemen:—

It is contemplated to reconstruct the roadway from Negley Avenue to Highland Park entrance.

When this improvement is completed, it will lend itself specially to beautifying, both on the hillsides between the roadway and the reservoir, and a plot in the nature of a plaza extending from Negley Avenue to Mellon Street. The Daughters of American Revolution have been anxious to do something to help the aesthetic side of our boulevards, and that end, have sent me the enclosed, which is a copy of a letter received by this Department today.

It is my desire that this organization be given permission to take charge of this work and do something worth while at that very important entrance to the park, and I trust that Council will be in accord with the splendid offer of this organization, the Daughters of American Revolution.

Yours very truly,

Edward G. Lang,

Director.

MRS. COOKE BAUSMAN

6604 Woodwell Street

Pittsburgh, Pennsylvania

February 13th, 1929.

Mr. Edward G. Lang,
Director of Public Works,

City of Pittsburgh.

Dear Sir:—

I have been reported that your Department has in contemplation the laying out and planting of a plaza at Negley Avenue entrance to Highland Park. The Regent and Committee on Conservation and Tree Planting of the Pittsburgh Chapter, Daughters of American Revolution, desire to be allowed to take charge of planting the trees on this project, of course, to the approval of your Department, with the thought that these trees, if possible, may be

severally designated as memorials to persons from this vicinity who have rendered conspicuous service for their country.

The Chapter desires to assume the entire cost and if permission is granted, is prepared to enter upon the work at such time as your Department may indicate.

In presenting to you this request, I venture to express the hope that this means of perpetuating the names of loyal and patriotic citizens may find favor with the authorities and that the offer may be accepted.

Thanking you in advance on behalf of the Chapter for your courteous consideration, I am,

Yours respectfully,

Violet Sanford Bausman

Chairman.

DEPARTMENT OF PUBLIC SAFETY

February 13, 1929.

To the President and
Members of City Council.

Gentlemen:

Parking on both sides of North
Dithridge street considerably aggra-
vates the traffic hazard already exist-
ing due to the piling of building
materials on a portion of the road-
way. Consequently, in the interests
of safety and facilitation of traffic
movement, a 60-day trial of the fol-
lowing regulation will be instituted;
effective February 20, 1929.

"No Parking at any time" on the
westerly side of North Dithridge
Street, between Fifth Avenue and
Bayard Street.

This regulation has the approval of
the Better Traffic Committee.

Very truly yours,
James M. Clark,
Director.

APPROVED:

Charles H. Kline
MAYOR.

THE METROPOLITAN PLAN COMMISSION

For Allegheny County

February 15, 1929

Mr. Daniel Winters
1905 Carson St.
Pittsburgh, Pa.

Dear Mr. Winters:

I have been instructed by the Commission to submit to you the following resolution which was unanimously passed at a recent meeting of the Metropolitan Plan Commission:—

WHEREAS, It is the sense of this Commission that the present annexation agitation in portions and all of some existing municipalities, either by petition or election methods, is creating an unfavorable impression among the Cities, Boroughs and Townships of the County of Allegheny and fostering in the minds of many a resentment which at this time is prejudicial to the best interests of the County as a whole; and

WHEREAS, It is the judgment of this Commission that consideration of such projects should be postponed by the Honorable Council of the City of Pittsburgh until such time as the municipal units of this County have had the opportunity to know and consider the proposed Metropolitan charter for the whole district, which charter is now in course of preparation by this Commission in accordance with the Amendment to the Constitution of the Commonwealth as effected on November 6, 1928.

THEREFORE BE IT RESOLVED That the Chairman of this Commission be and he is hereby authorized and directed to present by letter to each

member of said Honorable Council of the City of Pittsburgh a request for postponement at this time of any further action in the matter of expanding Pittsburgh's boundaries at the expense of the adjacent municipalities, particularly, in view of the fact that the said Amendment especially provides the opportunity of continued voluntary annexations of the outlying and adjacent municipal divisions to the existing City of Pittsburgh, after the adoption of any plan which may be proposed by this Commission in the form of a charter.

Very truly yours,
THE METROPOLITAN PLAN
COMMISSION.

JOSEPH T. MILLER,
Chairman.

Which was read, received and filed.
Mr. Herron moved

That the Commission be notified that it has always been the policy of Council of the City of Pittsburgh to welcome all Boroughs and Townships who desire to become a part of Pittsburgh, and while the City does not intend to invite annexations, Council will not deviate from the course heretofore pursued, and intends to have the "welcome" sign hung out to all municipalities who desire to join with Pittsburgh.

Which motion prevailed.

Mr. Winters also presented
No. 4100.

WHEREAS, The City of Pittsburgh, through ordinance of City Council, at

the request of the United Spanish War Veterans Association, had placed in West Park a Torpedo Tube, a relic of the battleship "Maine;" and

WHEREAS, Because of the lack of a fence surrounding this monument, many offensive acts are committed; Therefore, be it

RESOLVED, That the Department of Public Works be and it is hereby requested to furnish Council with a report and an estimate of the cost of constructing a fence around this monument and to prepare and present an ordinance to Council for its construction.

Which was read.

Mr. Winters moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 4101. Communication from Howard A. DeLong submitting an offer of \$19,000.00 for property situate at corner of Frankstown avenue and Hamilton avenue, and inclosing check for \$3,000.00 as hand money.

Which was read and referred to the Committee on Finance.

Mr. Winters moved

That the Minutes of Council, at a meeting held on Monday, February 11th, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

CITY OF PITTSBURGH
OFFICE OF THE MAYOR

February 21st, 1929.

To the President,

And Members of Council,

City of Pittsburgh.

Gentlemen:—

I am returning herewith Bill No. 3866, without my approval for the following reasons:—

In the preamble of the Resolution it states:

"Mr. Delehanty believes he is entitled to four months' salary beginning August 1st and ending November 30th, at the rate of \$200.00 per month, as explained in the attached communication, which is made a part of this resolution; Therefore, be it

"RESOLVED, That the Mayor be and he is hereby authorized and directed to issue, and the City Controller to countersign, a warrant in favor of Patrick J. Delehanty in the sum of \$320.00, and to charge same to Code Account No. 42, Contingent Fund."

If it be true, that Mr. Delehanty, as he states, is entitled to four months' salary at \$200.00 per month, and you are of the opinion that he is entitled to the same, he would be entitled to \$800.00 instead of \$320.00, and it is not clear how you arrived at the conclusion that he is entitled to only \$320.00.

Further, Mr. Delehanty brought an action against the City of Pittsburgh in the County Courts for four months' salary, which was decided adversely by the said County Court to Mr. Delehanty.

Further, when a man is directed to be placed on the Retired List and take the benefit of the pension, it is incumbent upon him to make application for the same, which becomes effective sixty (60) days after said application, and the City is in no way obligated for salary from the time of being dismissed from the service until the pension becomes operative.

Sincerely yours,

Charles H. Kline,

MAYOR.

Which was read.

Also

Bill No. 3866. Resolution authorizing the issuing of a warrant in favor of Patrick J. Delehanty in the sum of \$320.00, portion of salary when he was involuntarily placed on the retired list, and to charge same to Code Account No. 42, Contingent Fund.

Which was read.

Mr. **Herron** moved

That the communication and resolution be laid over and that the Clerk be directed to ask the Law Department for an opinion as to whether, or not, this came in the class of legislation which required the signature of the Mayor and could not be passed over his objections.

Which motion prevailed.

Mr. **Winters** moved

That the Law Department be asked, if the resolution cannot be passed over objections of Mayor, is it necessary for the Mayor to send it back with his objections when Council does not have the privilege of voting to pass it notwithstanding such objections, and whether the Mayor should

not withhold the resolution and simply notify Council that he did not sign it.

Which motion prevailed.

REPORTS OF COMMITTEES.

Mr. Garland presented

No. 4163. Report of the Committee on Finance for February 19, 1929, transmitting an ordinance and sundry resolutions to council.

Which was read, received and filed.

No. 4165.

February 25th, 1929.

SUBJECT:—Electrification of Pumping Stations.

President and Members of Council, City of Pittsburgh.

Gentlemen:—

In accordance with your motion, the following information is respectfully presented regarding relative merits of steam and electric motive power for pumping stations.

It is not possible to generalize and say off hand whether electricity or steam would be best to adopt, but each case must be decided after considering many factors. The total annual costs, (which includes fixed charges) of a pumping station depend upon its size, and the larger the station the greater the advantage of steam over purchased power. To arrive at a decision necessitates the consideration in each case, of the first cost, the cost of fuel, labor and current, the reliability of the service, and other numerous factors.

Pittsburgh has three electric driven stations:—

Greentree Station was built in 1904 and has been operating continuously since. Its operation has been very satisfactory.

Lincoln Station was converted from steam to electric drive in 1923. The insurance company had condemned the boilers, and as the pumps were also worn, it was decided to electrify after an analysis showed electricity to be much the cheaper. The savings paid for the cost of the new installation in 5 years. Its operation has been very satisfactory.

Howard Station was electrified during 1928 at one-third the cost of the

equipment that would have been required to continue it as a steam plant. The boiler insurance company had begun to condemn the boilers, and analysis showed electric drive to be much cheaper to operate. The permanent pipe connections to the new reservoirs are not yet complete, so the new machinery is not yet

operating under the permanent and favorable conditions. Figures given below for 1929 are based on recent monthly costs. The year 1927 was the last year of full steam operation. Costs for a new steam plant are also given. Operating costs include labor, supplies, materials, repairs, fuel and current.

	Operating Cost	Fixed Charges	Total Annual Cost
Old Steam Plant (1927).....	\$77,688	10,966	88,654
Electric Plant (1928-1929).....	59,440	11,652	71,092
A New Steam Plant.....	56,930	29,132	86,062

The electric plant at Howard Station shows a saving of \$17,562 over the old steam plant, and is \$14,970 better than a new high grade steam plant. In this particular case a further saving of \$8,200 per year will be had when Greentree Station is shut down April 1, 1929, thus decreasing the pumping costs \$25,762 per year. Its operation is very satisfactory.

Interruptions to the current supply are very rare, and where reservoir capacity is ample, the interruptions are unimportant. Properly installed electric motors are now as reliable as steam equipment for pumping, and their selection is frequently the best solution.

Very truly yours,
Edward G. Lang,
DIRECTOR.

No. 4166.

CITY OF PITTSBURGH
Pennsylvania

February 25, 1929.

Council of the City of Pittsburgh.
Gentlemen:—

In reference to Bill No. 4060, An Ordinance authorizing and directing the construction of a public sewer on the northwest sidewalk and roadway

of Windgap avenue, from a point about 20 feet northeast of Summerdale street to the existing sewer on Chartiers avenue at Windgap avenue, etc., in connection with which, at a meeting of the Committee on Public Works held Tuesday, February 19, 1929, a motion was adopted "that the City Solicitor advise Council on Monday, February 25, 1929, as to whether this Ordinance is an assessment ordinance and damages and benefits can be assessed against the abutting property owner," would say that I have investigated this matter and find that at No. 2790 April Term, 1927, a sewer was built along the southwest side of Windgap avenue, from Summerdale street to Merle street, and the property on the southwest side was assessed. No assessment was made against the property on the northwest side.

Therefore, the property on the northwest side can be assessed for benefits by reason of the construction of a sewer, if it is possible for said property to use the sewer for drainage.

The matter would have to be determined by a Board of Viewers.

Respectfully yours,
Chas. A. Waldschmidt,
City Solicitor.

DEPARTMENT OF PUBLIC WORKS

March 1, 1929.

SUBJECT: River Terminal.

President and Members of Council,

City of Pittsburgh.

Gentlemen:

We have to submit herewith a preliminary report in regard to the proposed terminal for river traffic. The investigations of the Department in regard to this project are being carried out in conformity with authorization of Council to prepare estimates and plans and report on the improvement of the river front of the city.

Modern river terminals are an indispensable feature of river front improvement. Recognition of this fact by members of Council particularly in view of the scheduled imminent completion of the Ohio River Improvement work by the U. S. Government in 1929 has made it advisable to proceed as rapidly as possible with the formulation of a plan for river terminal improvements.

After a thoro-going study of condition and requirements, the Department has now reached such a point where submission of preliminary general plans for immediate installation of the first unit of a terminal can be made to you for your information and consideration.

The Department has given special attention to the consideration of the important factors which govern the planning of a project of this character, i. e.:

1—The site for the terminal must be such as will afford a clear length of river front without obstruction, be satisfactory as to water conditions for terminal use, and be such that its use as a river terminal will not interfere with general river navigation.

The site must further be one which will be located in the harbor of Pittsburgh.

With respect to matters of this kind the plan must be one which will be acceptable to the navigation interests and finally must be approved by the proper authorities of the State of Pennsylvania and the U. S. War Department who have jurisdiction over the local rivers. Any plan which does not satisfy navigation interests and is not practical from the standpoint of operation of river craft using such a terminal would not be acceptable even though it might be satisfactory in all other respects.

2—The location of a terminal must be such as to provide ready access to the street system of the city in such a way that heavy truck traffic can reach it over major streets with as little haul as possible without traversing the congested part of the city.

3—Furthermore it is necessary to have as convenient connections with the railroads as is feasible for the reason that our investigations show that a considerable part of the freight which will be handled through such a terminal will enter or leave the terminal by means of railroad cars. Direct connection with as many railroads as possible is desirable.

4—A very necessary adjunct for the transportation of freight to and from a river terminal is a storage yard and suitable space for terminal railroad tracks. As many of the modern barges using such a terminal will be of 750 ton capacity or more, it is apparent that a terminal of adequate capacity must make provision for receiving, holding and operating a sufficient number of railroad cars.

5—The site should be one which is capable of future expansion both with regard to topography and also with regard to the street system and to interferences with present and future uses by private property owners. This last point is of great importance as it is realized that a decided increase in the terminal business may be expected and that from time to time an expansion of the terminal facilities will be required.

6—The terminal should preferably be located in such a district of the city as is acceptable of great expansion as an industrial and warehousing center.

7—It is necessary that the operating floors of the river terminal be above flood level.

8—The permanent construction of a river terminal should be such that it will conform to any future plan for river front improvement involving the construction of river walls.

9—The site should be one which may be acquired at the least possible capital outlay of money and where the future acquisition of additional property without undue expense is possible.

10—There should be a minimum of interference with existing business concerns.

Careful consideration has been given to the various problems entering into terminal design and construction. It is apparent from the terminals built elsewhere and from the nature and character of the business that a terminal must be adapted to meet the particular needs and conditions of the locality in which it is built. It must be adjusted to meet the volume and character of freight so that the elements of the terminal will be satisfactory and in the end result in the most economic handling possible.

Accordingly the Department has made a thoro-going investigation of the character and volume of freight and has about reached the conclusion, based on an analysis of data in the procurement of which we have had the assistance of many local shippers, that the tonnage to be handled in the first years of the operation of this terminal will be rather more than 300,000 tons. Our estimates are classified as to kind of delivery, whether by rail or automotive truck, as to incoming and outgoing freight and as to character of commodity.

Freight passing over this terminal will be of two different kinds: Packet freight or general merchandise and secondly, bulk or heavy material, such as steel. Freight will be delivered in barge lots, carload lots and less than carload lots and provision must be made for handling the different sizes

of shipment as well as for the different size and weight of package.

After considering the foregoing points and analyzing the operation of other river terminals we have concluded that a modern river terminal for Pittsburgh should include provision for the following.

(a). A combined receiving and accumulating warehouse for the purpose of handling of freight and for temporarily collecting same for classification and for shipment or transportation by rail, water or truck.

(b). Equipment for the convenient and economical movement of merchandise or packet freight from the dock level to river level for which purpose we are recommending a two track incline power hoist.

(c). A float of the deck barge type of sufficient length to load packets or barges and to be used as a platform to receive freight either from an incline hoist or vertical hoist and to facilitate moving it on and off all river craft.

(d). Traveling cranes for vertical hoisting of heavy freight operated on a trackway and operated over terminal railroad tracks, and used to lift freight between car and boat or barge.

(e). Economical handling equipment for the transfer of merchandise between barge and warehouse, this to be of the type now being used in railroad transfers operated in trains drawn by small electrical or gasoline operated tractor units.

(f). The housing of the various units in such manner as to protect the freight in transit between boat and warehouse so as to promote the shipment of perishable goods. For this purpose it is proposed to roof the float, incline hoists and the platforms.

(g). Railroad trackage and drive-ways of sufficient width to permit loading and unloading between cars and trucks and the warehouse floors and platforms.

Such a terminal as hereinbefore described, if built, will answer the requirements of modern river traffic and permit the development of a rail and river transportation business of general freight and commodities.

At the present time there is a going business of shipment of freight and commodities on packet boats which, entirely exclusive of shipments by private corporations with their own facilities, is in the neighborhood, according to Government reports, of 50,000 tons per year. The terminal now proposed is for a much larger volume of freight as has been hereinbefore stated, which, starting in the first few years of 300,000 tons per year, may be expected to materially increase annually thereafter.

After a thorough consideration of the foregoing factors and conditions and after an examination of a number of other sites in the harbor in the course of which studies and plans to develop the possibilities were prepared, the Department is now submitting tentative plans to construct a river terminal on a definite site located a short distance below the Manchester Bridge on the northerly bank of the Ohio River.

It is recommended that the first unit of a terminal be built on this site according to the plan developed which will permit of a later installation of two additional units which may be expected to have a total capacity of approximately 1,000,000 tons per year.

The terminal proposed will at the outset handle truck and rail delivery from freight in the Pittsburgh district and in particular emanating from the City of Pittsburgh and its immediate vicinity, and also such rail and water interchange of freight as the contributing railroads may deliver. It may be expected as river transportation business develops and there occurs a co-ordination between railroad and river interests that this latter class of freight will enormously increase and it is entirely probable that in a few years the rail interchange become so great that its removal to some other site will become necessary.

The Department accordingly is making a second recommendation with regard to terminals and that is to propose for later development a rail interchange at Hays Station to be used solely for interchange of freight

between river and rail and at which point freight may be delivered directed by the B. & O., the Pennsylvania, the P. & L. E. and the Union Railroad.

The Department finds that the proposed site for the immediate construction of the terminal which may be called the Manchester site fulfills as nearly as possible the requirements which have been heretofore stated.

General plans for the construction of a river terminal on the Manchester site have been in course of formulation for some months. It has been necessary to consult the officials of the various railroads, to consult with a committee of the Coal Exchange and we have further had the assistance of a Special Dock and Terminal Committee of the Chamber of Commerce whose desire to co-operate with the Department was accepted. We have further discussed practical questions of importance with corporations or companies engaged in river transportation.

The plan for the terminal incorporated the suggestions and criticisms of those who have been consulted, many of whom are actively engaged in the shipping or river business.

Although the consultations that we have had have been informal and entirely with committees and there has been no formal expression of opinion, it appears that the Manchester terminal can be built not only without objection by the river interests but we hope and confidently believe with their hearty approval.

The question of cost is of course of the utmost importance. If the terminal is to be satisfactory, economical and adequate it must of course be up to certain standards for if it should fail to meet such standards and requirements, then the effect would be injurious to the development of the city's commerce by means of river transportation.

We are now engaged in completing the estimate of cost and in working out an estimate of operating costs and revenue. If the tonnage we estimate does actually develop, it is evident that the proportion of charges for handling available to meet fixed

charged (bond interest and replacement) will be sufficient to justify the outlay of a sufficient amount of money to construct an adequate terminal. For your information we can state that the general charge at other terminals is about 15c per ton for fixed charged on all freight going over the terminal.

When a tonnage of 300,000 tons per year is reached and if a terminal revenue of 15c for fixed charges is levied, a total expenditure up to \$1,000,000 would be justified. Any less capital outlay will go towards either profit or reduced terminal charges.

The Department is now discussing with the owners of property the acquirement of the necessary site, either by lease or outright purchase, and the total capital outlay is very much dependent upon terms upon which the site may be acquired. There are also questions as to how far the city should go in permanent vs temporary construction in an effort to reduce the initial outlay.

The question as to whether or not the municipality should build the terminal and either operate it itself or through a private corporation by lease or as to whether the city should make some arrangement with the interested railroads or other corporation for construction and operation of the terminal may be considered by Council as progress is made on the project.

It might be possible to work out a proposition whereby the city would acquire the site and corporation under suitable contract to protect the public interest would develop the terminal and operate same.

We are herewith submitting general plans which are now open to your criticism and advice and we will be glad to meet with you or a committee to discuss not only the location and type of terminal but also the financial matters which have been here presented.

The plans now filed with you consist of a general plan for the installation of the first unit and a second plan showing the ultimate expansion of which the site is capable.

An early meeting with your body will greatly aid the Department in further proceeding with the plans and report on this project.

PIKE STREET IMPROVEMENT
PROJECT:

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

We would respectfully request consideration of our communications to you of December 20, 1928, asking that the Department be instructed with regard to the question of altering the column supports of the 16th Street Bridge over Pike Street. To this communication was attached a copy of a plan showing the present and proposed conditions as affecting the roadway of Pike Street, and copies of letters from Director Norman F. Brown, Allegheny County Department of Public Works and Mr. W. D. Wiggins, Chief Engineer, Central Region Pennsylvania Railroad.

The railroad has reached a point in the prosecution of the work to be done by that Company in connection with this improvement project that a decision must be reached promptly.

Yours truly,

Edward G. Lang,
Director.

Gentlemen:—

We regret to have to advise you that the slide on East Ohio Street

hillside, near the entrance to Walkers Bridge, is in such condition by reason of over-hanging rock that immediate steps should be taken to remove such over-hanging ledges, and it is estimated that it will entail a cost of approximately \$1,500.00, without reference to the cost of trucking material away. As there are no funds available for this work, I should like to have your authority to proceed with the removal of this rock at once, so that the traffic, street car, automobile and pedestrian, on this important thoroughfare may be fully protected.

Yours very truly,

Edward G. Lang,
Director.

DEPARTMENT OF PUBLIC WORKS
CALIFORNIA AVENUE

February 28th, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

An ordinance has been passed opening California avenue, from Superior avenue to Romig street. Some of the property owners are very insistent that the Viewer's Proceedings be started so that they might be paid for the property taken by the opening of this street. Before this Viewer's Plan can be prepared it will be necessary to have an ordinance passed establishing the grade and we therefore call your attention to the fact that on May 17th, 1928, we presented an ordinance for your consideration, entitled, "An ordinance fixing the width and position of the sidewalks and roadway and establishing and re-establishing the grade on California avenue, from Superior avenue to a point 910.0 feet northwardly from the northerly curb line of Superior avenue." This is known as Council Bill 1573.

We believe it would be advisable to have this ordinance passed in order that the Viewer's Plan may be completed.

Very truly yours,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC SAFETY

February 25, 1929.

To the President and Members of
City Council.

Gentlemen:—

In order to further relieve congested traffic conditions brought about by the closing of 32nd street and the consequent re-routing of street cars, I have instituted a 60-day trial of the following regulations; effective March 6th, 1929.

1. No Parking 7:00 to 8:30 A. M. and 5:00 to 7:00 P. M., with one-hour parking from 8:30 A. M. to 5:00 P. M., on Penn Avenue from 31st to 34th Streets, both sides.

2. 23rd Street, from Liberty Avenue to Penn Avenue, one-way north-bound.

Very truly yours,

James M. Clark,

Director.

APPROVED:

Charles H. Kline,

MAYOR.

Which was read, received and filed.

UNFINISHED BUSINESS.

The Chair took up

Bill No. 4070. Resolution endorsing the radio publicity campaign of the Chamber of Commerce and setting aside the sum of \$4,000.00. from Code Account No. 42, Contingent Fund, in behalf of the City of Pittsburgh, payable to W. S. Linderman, Treasurer, Chamber of Commerce, upon bills rendered by him from time to time; said bills to be approved by the Finance Committee.

In Council, February 25, 1929, Read, rule suspended, read a second time and amended by inserting as shown in red, and as amended agreed to, and laid over for reprinting.

Which was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Alderdice

Anderson

Garland

Herron

McArdle

Winters

Malone (Pres't.)

Ayes—7.

Noes—None.

And there being two-thirds of the votes of council in the affirmative, the resolution passed finally.

Also

Bill No. 4162. Communication from the Mayor returning without approval Bill No. 3866, Resolution authorizing the issuing of a warrant in favor of Patrick J. Delehanty for \$320.00, and charging same to Code Account No. 42, Contingent Fund.

In Council, February 25, 1929, Read and laid over, and Clerk to ask Law Department for an opinion as to the power of Council to pass the resolution over the veto, and if it has no such power, whether the Mayor should send the resolution back with his objections, or simply notify Council that he did not sign it.

Which was read, received and filed.

Also

Bill No. 3866. Resolution authorizing the issuing of a warrant in favor of Patrick J. Delehanty in the sum of \$320.00, for portion of salary from August 1st to November 30th, 1928, and to charge same to Code Account No. 42, Contingent Fund.

In Council, February 25, 1929, Returned with Mayor's objections, laid over, and Law Department asked for opinion as to power of Council to pass it over veto, and if it has no such power, whether or not the Mayor should send the resolution back with his objections, or simply notify Council that he did not approve it.

Which was read.

The Chair presented
No. 4212.

CITY OF PITTSBURGH,
Penna.

March 1, 1929.

To the Honorable, The Council of the
City of Pittsburgh.

Gentlemen:—

In reference to your letter of February 25th, 1929, as to Bill No. 3866,

Resolution for warrant in favor of Patrick J. Delehanty for \$320.00, which was returned by the Mayor without his approval, and the Clerk directed to ask the Law Department for an opinion as to:

1. Whether or not this came in the class of legislation which required the signature of the Mayor,

2. And could not be passed over his objections.

3. And if it were under that class of legislation, is it necessary for the Mayor to send the Bill back with his objections when Council does not have the privilege of voting to pass it, notwithstanding such objections,

4. And whether or not the Mayor should withhold the resolution and simply notify Council that he did not sign it, would say:

1. That this Bill is for extra compensation to a City employee, and, therefore, comes within the terms of the Wallace Act, which provides that the Resolution must be passed by a two-thirds vote of Council and approved by the Mayor. Therefore, without the signature of the Mayor this resolution would not be payable.

2. The second question is answered in the first, in that if the Mayor does not sign this legislation, Council cannot pass it over his objections or his refusal to sign. Without the signature of the Mayor it would not be valid for payment.

3. Under this class of legislation, it is not incumbent upon the Mayor to send the Bill back with his objections. This is a matter of the prerogative of the Mayor and should he decide to give his reasons for not signing the Bill, that is a matter of courtesy which he can show Council if he so desires.

4. In reference to this question, it is purely within the prerogative of the Mayor. He could, if he so desires, notify Council that he did not sign and return it to the Clerk, but this courtesy to Council is within the discretion of the Mayor.

Therefore, if the Mayor, for any reason, expressed or withheld, refuses to sign a Resolution for extra compensation which comes under the

Wallace Act, the Controller is not authorized to pay the same.

Respectfully yours,
Chas. A. Waldschmidt
City Solicitor.

Which was read, received and filed.

And the **Chair** declared that, according to this opinion, Bill No. 3866 fails to become a law.

REPORTS OF COMMITTEES.

Mr. **Garland** presented

No. 4213. Report of the Committee on Finance for February 26, 1929, transmitting two ordinances and sundry resolutions to council.

Which was read, received and filed.
Mr. **Garland** moved

That, in order the several committee reports may be considered, Rule VIII be suspended, which provides for the mailing of printed copies of all bills and resolutions to each member of Council, after said papers have been returned from committee, at least 48 hours previous to their consideration by Council.

Which motion prevailed.

Mr. **Garland** also presented, with an affirmative recommendation,

Bill No. 4112. An Ordinance entitled, "An Ordinance authorizing the Mayor and the Director of Public Safety to award a contract for the erection of nine Board Signs, at a cost not to exceed \$3,900.00, two of which are to be illuminated, and seven unilluminated, as a traffic sign for travelers entering the City of Pittsburgh, payment of the cost thereof to be made in twelve equal monthly installments of \$325.00 each, from Code Account No. 1497."

Which was read.

Mr. **Garland** moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

An Ordinance entitled, "An Ordinance amending Section 5, Mayor's Office, Municipal Garage and Repair Shop, of an ordinance entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof,' which became a law January 2, 1926."

Which was read.

Mr. **Garland** moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. **Garland** also presented
No. 4214.

OFFICE OF THE MAYOR

February 27th, 1929.

To the President
and Members of Council,
Pittsburgh, Pa.

Gentlemen:—

For the benefit of your information relative to the ordinance creating the positions of additional watchman at the Municipal Garage may I say it is for the purpose of centralizing responsibility to prevent a repetition of conditions with which most of us have been annoyed and brought out at a hearing some time ago. At present there are but two watchmen on the premises, one from three to eleven P. M., and one from eleven P. M. to seven A. M., leaving no person in charge from seven A. M. to three o'clock in the afternoon. These men must have sufficient intelligence to check up and make reports to their superior officer, the superintendent, on all cars going into and coming out of the Municipal Garage. That is

the reason for making the compensation at \$5.00 per diem.

Sincerely yours,
Charles H. Kline,

MAYOR.

Which was read, received and filed.
And the bill, as read a second time, was agreed to.

And the bill was read a third time, and agreed to.

MOTIONS AND RESOLUTIONS.

Mr. Winters presented

No. 4220.

WHEREAS, The City of Pittsburgh owns a tract of land bounded by Fernleaf, Salisbury, Sterling and Fort Hill streets, which is in part used for playground purposes known as the Arlington Avenue Playground; and

WHEREAS, When said tract was developed it was so graded as to leave a high terrace on the Fernleaf

and Salisbury street frontages; and

WHEREAS, The present condition of these bare terraces are objectionable from the standpoint of the properties fronting the same and depreciates the values of said properties; Now, therefore, be it

RESOLVED, That the Department of City Planning is hereby authorized and directed to improve said barren slopes with proper planting and charge same to Appropriation 1109 Hillside Improvement.

Which was read.

Mr. Winters moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 4221.

WHEREAS, The City of Pittsburgh owns a tract of land fronting on Mission street on which is erected the Mission Street Pumping Station and

WHEREAS, A large percentage of this property is barren and unimproved and should be planted so as to provide a shaded area for use of the residents in that vicinity; Now, therefore, be it

RESOLVED, That the Department of City Planning is hereby authorized and directed to improve this tract by planting with proper shade trees and shrubbery and charge the same to Appropriation 1109 Hillside Improvements.

Mr. Winters moved

The adoption of the resolution.

Which motion prevailed.

Mr. McArdle presented

No. 4222.

WHEREAS, There is pending in the State Legislature a bill known as Senate File No. 220 and House File No. 805, which bill provides for an amendment to an Act entitled, "An Act to provide for the maintenance, care and treatment of the indigent insane in county and local institutions," by providing for an increase in the weekly payments made by the State to County and local institutions from \$2.00 to \$3.00; and

WHEREAS, Said rate of \$2.00 per week was fixed when the cost of maintenance of said inmates was very much lower than at the present time; and

WHEREAS, The said \$2.00 is wholly inadequate to meet the cost as apportioned by said Act fixing said payment; Therefore, be it

RESOLVED, That the Council and the Mayor of the City of Pittsburgh hereby approve said Bill known as Senate File No. 220 and House File No. 805, and urge the members of the Senate and House from Allegheny County to support its passage; and be it further

RESOLVED, That the City Clerk is hereby authorized and directed to forward a copy of this resolution to each member of the Senate and House from Allegheny County and to the Governor of the State of Pennsylvania.

The Chair presented
No. 4223.

PITTSBURGH BUREAU OF
GOVERNMENTAL RESEARCH.
Pittsburgh, Pa.

March 1, 1929.

Hon. James Malone,
President of Council,
City-County Building,
Pittsburgh, Pa.

Dear Mr. Malone:—

The enclosed memorandum covers the point of our conversation yesterday. This move is important in that it will establish a proper control over the expenditure of bond funds. It should also be of real value to the Department, for through the functioning of the new accounting system the Department will have its job costs available at all times.

Thank you very sincerely for your courtesies.

Very truly yours,

Paul M. Kydd.

REALLOCATION OF BOND FUNDS
In December the Finance Committee

of Council signified its intention of appropriating all bond funds in the future and re-appropriating all unexpended bond funds still outstanding by project, divided so as to show the amount to be spent for work to be done by contract, the amount to be spent for work to be done by city forces, and the amount to be spent for engineering expenses. The last two items are to be sub-divided in accordance with the standard city code, i. e., payroll items, materials, supplies, etc.

The Department of Public Works was instructed to submit ordinances reallocating the unexpended bond funds in accordance with the above policy. Conferences have been held by the Department of Public Works in the Controller's Office, and the de-

tails have been mutually agreed upon. Which was read, received and filed.

Mr. McArdle moved

That the Department of Public Works be instructed to prepare and have presented to Council ordinances reallocating the unexpended bond funds as provided in the above communication.

Which motion prevailed.

The Chair stated

That there would be no Council meeting on Monday next, nor any committee meetings on Tuesday, but that the hearings already scheduled would be held Wednesday.

And there being no further business before the meeting, the Chair declared

Council adjourned.

DEPARTMENT OF PUBLIC WORKS

Pittsburgh, March 11, 1929.

SUBJECT: Irvine Street Project.
President and Members of Council,
City of Pittsburgh.

Gentlemen:

We have to report that terms, subject to your confirmation, have been arrived at with the representative of the B. & O. Railroad with regard to the allocation of costs for the Irvine Street project. Under the terms considered, and which we are now referring to you for your consideration, the B. & O. Railroad will do all of the railroad work at their own expense at a total estimated cost of \$523,000. This railroad work includes reconstructing the two railroad bridges over Greenfield Avenue, the two railroad bridges over Swineburna Street, reconstructing the Monongahela connecting railroad bridge and raising their tracts with all work incidental thereto.

The B. & O. Railroad further proposes to release the city from all claims for damage to property owned by them or their subsidiaries, since

having a value of \$23,520, according to the award recently made by the viewers which has not as yet been confirmed. This includes both the damages on Irvine Street and also those due to grade on Greenfield Avenue. The total estimated expenditure of the railroad company according to the foregoing will be \$555,520.

Council has already considered the contribution of the Pittsburgh Railways Company who in accordance with the terms discussed, will enter into an agreement with the City to expend a total of \$168,318, which includes a cash contribution to the City of \$61,043, of which \$51,043 is on account of benefits, and \$10,000 is a contribution towards the cost of the loading platform under the Greenfield Avenue Bridge.

If the terms offered by the B. & O. Railroad Company and the Pittsburgh Railways Company are agreed upon then the City will carry out all street improvement work and pay all damages less the damages to the B. & O. Railroad property, and receive as an offset the contribution of \$61,043 from the Pittsburgh Railways Company and such benefits as may be assessed upon the abutting property on Irvine Street by virtue of this improvement, which can only be determined after viewers' proceedings can be held. These benefits we have conservatively estimated at \$40,000.

The City has voted in the bond issues of 1919 and 1926 a total of \$720,000 for this improvement. As the improvement of Irvine Street is now under contract and as the damage award has been made by the viewers, it is evident that the City's expenditure will be under the funds available, and taking into account all expenses, including engineering expense, it is clearly evident that we will have sufficient bond funds after making full allowance for all contingencies on the improvement contracts.

The terms offered by the B. & O. Railroad are recommended to you for acceptance by this Department, this recommendation being made after very careful estimate of the costs involved.

If the foregoing terms are satisfactory, we would request that we be so advised and we will proceed in conjunction with the Law Department in formulating the necessary agreement ordinance between the City, the B. & O. Railroad and the Pittsburgh Railways Company, and present same to you at an early date for your consideration in order that both the Railroad Company and the City may proceed with the physical work without delay.

Yours very truly,
Edward G. Lang
Director.

Also

No. 4261. Communication from the Department of Public Works transmitting sundry ordinances relating to the improvement of Library Road.

Also

No. 4262. DEPARTMENT OF PUBLIC SAFETY
March 12th, 1929.

To the President and Members,
City Council.

Pittsburgh, Pa.

Gentlemen:—

Pursuant to my letter to you under date of February 9th, 1929, in Re left turn prohibitions in the Downtown

Area 8 A. M. to 6 P. M., please be advised that the 60-day trial of these prohibitions at the intersections enumerated in my letter of February 9th, 1929, will become effective Monday, March 18th, 1929.

Yours very truly,

James M. Clark,

Director.

No. 4376.

DEPARTMENT OF PUBLIC SAFETY

Pittsburgh, March 14, 1929.

To the President and Members of
City Council.

Gentlemen:

On February 20th I instituted a 60-day trial of "No Parking at any time" on the westerly side of North Dithridge street, between Fifth avenue and Bayard street, to relieve the traffic hazard brought about by the parking of cars on one side, and the piling of building materials on the other side of the street. This "No Parking at any time" has worked a hardship on Sunday mornings on the members of the Central Christian Church, located in that block, who have occasion to park their automobiles while attending services. In order to relieve this situation, I have decided to replace the present 60-day trial with a 60-day trial of the following regulations; effective March 19th, 1929.

"No Parking at any time on the westerly side of North Dithridge Street between Fifth avenue and Bayard street excepting between the hours of 9:00 A. M. and 1:00 P. M. on Sundays."

Very truly yours,

James M. Clark,

Director.

No. 4397.

WHEREAS, The Federal Income Tax Law imposes an unfair burden on those who are taxed on earned incomes; and,

WHEREAS, Under the present schedule of rates, the Government is placed under a large expense in collecting the tax from a vast number

of citizens earning but a modest wage; Therefore, be it

RESOLVED, That the Council of the City of Pittsburgh, through the medium of this resolution, go on record as recommending that Congress take up the question of a revision downward of taxes on earned incomes.

Which was read.

Mr. Alderdice moved.

The adoption of the resolution.

Mr. Garland arose and said:—

Mr. Chairman:

I will vote for the motion, but I do not think it is the proper thing to do. I was asked several days ago to put this in Council, but refused to do it. This is one legislative body and the Congress is another; I believe we should let them attend their own business. I refused to put this in, but now that it has been presented, I will vote for it. I think it is a good thing, but I did not believe it belonged here.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Alderdice moved

That the following members be excused for absence from Council and Committee meetings:—

Mr. Alderdice on November 21, 1928;

THE CARNEGIE INSTITUTE

Pittsburgh, Pa., March 21, 1929.

Mr. James F. Malone,
President, City Council,
Pittsburgh, Pa.

Dear Mr. Malone:

On behalf of the Board of Trustees of the Carnegie Institute it gives me pleasure to make grateful acknowledgment of the appropriation to the Carnegie Institute by the City of Pittsburgh. This generous action is a great encouragement to our trustees in their policy of expanding the use-

fulness of the Institute through its touch with the school children of this community and we are all indeed very grateful to you and your associates in the City Council for this most helpful action.

Sincerely yours,

S. H. Church,

President.

DEPARTMENT OF PUBLIC SAFETY

March 20, 1929.

To the President and

Members of City Council.

Gentlemen:

Our investigation has developed that parking on Logan street, Elm street, Congress street, Fernando street, Chatham street and Washington Place creates a hazardous condition and would seriously hamper fire apparatus. In order to remedy this, I have decided to institute a 60-day trial of the following regulations; effective March 26, 1929.

LOGAN AND CONGRESS STREETS

"No Parking at any time" on the west side, with a one-hour regulation on the east side.

ELM STREET

"No Parking at any time" on both sides of Elm street from Fifth avenue to Hazel street, and "No Parking at any time" on the west side from Hazel street to Bedford avenue with one-hour regulation on the east side.

WASHINGTON PLACE, FERNANDO AND CHATHAM STREETS

"No Parking at any time" on the west side, with the present one-hour regulation on the east side.

Very truly yours,

James M. Clark,

Director.

APPROVED

Charles H. Kline

Mayor.

MOTIONS AND RESOLUTIONS

Mr. Little presented

No. 4463.

WHEREAS, Due to changes of grade and the raising of streets in the North Side district bounded on the east by Federal street; on the south by Hypolite street; on the north by Martindale street, and on the west by Manchester Boulevard or Galveston avenue, considerable dam-

age will be done property owners; and

WHEREAS, Many of these property owners have nothing but their homes and use them for their residences and are not financially in a position to take care of the cost of the raising of their homes; and

WHEREAS, It will probably be a long time before these cases can be adjudicated before the Board of Viewers, and in the meantime these homes will be destroyed, thereby causing the property owners financial loss and personal distress, and further adding to the cost that might be placed on the City by the Board of Viewers; Therefore, be it

RESOLVED, That a Committee of Council be appointed to act in conjunction with the Department of Law and the Department of Public Works to submit to Council the necessary legislation to provide relief to those property owners at the earliest possible date.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

And the Chair appointed

Messrs. Little, Herron and McArdle as members of the Committee.

The Chair presented

No. 4464.

WHEREAS, It has been called to the attention of Council that numerous persons are opening up temporary sales rooms for the sale of various commodities, including automobiles, automobile accessories, etc; and

WHEREAS, These temporary sales are for a period of 30, 60 and 90 days, and are classified as transient dealers; and

WHEREAS, Under the provisions of an Act of Council these dealers are required to pay a fee of \$200.00 per month or for any portion of a month; and

• WHEREAS, These persons are in competition with representative dealers who are large property owners as well as large rent payers and are permanently located in the City, and the cutting of prices and other unethical business methods used by

these transient dealers has a tendency to create havoc among the permanently located dealers, manufacturers, wholesale as well as retail; and

WHEREAS, An investigation should be made by the Department of Public Safety to determine whether these transient dealers are complying with the provisions of the existing ordinance; Therefore, be it

RESOLVED, That the Director of the Department of Public Safety be and he is hereby requested to immediately make an investigation of all places throughout the city where temporary sales are being held by transient dealers and see that the proper license fees are paid by them to conduct such businesses.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

Also No. 4465.

WHEREAS, Last Fall, Council appropriated money for material and labor for the construction of a new set of steps on Rising Main street, to take the place of the steps that were there and taken away when the new reservoir was built; and,

WHEREAS, This reservoir work is in such shape now that the steps could be constructed immediately; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be and he is hereby requested to have the Bureau of Highways and Sewers get to work immediately on the construction and final completion of said steps on Rising Main street.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

Also No. 4466.

WHEREAS, About a year ago the Better Traffic Committee had constructed at the corner of Sixth avenue, Grant street and Bigelow boulevard, a monument showing the number of accumulative automobile fatalities; and,

WHEREAS, The purpose of this temporary structure has about expired, and it creates an obstruction to the view, particularly with reference to the entrance to the new addition to the Wm. Penn Hotel, which will be soon opened; and,

WHEREAS, This small triangular plot could be used to good advantage in beautifying this section of the City, in that it could be planted with shrubbery, etc.; Therefore, be it

RESOLVED, That the Director of the Department of Public Safety be requested to direct the Better Traffic Committee to move this monument from said location; and, be it further

RESOLVED, That the Director of the Department of Public Works be requested to beautify this triangular piece of property with appropriate plants and a hedge fence inside the walks.

Which was read.

Mr. Little moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 4467. Report of the Law Department as to the City's power to control the waters in runs, such as Becks Run.

Which was read and referred to the Committee on Public Works.

Mr. McArdle presented

No. 4468.

DEPARTMENT OF PUBLIC WORKS

March 21st, 1929.

Committee on Public Works,

Council, City of Pittsburgh.

Gentlemen:

In connection with the contract for the improvement of Irvine street, from Greenfield avenue to a point on Second avenue near Hazelwood avenue, we have received a communication from the contractor, M. O'Herron Company, in which they state that grading operations have again been suspended for the reason that it is practically impossible to haul excavated material to the Saline street dump, and requesting the Department, if it is the Department's desire to continue this work without delay, to designate where the excavated material shall be deposited.

The contractor suggests that until such time as the roadway of Saline street is in condition to haul over, which is entirely governed by weather conditions, that they are willing to haul the excavated material up Greenfield avenue to the upper end of the Saline street dump, at cost plus 15 percent, or they will haul the material to their own dump at their contract price of \$1.50 per cubic yard, under Item No. 3, Spoil, or will haul to any location designated by the City, at cost plus 15 percent.

We would like to have a meeting with your Committee to discuss this matter.

Yours truly,

Edward G. Lang,

Director, Department of Public Works.

By Chas. M. Reppert,

Chief Engineer, D. P. W.

Which was read.

Mr. McArdle moved

That the Department of Public Works be notified that it is the sense of Council that the Department should proceed to complete the work on Irvine street in accordance with the terms of the contract, and to complete

the work at the earliest date possible. Which motion prevailed.

Mr. Herron moved

That a conference on the Irvine street improvement be held on Thursday, March 28, 1929, at 2:00 P. M.

Which motion prevailed.

Mr. Little moved

That the Department of Public Works allow the Clark Lumber Company to proceed with construction work pending passage of the ordinance.

Which motion prevailed.

Mr. Little presented

No. 4469. Petition on behalf of various property owners affected by the raising of the streets in the North Side Flood district relative to the payment of damages to them resulting therefrom, in advance of such award by the Board of Viewers.

Which was read and referred to the Committee on Public Works.

Mr. McArdle moved

That the Minutes of Council, at a meeting held on Monday, March 18, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council Adjourned.

Committee on Finance,

Council,

City of Pittsburgh.

Gentlemen:

In accordance with letter of March 28th from John S. Schilpp, Jr., Clerk of Finance Committee, stating that at meeting of said Committee held March 27th, 1929, Council Bill 4413, an ordinance authorizing the execution of an agreement with the Pennsylvania Railroad for license for a terra cotta sewer across the right-of-way of said railroad at Fourth Avenue, Pittsburgh, Pa., received an affirmative recommendation contingent upon a report from the Department of Public Works, we reply as follows:—

The sewer in question is to be constructed to provide drainage for the new County Building to be erected on Fourth Avenue, and said sewer will connect with the Try Street sewer located within the railroad property.

The Pennsylvania Railroad Company has written a letter to the Department stating that they have no objections to the City constructing said sewer as long as the railroad is not involved in any expense thereby, and the Law Department of the City has in their possession an agreement between the City and the Railroad which will be executed as soon as the ordinance authorizing same is passed by Council and approved by the Mayor.

The agreement distinctly states that the City shall construct the sewer, relieving the railroad from any expense whatsoever, and shall be approved by the Public Service Commission of Pennsylvania. The work involved consists of tunneling and proper backfilling of the tunnel and will in no way affect railroad facilities.

Yours truly,

Edward G. Lang

Director.

MOTIONS AND RESOLUTIONS

Mr. English, at this time obtained leave, and presented

No. 4539. Communication from C. F. Hunter, Chairman of Civic Committee, Sheraden Board of Trade, transmitting petition of property owners on Fairston, Fusion, Swaney and Municipal streets asking for cinders and boardwalks on these streets.

Which was read and referred to the Committee on Public Works.

Mr. Winters presented

No. 4540. Communication from H. S. Clemens asking for the construction of boardwalks on Haberman avenue and Ruxton street.

Which was read and referred to the Committee on Public Works.

Mr. Alderdice presented

No. 4541. Resolved, That the Director of the Department of Public Safety instruct the Bureau of Traffic Planning to install at the earliest possible date a "Stop and Go" signal

light at the corner of Wilmot and Parkview streets, in the 4th Ward.

Which was read.

Mr. Alderdice moved

The adoption of the resolution.

Which motion prevailed.

Mr. English moved

That the Director of the Department of Public Works be notified to include in the repaving of Lanpark street, an extra strip of ground at the corner of Hillsboro and Lanpark streets, now private property of Waidler Estate, as Council intends to purchase this small strip of ground from the owner at an agreed price of \$100.00 and save delay and expense of viewers' proceedings.

Which motion prevailed.

Mr. Herron moved

That the Bureau of Engineering be asked to confer with the Law Department relative to having an appraisal made of the damages in the opening and widening of Bennett street, said appraisal to be presented to Council within a week or ten days.

Which motion prevailed.

Mr. Little, at this time, stated

That the Director of the Department of Public Works had just informed him that the Schenley Golf Course would be open next Saturday.

The Chair presented

No. 4542.

WHEREAS, There has been passed by the Senate a Bill (Kitts Bill) exonerating Street Railways Companies from paying the cost of paving and repaving highways upon which they have tracks, inside the tracks and one foot on each side; and

WHEREAS, Railways Companies, upon receiving the franchises from municipalities throughout the State, entered into agreements with the different municipalities to pay the charges of the upkeep of the railway areas; and

WHEREAS, Various municipalities, particularly Pittsburgh, have in the past few years been deprived of large amounts of money that formerly came into the City Treasury, and the loss of the amounts paid by the Railways

Companies would create an additional loss of revenue, making it necessary to have the tax-payers as a whole make up for this loss; and

WHEREAS, The Kitts Bill, so we are informed, recognizes agreements between municipalities and Railways Companies so long as such agreements are in effect, and the City of Pittsburgh has an agreement with the Pittsburgh Railways Company and the City of Pittsburgh would not lose this revenue, which is \$200,000.00 a year during the five years this said agreement still remains in force, but would lose it at the termination of the contract; and

WHEREAS, The Pittsburgh Railways Company has informed Council that it is not advocating the passage of the Kitts Bill; and

WHEREAS, Even though there might be some merit on the side of the Railways Companies in seeking exoneration from the cost of repaving in their railways area, all Railways Companies received their franchises from the various municipalities in the State, and if any exoneration of the present cost is to be given to the companies, it should be given by the municipalities which granted the franchises. Therefore, be it

RESOLVED, That the Council of the City of Pittsburgh assembled this first day of April, 1929, does hereby protest to the members of the House of Representatives and to the Governor of the Commonwealth against the passage of the Kitts Bill, or the signing of the bill should it be passed; and be it further

RESOLVED, That the President of Council be instructed to send a copy of this resolution, as well as write a letter, to each member of the House of Representatives, and to the Gov-

ernor, requesting them to defeat this Bill; and, be it further

RESOLVED, That the President of Council be instructed to write to the Speaker of the House of Representatives asking, if he believes this Bill has a chance of passage, that he request the Chairman of whatever Committee the bill may have been sent to, to grant a hearing on the Bill and to notify the Mayors and Burgeses and the members of Council of the various cities and boroughs of the Commonwealth, so that they may have an opportunity to present their side of the case.

Which was read.

Mr. Alderdice moved

The adoption of the resolution.

Which motion prevailed.

Also

No. 4543. Communication from Harry R. Levy asking for information as to when definite action will be taken with reference to starting the proposed traffic circle at Halket street.

Which was read and referred to the Committee on Public Works.

Also

No. 4544. Communication from A. V. Snell, Secretary of the Chamber of Commerce, transmitting report of the Recreation Committee relative to City and County acquiring the necessary lands for a water recreation center on Squaw Run.

Which was read, received and filed.

Mr. Winters moved

That the Minutes of Council at a meeting held on Monday, March 25th, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

DEPARTMENT OF PUBLIC WORKS

Pittsburgh, February 6, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:—

This is to advise you that the Department of Public Safety, through its Bureau of Building Inspection, has made a thorough investigation of the bandstand in West Park, North Side, and find it in very delapidated condition and in need of very considerable repairs. As this bandstand is old, obsolete and the amount of money necessary to put it in safe condition is not warranted, we feel that the same should be torn down immediately, as a strong windstorm may cause serious loss or effect the safety of the many hundreds of people who pass this structure.

We feel it should be torn down immediately and unless we have advices to the contrary, we will proceed at once to eliminate this very serious hazard.

Awaiting your early advices, I am,

Yours very truly,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC WORKS

Pittsburgh, April 3, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:—

We have submitted to each of the Councilmen a letter by the Bureau of Tests covering the activities of one of the most important branches in our City service. The work of the department has been exceedingly large and we believe that with the vast amount of money that is being expended, that the matter of testing and supervision of materials is one that should be guarded most religiously, so that the highest measure of results may be obtained not only in the work done by our Bureaus but also contracted work. Without proper supervision and inspection, there can be no great measure of efficiency obtained and as you well know this Bureau has been very much handicapped in years past by inadequate staff of capable and efficient employees. It is not our desire in any way to load up the payroll with men simply for the purpose of giving employment, but we are so impressed with the fact that supervision and inspection is so essential to the proper carrying out of this program that has been under way in the department, that not only is the department satisfied that a greater measure of efficiency may be attained by a staff in the Bureau of Tests that will meet the requirements, but in the report of Mr. Skidmore on this very important phase of our work, he stressed the inadequacy of our organization to meet the demands of this Bureau, so that for the money expended the taxpayers may receive the greatest percentage of return. We cannot impress upon you too strongly that each member of Council give this matter its careful and serious atten-

tion, as we cannot render the service that Council desires unless this organization is augmented to the extent that it may meet the demands upon it.

Trusting that this matter will have your serious and favorable consideration and that action may be taken at an early date on the ordinance now before you covering the subject matter, I am,

Yours very truly,
Edward G. Lang,
Director.

Department of Public Works.

April 3, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

Referring to our report to you of the 1st inst. in regard to the proposed terminal for river and rail traffic, we then advised you that we had consulted a committee of the Pittsburgh Coal Exchange with regard to the proposition.

We have now received under date of March 28th a communication from Alex. W. Dann, president of the Pittsburgh Coal Exchange, copies of which are hereto attached, in which we are advised that the location tentatively proposed by the Department to you is satisfactory and that it cannot offer any unfavorable criticism as to the design of the proposed terminal.

Inasmuch as a consultation with the Pittsburgh Coal Exchange representing the local users of the river is

a very desirable preliminary to formal submission of plans to the U. S. War Department, this communication from the Exchange is to be regarded as a most important step in proceeding with the construction of the terminal, particularly with regard to selection of the best site on the river and with reference to river frontage and interference with river navigation.

I would request that an early time be fixed for consideration by your Honorable Body of this matter so that opportunity may be given to this Department to lay before you the information it has and so that opportunity may be given for those who may be interested in the subject to appear before you.

Yours very truly,

Edward G. Lang,
Director.

The PITTSBURGH COAL EXCHANGE
807 Wabash Building

Pittsburgh, Pa., March 28th, 1929.

Mr. Charles M. Reppert,
Chief Engineer,
Department of Public Works,
Pittsburgh, Pa.

Dear Sir:

Some time ago you submitted to a committee of this Exchange, certain plans for a river transfer terminal. The committee has reported, and we summarize the action of the Exchange as follows.

We are of the opinion that a public river transfer terminal at Pittsburgh would be not alone convenient for the use of shippers by river, but we feel that it is a necessity in order that full transportation benefit may be secured from coordination of rail, river, and truck services, and for a fuller use of the Ohio River which is soon to have slack-water navigation available throughout its length. We believe that such a terminal if immediately built will be used and that the use of it will be for the benefit of the entire district.

We are of the opinion that the location selected by you immediately below the Manchester bridge and as shown upon your plans, is a good one for the construction of a first unit.

It appears to be an excellent location for transfer from trucks to barges. Inasmuch, however, as two only of the railroads of the district may be reached at this point, and in view of the comparatively limited yard area apparently available, it is felt that after construction of this terminal, it will be desirable to erect a terminal at another point where if possible the other rail carriers may have connections from their lines, and where more yard facilities will be available.

While this Exchange does not feel that it may as a body properly enter with detail into the matter of the type of construction proposed to be used in this terminal, yet it has no unfavorable criticism to offer of the design proposed by you after thorough investigation of other terminals of this character. From the standpoint of through navigation and of the facility with which barges may be placed at or removed from this dock, we feel that it is entirely satisfactory and that the whole plan appears to be a workable one for the first unit.

Relative to the location which has been tentatively selected at Hays, we feel that this is a good place for a rail and river terminal, inasmuch as practically all of the railroads of this district can deliver and receive cars at this point. Relative to the design as shown in this layout, we believe it to be a good workable plan, but we suggest study of the situation with respect to the possible advantageous replacement of the car float by traveling derricks upon the wall so placed that heavy freight may be removed directly from the cars on the bank to barges immediately against the wall. It is not clear from the plan we have just what mechanical handling devices are proposed. We are of the opinion that construction of a terminal at this point along the lines proposed will not be objectionable from the standpoint of navigation.

We believe that the construction of a river terminal at Pittsburgh will contribute to the large use of the rivers for transportation; that it will tend to reduce the costs of transportation, and consequently will be of

benefit to the entire district. Therefore, this Exchange is ready to actively lend its influence to bring about the early construction of a river terminal. Its officers are requested to cooperate in every possible way with your department and with the Chamber of Commerce of Pittsburgh. At the proper time, a committee of the Exchange is ready to appear before the Council of the City or the Commissioners of the County in furtherance of this project.

Yours very truly,
The PITTSBURGH COAL EXCHANGE
By ALEX. W. DANN,
President.

DEPARTMENT OF PUBLIC WORKS

Pittsburgh, February 7, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

This is to advise you that we have received word from Hon. Harry A. Estep that the Government does not contemplate any further proceedings in its order to remove the outlet of the 33rd Street sewer but that a bill would be presented in Congress to legalize this structure, which bill will have attention in the regular course of Congressional action. Senator David A. Reed, Congressman Harry A. Estep and Stephen G. Porter were of very great assistance to this Department before the War Department in our defense and our request that the order be abrogated, which

the War Department has acquiesced in.

Yours very truly,

Edward G. Lang,
Director.

Mr. Herron moved

That the Director of the Department of Public Works be asked to furnish a report to the Committee on Public Works at its meeting tomorrow as to just how the Director interprets the motion adopted by Council some time ago that contracts for repaving, calling for use of new block and for reclippped block, be separated.

Which motion prevailed.

Mr. English asked that the Clerk be instructed to ask the Director of the Department of Public Works to

furnish the Committee on Public Works, at its meeting to-morrow, a schedule of the boardwalks and steps to be constructed during the present year.

The Chair presented
No. 4625.

WHEREAS, The Committee appointed by the President of Council, composed of Messrs. L. W. Monteverde, Chairman of the City Planning Commission and Vice Chairman of the City Transit Commission, Thomas N. Benner, First Assistant City Solicitor and Chas. M. Reppert, Chief Engineer of the Department of Public Works, for the purpose of working in conjunction with officials of the Pennsylvania Railroad Company toward bringing about the construction of a new Pennsylvania Railroad passenger station and a widened 120-foot Penn avenue, have about completed their arrangements; and,

WHEREAS, During the negotiations and the consideration of plans, members of the Better Traffic Committee and other members of the City Planning Commission, City Transit Commission, and officials of the Pittsburgh Railways Company, have been brought into the conferences by the Committee, and a plan (copy of which is being presented to Council today) has been practically agreed upon by all parties concerned. This plan carries out in practically every detail the ideas expressed by the President of Council to the committee at the time of its appointment and enters into considerable detail with reference to the widened 120-foot Penn avenue, as well as the solution of not only the railroad company's track question, but the Pittsburgh Railways Company's traffic problem; and,

WHEREAS, In addition to the new passenger station, which will be located between 12th and 13th Streets on the new Penn avenue, a new express station is to be constructed, which will probably be several blocks long and east of the passenger station. In addition to the railroad projects, a new post office is to be erected in the near future on Grant street, Seventh avenue and the property of the Pennsylvania Railroad Company,

a new building to be erected by the Gulf Refining Company at the corner of Grant street and Seventh avenue, and the Koppers building on the other corner is just about completed. Further buildings are contemplated on Grant street and Penn avenue; and,

WHEREAS, All of these new buildings and improvements, when completed, will have a further tendency to increase the traffic problems on Grant street, Liberty and Penn avenues; and,

WHEREAS, There is now and has been for years Six Million Dollars (\$6,000,000.00) set up for the construction of a subway in the First and Second Wards of the City of Pittsburgh; and,

WHEREAS, Prior to the starting of all of these improvements, or at the same time they are going on, the subway, taking care of the Grant street, Liberty and Penn avenues cars, could be constructed at a great deal less cost than after all of these new improvements were completed; and,

WHEREAS, Much help could be given not only to the present but to the future traffic problems, if provision were made for the elimination of surface street car traffic on these highways; and,

WHEREAS, Under the present and prospective future credit of the City, it would hardly be possible for any additional sums of money to be provided for the building of subways. The Metropolitan Bill now pending in the Legislature does provide for the transfer from the present City of Pittsburgh to the new City of the Department of City Transit and extends to that department considerable powers for the study and construction of subways. Their studies and ideas would not be interfered with in any manner by the construction of the subway under Grant street, Penn avenue and Liberty avenue; Therefore, be it

RESOLVED, That, in view of the contemplated improvements by the Pennsylvania Railroad Company and large private interests, on the lines of Grant street, Liberty and Penn avenues, the President of Council be

authorized to continue the committee, composed of Messrs. L. W. Monteverde, Thomas M. Benner and Chas. M. Reppert, and to add to the committee, if advisable, other persons, for the purpose of carrying on negotiations with the Pennsylvania Railroad Company, Pittsburgh Railways Company, the Department of City Transit and the Better Traffic Committee, and any other agencies that may be involved, with the thought in mind of constructing a subway street car line under Grant street, Liberty avenue, Eleventh street and Penn avenue, to a point west of Twenty-seventh street and, if possible, to carry the proposed subway or sub-surface line in Penn avenue and around to Liberty avenue to a point as far west of Eleventh street as can be taken care of in the monies (\$6,000,000.00) now provided for the construction of a subway in the First and Second Wards; and, be it further

RESOLVED, That the Committee report to the President of Council from time to time, and be further authorized to have prepared the legislation necessary for the carrying out of all or any part of the program; and, be it further

RESOLVED, That the Department of Assessors be and is hereby requested to prepare valuations of the properties involved along the lines of the improvements contemplated.

Which was read.

Mr. Herron moved

The adoption of the resolution.

Mr. Garland arose and said:—

I object to this resolution for the reason that it seems to change the whole character of our Subway program. I certainly will not vote for it unless I know that the Subway Commission, George S. Davison, President, recommends same, and I do not like the idea of having another commission formed when we have one now.

So far as I know the present engineering corps is working on a subway going towards the North Side. I have no knowledge of any change, or that we have instructed the engineers to stop work on what they are now doing.

I look upon this whole business as a discourtesy to the present com-

mittee on subway, of which George S. Davison is the head, and I am not informed as to whether he knows anything about this or not.

Further, I do not like the idea of having this new committee which is being appointed report to the President of Council—it should report to Council.

After Mr. Garland had concluded his statement, the President asked that he make a motion to amend in order to make the report from the committee come to Council, but Mr. Garland replied that he would not make the amendment as he did not intend to vote for the resolution.

Mr. Little arose and said:—

Mr. President, I believe the passage of this his resolution will materially change the subway situation as it now exists in the City of Pittsburgh. When I was a member of the Legislature of the state of Pennsylvania during the term of 1925, it was my pleasure to introduce, sponsor and vote for the Act which created the Transit Commission and I believe this Commission under the Chairmanship of George S. Davison has progressed in a satisfactory manner with the preparation of the plans and financial policy for the building of a subway in the First and Second Wards of Pittsburgh, the bonds for which have been approved by the voters of Pittsburgh.

The Council adopted ordinances proposed by the Transit Commission whereby the County of Allegheny in the construction of the piers for the new Sixth Street Bridge provided for the construction of a subway to pass through them. The cost of the work on the south pier was paid for out of the people's bonds of \$6,000,000.00 because it came within the provisions of the bond ordinance, but the cost of the work on the north pier of this bridge was paid for out of councilmanic bonds. This provision was made so that an extension could be made to the subway from the south end of the Sixth Street along Federal street to a point at or about North avenue, which would serve those on the North Side desiring to use the

subway. To abandon those plans at this time without a recommendation from the Transit Commission, is wrong, in my judgment, and I do not propose to release my support to proceed with this extension until a better plan can be shown. I believe the residents of the North Side are entitled to this method of transportation and as I said before I do not propose to change my policy with regard to this until some other method is devised to provide adequate transportation facilities for the people living on the North Side.

I do not wish to be understood as objecting to the appointment of a committee to study and recommend plans for Grant street subway to fit in with the Pennsylvania Railroad Company improvements, but I reserve the right to vote for or against those plans if in my judgment I do not believe they would serve the most people. With this reservation I vote AYE on the resolution.

Mr. Winters arose and said:

Mr. President, This resolution providing for a subway such as described is an entirely new idea. I have had no knowledge of it myself up to this minute, and I do not believe any other member of Council has had any more information than I have, with only the knowledge given by the reading of this resolution by the clerk.

It seems to me that some more time should be taken in its consideration. Undoubtedly this resolution is the result of deliberation of considerable time and has been carefully studied, and to ask the members of Council to adopt it today without previous knowledge or even a copy of the resolution seems undue haste.

In addition to that, there has been created by Act of Assembly, endorsed by Council, the Department of City Transit, with full power to study and recommend on this subject, and to take the action described in this resolution would seem to me to take the power out of the hands of Mr. George S. Davison, Chairman, and his committee, who have given so much time and study to this proposal, and now a new plan and study is presented by this resolution putting the subway

matter in the hands of the President of Council and a new committee. I believe this action at this time to be ill-advised and therefore suggest that each member of Council be furnished a copy of the resolution and it be sent to committee or held over for future consideration.

Mr. English arose and said:

Mr. President, In my opinion the passage of this resolution has nothing whatever to do with the present Transit Commission. As I understand the explanation of the author of the resolution, the purpose is to have another group of competent persons to make a study of a subway under Grant street, which will fit in with the Pennsylvania Railroad Company improvements and the possibility of extending a rapid transit or subway line at Liberty or Penn avenue to Lawrenceville. I do not consider in voting for this resolution I am casting any reflection whatsoever on the Transit Commission, of which Mr. Davison is Chairman, and Mr. Turner is the Consulting Engineer. This resolution does not commit me to vote any funds or to approve any plans or authorize the building of any kind of a subway whatsoever. It is merely providing for the committee to make a further study in connection with the Pennsylvania Railroad Company's improvements. It is unfortunate that some person or persons deliberately distort or misinterpret my vote on this question. I am not responsible for what others may say or do. In my opinion I am merely authorizing a study and nothing else. With this idea in mind, I am ready to vote for this resolution.

Mr. Herron moved

To amend the resolution by striking out the words "have prepared" and insert in lieu thereof the word "recommend," and by striking out the words "the President of."

Which motion prevailed.

Mr. McArdle moved

That the resolution be referred to the Committee on Public Service and Surveys for further consideration.

Upon which motion, Mr. Winters demanded a call of the ayes and noes,

and the demand having been sustained, the ayes and noes were ordered taken, and being taken were:

Ayes—Messrs.
Garland McArdle
Winters
Noes—Messrs.
Alderdice Little
English Malone (Pres't.)
Herron

Ayes—3.

Noes—5.

And a majority of the votes of Council being in the negative, the motion was rejected.

And the question recurring on the adoption of the resolution, as amended.

The motion prevailed.

The Chair stated:—

I am very sorry that this resolution has caused so much discussion. So far as having the committee report to the President of Council is concerned, I do not see any reason why it cannot be amended by striking out the words "President of," and the committee will report from time to time to the Council as a whole. With reference to the resolution granting the committee power to prepare and present to Council legislation for any part of this project, I cannot see where their preparation of such leg-

islation grants them any unusual power. After all, the members of Council will pass on the legislation before it can be passed, but it is perfectly agreeable to me that this part of the resolution be amended—by striking out the words "have prepared," and inserting the word "recommend," as suggested by one of the Councilmen.

In preparing this resolution, the only reason I suggested the committee report to the President of Council was to relieve the other members of Council from dealing with a lot of details before something definite was agreed upon.

This whole project was discussed with officials of the Pennsylvania Railroad Company, Pittsburgh Railways Company, City Planning Commission, Public Works Department, and all concerned, and I feel confident that they are all agreeable to the construction of this subway.

Mr. McArdle moved

That the Minutes of Council at a meeting held on Monday, April 1st, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the Chair declared

Council adjourned.

DEPARTMENT OF PUBLIC WORKS
April 12, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

Herewith I hand you report from Chief Engineer, Tom M. Reed, in re condition of the hillside in the rear of parapet wall on Mt. Washington Roadway for your information.

I have notified the Bureau of Highways and Sewers to immediately proceed with the removal of this spoil, so that the area immediately adjoining the parapet wall may be kept free and open for drainage purposes, and am assured that our orders will be carried out.

In the regular course of business we will present an ordinance to Council asking for authority for the letting of a contract for the trimming off of portions of this hillside that are most necessary, in order to conserve the drainage of the hillside and protect our wall and roadway.

Yours very truly,

EDWARD G. LANG,
Director.

April 12th, 1929.

MT. WASHINGTON ROADWAY

Mr. Edward G. Lang,

Director, Department of Public Works.

Dear Sir:

On April 10th, 1929, we made a close inspection of Mt. Washington Roadway, as constructed, in order to determine the condition of the slopes on the high side of the roadway, as affected by winter weather, and report that there are no indications at the present time of a slide or break in the hillside at any place along this improvement.

From a point about 1500 feet east of Merrimac street end of the roadway to a point 2900 feet eastwardly therefrom, or for a total distance of 2900 feet along the high side of the road, we estimate that approximately 500 cubic yards of dirt has disintegrated and fallen down the hillside and is now lying in the gutter space in back of the wall—especially the parapet wall. We recommend that this dirt be removed by the Bureau of Highways and Sewers. This is a function that will have to be carried out every year or so by said Bureau in order to prevent the possibility of material sluffing off on the hillside and falling toward the roadway and in order to prevent going out onto the roadway proper, the space in back of the parapet wall must be at all time left open.

From a point about 2200 feet below the intersection of Merrimac street and from this point for 600 feet eastwardly, it is recommended that the present steep slope be hand-trimmed in order to remove any material that has become loose during the past winter and avoid the possibility of such

material falling down on the roadway. We estimate that 1500 cubic yards of material, hand-trimmed, will have to be removed to make the roadway safe for traffic and a fair estimate of the cost of this work, including the disposal of the material, is \$6.00 per cubic yard. This action would relieve, to a great extent, the possibility of future sluffing off of this portion of the hillside.

If our recommendations meet with your approval, will you please notify the Bureau of Highways and Sewers to remove the dirt from in back of the parapet wall and leave the space free and open, and we will prepare for presentation to Council an ordinance authorizing the letting of a contract for the hand-trimming work and setting aside funds for paying the cost of same.

Yours truly,

TOM M. REED,

Chief Engineer B. of E.

SUBJECT: SHEET CONCRETE PAVEMENT.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Under the authority granted by Ordinance No. 340 approved by the Mayor June 19, 1928, and recorded in Ordinance Book Volume 40, Page 162, the City on the 12th of July, 1928 entered into an agreement with the Sheet Concrete Pavement Corporation of America covering the installation by the City of this type of construction. Briefly the agreement provides that the Sheet Concrete Pavement Corporation furnishes and delivers to City special cleavage fabrication, provides the necessary engineering, consulting and supervision service for the preparation of specifications and laying of the concrete, and further holds the City harmless against all suits for encroachment of patent. In return for this, the City pays the Corporation 30c per square yard when the yardage is in the excess of 1500 square yards, and 35c per square yard when the yardage is under that amount. These payments are made direct by the City to the Corporation, the money being taken from the funds provided for the particular improvement in question.

When the ordinance above referred to was under discussion in Council.

the Department was requested by Council to advise them before using this type of construction elsewhere than on the two viaducts of the Boulevard of the Allies.

This type of construction was used on the two viaducts of the Boulevard of the Allies and the Department believes that it makes an excellent and very desirable pavement surface, and is therefore desirous of using it on other work. The work now pending upon which it is proposed to use this type of construction, are the East Street Bridge, the Aiken Avenue Bridge and the Baldwin Road. Later, it is expected that it will also be used on the 28th Street Bridge and the approaches to the Elizabeth Street Bridge.

Should Council so desire, this type of construction can be readily examined on the two viaducts of the Boulevard of the Allies and on the steel spans of the two ramps of Viaduct No. 3. We think quite highly of this type of construction, and unless advised to the contrary by Council, will proceed with our Contract Plans covering this type of construction.

Yours very truly,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC WORKS

April 13, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:—

We are very anxious to secure two new tractors and graders because of the efficient work of the three that we now have are doing and the many demands that has come to the Department for work these machines are capable of doing economically and

very rapidly. The estimated cost of each of these is \$2,500.00 and we should be glad to have you give such authority as will procure for this Department these tractors and graders at the earliest possible time, because the season is open now when excessive demands will be made upon the Department and we will be able to meet them in greater measure than we have ever done heretofore.

On February 6th, I submitted to you recommendations for a number of various machines and equipment that are very essential in the Department and request that you give this matter your consideration, advising as to your decision on the entire list as submitted to you on February 6th, as the Department is in great need of this modern equipment, so that a greater measure of efficiency and rapidity may result in the Bureau of Highways and Sewers.

Yours very truly,

Edward G. Lang,

Director.

Which was read and referred to the Committee on Finance.

Also

No. 4702. Communication from McCrady Brothers Company, Braddock, Pa., inviting the members of Council to dine at their office at 12:30 noon, Thursday or Friday, April 18th and 19th, and to inspect their methods of delivering ready-to-place concrete.

Which was read, received and filed, and invitation accepted.

UNFINISHED BUSINESS.

The Chair took up

Bill No. 4193. An Ordinance entitled, "An Ordinance amending an ordinance entitled, 'An Ordinance regulating and restricting the location of trades and industries and the location of buildings designed for specified uses and regulating and limiting the height and bulk of buildings hereafter erected or altered, and regulating and determining the area of yards, courts and other open spaces in connection with buildings hereafter erected or altered, and establishing the boundaries of districts for the said purposes; conferring certain powers upon the Superintendent of

the Bureau of Building Inspection; providing for a Board of Appeals, and imposing penalties,' approved August 9, 1923, by changing the Zone Map, Sheet Z-N10, No. 30, so as to change from a 'B' Residence Use District to a 'C' Residence Use District, all that certain property bounded by South Braddock avenue, Rosemary street, Montrose street, South Richland street and the northerly line of Plan of 'Graymore Court'."

In Council, April 1st, 1929, Bill read, rule suspended, read a second time and agreed to, and laid over.

Which was read.

The Chair presented
No. 4703.

CHARLES B. PRICHARD
Attorney at Law
413 Grant Street, Pittsburgh

April 15th, 1929.

To the Council of the City of
Pittsburgh,
City-County Building,
Pittsburgh, Pa.

Dear Sirs:—

Referring to Bill No. 4193 (File No. 1692, Series 1929), being an ordinance presented by Mr. Winters, March 1st, 1929, and in committee on Public Works, March 27th, 1929, providing for an amendment of the Zoning Ordinance approved August 9th, 1923, by changing the Zone Map Sheet Z-N10, E-30, so as to change from a B Residence Use District to a C Residence Use District, all that certain property bounded by South Braddock avenue, Rosemary street, Montrose street, South Richland street and the northerly line of plan of Graymore Court, I represent Mr. William H. Frederick, a resident of the 14th Ward of the City of Pittsburgh, and the owner of the following described tract of land situated within the line of the district above described:

All that certain lot or piece of ground situate in the 14th Ward of the City of Pittsburgh, County of Allegheny and State of Pennsylvania, bounded and described as follows, to wit:

Beginning at a point on the northerly side of Kensington street distant north 86° 44' west, 251.30 feet from

Braddock avenue; thence along the northerly side of Kensington avenue north 86° 44' west, 351.64 feet to the center line of Richland avenue; thence along the center line of Richland avenue north 18° 21' east, 125.32 feet to a point; thence by line south 86° 44' east, 319.03 feet to a point; and thence by line south 3° 16' west, 121 feet to Kensington street, at the place of beginning. Together with a ten foot right-of-way extending from the northerly line of the property hereby conveyed to Graymore Road.

Mr. Frederick purchased this property April 1st, 1920, and since that date, and for a long time prior to August 9th, 1923, used and occupied the same in his business as Eddy Press, and otherwise for commercial and light industrial purposes. This use and occupation was fixed long prior to the date of the approval of the Zoning Ordinance, August 9th, 1923, and was continuous for a long time prior to that date, and has been continuous from that date to the present time.

The present buildings so used as above set forth on said property, while they do cover the greater portion thereof, do not cover the same to its full extent. Future development of the business to which the property is now devoted may require extensions of and additions to the present buildings.

Therefore, Mr. Frederick, to protect his property and his right of use and occupation, has filed a protest with your honorable body against the passage of this ordinance insofar as the passage of the ordinance may affect the same, and may embarrass or handicap him in making such extensions and additions.

As a result of statements made at the hearing in committee on this bill, Mr. Frederick feels assured that when occasion or occasions shall arise in the future for such extensions and additions, proper action authorizing the same will be taken by your honorable body. Therefore, relying upon this feeling of assurance, he has instructed me to advise your honorable body that he has withdrawn, and does

hereby withdraw his said protest against the passage of said ordinance, reserving the right, notwithstanding the passage of the same, to apply to your honorable body for proper action to protect his property rights in the premises.

Yours very truly,

Chas. B. Prichard.

DEPARTMENT OF CITY PLANNING

Pittsburgh, Pa.,

April 9, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

I beg to advise that the Planning Commission at its regular meeting to-day carefully considered the ordinance re-fixing the width and position of the roadway and westerly sidewalk of Wood street, from a point 5708 feet north of the northerly line of Water street to Water street and recommend that it be returned to you with the suggestion that the Public Works Department be requested to

study the possibility of relocating the present street car track so as not to make a reduction in the sidewalk as proposed by this ordinance.

Yours very truly,

U. N. ARTHUR,
Chief Engineer

Which was read.

The Chair presented

No. 4709.

PHILADELPHIA COMPANY

April 15, 1929.

In re: Proposed ordinance granting Duquesne Street Railway Company the right to construct double tracks on Sixth avenue, between Diamond and Forbes streets.

Honorable James F. Malone,
President of Council,
City-County Building,
Pittsburgh, Penna.

Dear Sir:

It is our understanding that the above ordinance, when considered in Committee, was returned to Council with an affirmative recommendation, after having been amended to limit the term of the ordinance to fifty years.

The ordinances granting the rights to construct, operate and maintain tracks on Forbes street and Sixth avenue, with which the tracks involved in the present ordinance will connect, do not limit the term. We, therefore, feel that the right to operate the connecting tracks should be on the same basis, and that this ordinance should not contain the fifty year limitation.

We would greatly appreciate Council referring the ordinance to Committee again, to consider the possibility of re-amending the ordinance by eliminating the provision limiting the grant to the term of fifty years.

Very truly yours,

P. H. McCance.

Which was read, received and filed.

Mr. Alderdice moved

To amend the bill, by striking out the Section 5, which was inserted in Committee.

Mr. English stated

That he believed it would be a mistake to take out this Section, as Council had agreed some time ago,

to pass no more unlimited franchise ordinances.

Mr. Alderdice stated

That this was not a new franchise as the Railway Company already had unlimited rights on the street; have had for forty years, and it would not be fair to limit it to 50 years at this time.

And the question recurring on the motion to amend the bill by striking out Section 5, Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Alderdice

Garland

Herron

Little

McArdle

Malone (Pres't.)

Noes—Messrs.

English

Winters

Ayes—6.

Noes—2.

And a majority of the votes being in the affirmative, the motion prevailed.

And the bill, as read a second time and amended, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Alderdice

English

Garland

Herron

Little

McArdle

Winters

Malone (Pres't.)

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 4549. An Ordinance entitled, "An Ordinance authorizing and directing the Mayor and the Director of the Department of Public Works of the City of Pittsburgh to make, execute and deliver in the name of and for the City of Pittsburgh a contract with the United

Traction Company of Pittsburgh and Pittsburgh Railways Companies, as parties of the first part, and the City of Pittsburgh, as party of the second part, providing for the temporary abandonment of the outbound street railway track on Cambronne street and Wynhurst street, as more particularly described in said agreement, and the relocation of the inbound track on the same streets and between the same points, all in the City of Pittsburgh."

Which was read.

Mr. Alderdice moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Alderdice	Little
English	McArdle
Garland	Winters
Herron	Malone (Pres't.)

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Alderdice called up

Bill No. 4546. An Ordinance entitled, "An Ordinance re-fixing the width and position of the roadway and westerly sidewalk of Wood street, from a point 5708 feet north of the northerly line of Water street to Water street."

In Council, this day, Bill read, rule suspended, read a second and third times, and finally passed.

Which was read.

Mr. Alderdice moved

To reconsider the vote by which the bill was read a second and third times and finally passed.

Which motion prevailed.

And the question recurring, "Shall the bill be read a second and third times and finally passed?"

The motion did not prevail.

Mr. Alderdice moved

That the bill be recommitted to the Committee on Public Service and Surveys.

Which motion prevailed.

Mr. Alderdice moved

That Bill No. 4708, being a communication from the City Planning Commission, relative to the above ordinance be referred to the Committee on Public Service and Surveys.

Which motion prevailed.

Mr. Alderdice (for Mr. Anderson) presented

No. 4710. Report of the Committee on Public Safety for April 9th, 1929, transmitting two resolutions to council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 4572. Resolution authorizing the issuing of a warrant in favor of the Animal Rescue League of Pittsburgh, Pa., for the sum of \$998.00, covering work done during the month of March, 1929, and charging the same to Code Account No. 1457, Item B, Miscellaneous Services, Dog Pound, Bureau of Police.

Which was read.

Mr. Alderdice moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

OFFICE OF THE MAYOR

April 21st, 1929.

My Dear Sir:—

Governor Fisher has signed the Metro Bill. The people will be called upon to vote on it on June 25th, 1929. If they approve it, we will assume our proper place as fifth in population. If they fail to approve our status will remain unchanged and no advantage will be gained.

The best way to get the people's approval is to enlighten them. The best way to do this is to make it possible for them to have a copy of the Act on which they must vote so they can study it.

I therefore suggest that your honorable body make a special appropriation and have several thousand of copies of this Act printed for free distribution. If necessary, this could be done by the police, leaving one in each house. No time should be lost.

Sincerely yours,

Charles H. Kline,
Mayor.

DEPARTMENT OF PUBLIC WORKS

April 20, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

Excavating contractors are desirous of dumping their spoil from excavating jobs on Saline avenue and some of them will be obliged to work day and night on such excavations. Inasmuch as we are now prepared to meet the requirements of these contractors in the matter of dumpage by reason of having purchased a bull

dozer recently, which is doing splendid work on that improvement, it will be necessary to have an additional operator for night work; one having knowledge of the requirements and familiar with the work such as this bull dozer is expected to do.

Consequently I should like to have authority from Council to appoint a night man just when the conditions warrant and when we have sufficient spoil in view to justify the operation of this bull dozer at night time. I believe that should this policy be carried out, it will be a great incentive to the contractors who are obliged to haul at night to give us the fill which we need so much on Saline avenue.

Awaiting your pleasure, I am

Yours very truly,

Edward G. Lang,

Gentlemen:—

About a year ago the Superintendent of the Bureau of Bridges and Structures and the Superintendent of the Division of Painting, after giving the subject of the removal of the painting activities from the Exposition Building to the building owned by the City on Second avenue, under the bridge, thought at the time it would result in greater efficiency and economy in the operation of the Division of Painting, and inasmuch as there has been some conflict in the Exposition Building by reason of the loss of materials and supplies, which condition has now been met in some measure by the appointing of watchmen to properly protect the property of the City, we think it advisable that the Division of Painting shall maintain its operations in the Exposition Building as heretofore under the special protection given by the new order of things and have advised

the Bureau of City Property to endeavor to rent the building on Second avenue, so that some return may be had from the City on this property. It has been repaired and safeguarded against the elements and now is in condition to be habitable and usable by some small industry and we are hopeful that this building may be rented and the City receive such benefit from rentals as the use of said building will justify.

To the President and Members,
City Council.
Pittsburgh, Pa.

Gentlemen:—

SUBJECT—Lighting for Downtown

Traffic Signal System.

There seems to be a difference of opinion as to certain expenses connected with the lighting system for the Downtown Traffic Signal System.

The Legal Department for the City and that of the Duquesne Light Company are at variance in this matter. The Duquesne Light Company through its representative Mr. F. R. Phillips, Vice-President and General Manager, desires a meeting with City Council, the City Solicitor and myself, representing the City and proper representatives from the Duquesne Light Company as can be seen by copy of letter hereto attached from Mr. Phillips.

As it is important that an early conclusion be reached on this subject I would respectfully request that City Council arrange a date for a proper meeting and advise me accordingly.

Yours very truly,

Director.

DUQUESNE LIGHT COMPANY

Pittsburgh, Pa.

March 26, 1929.

Mr. Jas. M. Clark,

Director of Public Safety,
City of Pittsburgh.

Dear Sir:—

A few days ago I discussed with you our inability to obtain a service contract on the downtown traffic signal system, which is now being installed and our share of it about completed, and stated at that time that I was quite anxious for consummation of this service contract.

Our Legal Department has talked with Mr. Waldschmidt several times, especially in connection with the objection by Mr. Waldschmidt of the 15 cents per duct foot rental contained in this proposed contract. Several weeks ago it was decided between counsel that a meeting would be arranged with the executive committee of City Council. After my conversation with you, our Legal Department again talked with Mr. Waldschmidt and it was understood that Mr. Waldschmidt would ask you to arrange for a meeting with the executive committee.

Due to the fact that the Duquesne Light Co. part of the installation of the traffic signal system is about completed, we are anxious to have the service contract executed and would, therefore, like to meet with the executive committee of council to explain our position in connection with the duct rental. This matter should be settled immediately so that no delay will result in furnishing service to the traffic signal system due to the lack of the contract.

As you probably know, this service contract after execution by the City and ourselves must be submitted to the Public Service Commission for approval, which usually requires some little time and we feel quite sure that neither you nor we wish to find ourselves in the position of not being able to supply service to a signal system, fully completed, due to the lack of a properly executed approved contract.

As soon as you have arranged a meeting with the executive committee of council, I will be very glad to go before that body personally to try to settle any and all details.

Very truly yours,

F. R. Phillips,

Vice-President and General Manager.

UNFINISHED BUSINESS

The Chair took up

Bill No. 4415. An Ordinance entitled, "An Ordinance authorizing the exchange of certain land owned by the City of Pittsburgh and situate in the Twelfth Ward, City of Pittsburgh, for certain land owned by John E. Born, situate in the Fourteenth Ward of the City of Pittsburgh."

In Council, April 15, 1929, Bill read and laid over pending report of the Department of Public Health.

And the bill was read a second time.

The Chair presented
No. 4788.

PUBLIC HEALTH

April 17th, 1929.

Mr. Robert Garland, Chairman.

Committee on Finance,
Council of City of Pittsburgh, Pa.

Dear Sir:—

At the meeting of the Finance Committee, held April 9th, 1929, Bill No. 4415 was referred to me for opinion—this Bill authorizing the exchange of part of the Leech Farm Land in the Twelfth Ward, City, for certain other land.

After careful investigation of the land, I can find no present or future need of development of the Tuberculosis Hospital at Leech Farm which would require the use of this land involved.

I wish to call your attention to the paragraph in this ordinance which reads as follows:—

"Together with the right of ingress and egress over the improved roadway leading from Washington Boulevard to the Tuberculosis Hospital, or such other equivalent roadway as may be substituted in lieu of the present roadway, between Washington Boulevard and a point approximately 200 feet west of the hospital buildings with the right to construct a roadway across other property of the City of Pittsburgh from said improved roadway to a point on the property of the said John E. Born: the said new roadway shall be at least 75 feet from the present hospital buildings."

I cannot consent to permit any other use of this roadway than that for which it was built. It is a private roadway leading from Washington Boulevard up to the Tuberculosis Hospital and is in constant use for hospital purposes. It must be kept absolutely free for these purposes, which include emergency ambulance service and day and night use of this road by employees of the hospital and families of the patients in the institution. There can be no circumstance, therefore, which would justify

my permitting the use of this road as an avenue of ingress and egress to the property of Mr. John E. Born.

Contingent upon the striking out of the afore mentioned paragraph in the ordinance, and contingent upon Mr. Born granting a perpetual waiver of his rights or his successors' rights to the right-of-way crossing the other property of the City of Pittsburgh, as reserved in a deed from the National Transit Company to John E. Born dated November 15th, 1928, and recorded in the Recorder's Office of Allegheny County, Pennsylvania, in Deed Book Volume 2369, Page 245, I, as Director of the Department of Public Health, do approve the transfer of the above mentioned land desired by Mr. John E. Born.

Very truly yours,
Chas. B. Maits,
Director.

Which was read, received and filed.

DEPARTMENT OF LAW
April 15, 1929.

Council of the City of Pittsburgh.

Gentlemen:—

In reference to Bill No. 4415, an Ordinance authorizing the exchange of certain land owned by the City of Pittsburgh and situate in the Twelfth Ward, City of Pittsburgh, for certain land owned by John E. Born, situate in the Fourteenth Ward of the City of Pittsburgh, which was referred to this Department for a report as to whether this meets with our approval the Bill having received an affirmative recommendation contingent upon our approval and that of the Director of Public Health, would say:

That the property to be transferred to John E. Born was obtained by the City of Pittsburgh from the Pennsylvania Railroad Company pursuant to Ordinance No. 348, approved January 30, 1903, and recorded in Ordinance Book Volume 15, Page 102, wherein said property adjoining Leech Farm was conveyed to the City of Pittsburgh for the grant by the City of Pittsburgh of a strip Sixty-six (66) feet wide through and adjoining Highland Park. The Pennsylvania Railroad Company is the holding com-

pany of the Manor Real Estate Company, which conveyed the property to the City of Pittsburgh by deed, a part of which property is now desired by John E. Born.

The property which John E. Born now wishes to convey to the City is the hillside from Saline street and would attach to Schenley Park.

Mr. Arthur of the Planning Commission informs this Department that the value of the property is about equal and if anything, the City has a more beneficial interest in having the part attached to Schenley Park.

Of course, this is a matter for Council, and if in its judgment it deems the exchange beneficial to the City, it has the authority to make such exchange.

Respectfully yours,
Chas. A. Waldschmidt,
City Solicitor.

Which was read, received and filed.

Mr. Herron moved

To amend the bill by striking out, in Section 1, the following:

"Together with the right of ingress and egress over the improved roadway leading from Washington Boulevard to the Tuberculosis Hospital, or such other equivalent roadway as may be substituted in lieu of the present roadway, between Washington Boulevard and a point approximately 200 feet west of the hospital buildings with the right to construct a roadway across other property of the City of Pittsburgh from said improved roadway to a point on the property of the said John E. Born; the said new roadway shall be at least 75 feet from the present hospital buildings.

"The said deed shall contain a clause to the effect that the acceptance by the grantee of this deed shall be considered a perpetual waiver of any right of the said grantee, or his successors in title, to the use of another right-of-way crossing other property of the City of Pittsburgh, as reserved in a deed from the National Transit Company to John E. Born, dated November 15, 1928, and recorded in the Recorder's Office of Allegheny County, Pennsylvania, in Deed Book, Volume 2369, Page 245, and in a prior deed from the Ameri-

can Transfer Company to the National Transit Company, by deed dated November 12, 1881, and recorded in the Recorder's Office aforesaid in Deed Book, Volume 484, Page 313: the said right-of-way hereby conveyed being in substitution and place of the right-of-way mentioned in said deeds."

Mr. Garland also presented

April 19th, 1929.

To the President and Members,

City Council,

Pittsburgh, Pa.

Gentlemen:—

SUBJECT—Bill No. 4568, Series 1929.

Yours of the 17th instant received asking for a report as to what Code Account from which the sum of \$8,000.00 shall be transferred to Code Account No. 1452, Item F, Equipment and Machinery, Bureau of Police.

While it is too early in the year to anticipate that Code Account No. 1443, Item A-1, Salaries Regular Employees of the Bureau of Police, will permit of transferring any money therefrom for the payment of any other accounts, I believe that the request of the Division of Detectives for modern furniture and equipment for filing of records should be granted. As there is no other Code Account in my Department from which any transfers can be made on account of insufficiency of appropriations, I presume the only solution for the problem is to make the transfer from

said Code Account, Salaries Regular Employees of the Bureau of Police.

Yours very truly,

James M. Clark,

Director.

Pipe Sewer on the southeast sidewalk of Chellis street, from a point about 120 feet northeast of California avenue to the existing sewer on the southeast sidewalk of Chellis street."

Which was read.

Mr. Winters moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. McArdle raised the question that the ordinance contained no provision to protect the City from liability for damages to abutting properties, such as damages to sidewalks, etc.

Mr. Little stated

That Mr. Long was present and was ready to file a bond for \$1,000.00 to protect the City or abutting property owners on account of

the work done by authority of the ordinance.

The **Chair** asked Mr. Little to arrange with Mr. Long, the Law Department and the Department of Public Works to prepare an agreement to indemnify the City from any damages on account of the construction of the sewer.

Mr. Little stated

That this would be attended to at once.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

No. 4795.

April 22nd, 1929.

To the President and Members,

City Council.

Pittsburgh, Pa.

Gentlemen:—

SUBJECT—Bill No. 4694, Series 1929, of City Council.

Yours of the 17th instant received.

This is an ordinance amending Paragraph IV. (D) of Section 5 of the ordinance of October 26, 1923, and

has special reference to certain conditions surrounding the protection of the public where escalators are used in buildings.

Attached you will please find reports from both Messrs. H. L. Ley, Superintendent of the Bureau of Building Inspection and Richard L. Smith, Chief of the Bureau of Fire, with reference to the ordinance.

The Superintendent of the Bureau of Building Inspection favors the passage of the ordinance while the Chief of the Bureau of Fire is unfavorable to its passage with the thought in mind that the adoption of this ordinance and the use of the sprinkler system permitted therein will be a detriment to the firemen in cases of large fires.

Personally I would suggest that City Council hold a special hearing in the case, when additional facts may be brought out and a definite conclusion can be better reached.

Yours very truly,

James M. Clark,
Director.

CITY OF PITTSBURGH
Pennsylvania

April 19th, 1929.

Department of Public Safety
Bureau of Building Inspection
Office of the Superintendent

James M. Clark, Esq.,

Director, Department of Public Safety.

Dear Sir:—

SUBJECT: Bill No. 4696, Series 1929
of City Council.

Receipt is acknowledged of your letter of the 17th instant, to which is attached copy of Bill No. 4694, the same being an Ordinance amending Paragraph IV (d) of Section 5 of an ordinance entitled, "An Ordinance regulating the construction, alteration, additions to, arrangement, equipment and the use and occupancy of all buildings or portions of buildings such as are designed or used for the sale or exchange of merchandise, which shall hereafter be known as buildings of Classification No. V, Division A; regulating the installation therein of heating systems; requiring the installation therein of fire extin-

guishing equipment; providing for the issuance of construction and occupancy permits therefor, and providing penalties for violation of the provisions hereof," approved October 26, 1923. The Bureau of Building Inspection recommends the passage of this bill.

This Bureau has been reliably informed that automatic sprinkler curtains are used in connection with the installation of escalators in buildings of incombustible and fire-resistive construction in the cities of Chicago, Scranton, San Francisco, Los Angeles, Toronto, New York and Philadelphia.

Yours very truly,

H. L. Ley,
Superintendent.

April, 20th, 1929.

James M. Clark, Director,

Department Public Safety,
Pittsburgh, Penna.

Dear Sir:—

SUBJECT:—Bill No. 4694—Series 1929,
being a section of the City Ordinance regulating the construction, etc. of buildings and the amendment thereto:

I desire to report to you that I am not in favor of the amendment to this ordinance for the following reasons:

As the present ordinance now stands, I maintain that it is right and as it should be, both for the protection of the owner and tenant and particularly for the thousands of people who occupy and do business in buildings in which escalators are required.

Irrespective of buildings being of incombustible and proper fire-resistive construction, if you fill said buildings with flammable and combustible merchandise and material, you create a hazardous condition in case of fire and methods then should be taken to confine the fire to a certain restricted area.

In buildings of great area filled with stock and merchandise or other material, where escalators are used, then our ordinance as it now stands is a necessity and provision must be made, as it is made in this ordinance, by having the upper landings of said

escalators enclosed in metal frame and sash glazed with wire glass.

It is my opinion that this amendment is wrong because I do not think, in fact I might say I am sure, that the automatic sprinkler curtain will not answer the purpose by confining the fire within bounds or to the floor on which it originated and I would respectfully request that the ordinance be not amended as proposed.

Yours very truly,

Richard L. Smith,
Chief, Bureau of Fire.

Which was read, received and filed. And the bill, as read a second time, was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.
Alderdice McArdle
Garland Winters
Herron Malone (Pres't.)
Little

Ayes—7.
Noes—None.
And a majority of the votes of Council being in the affirmative, the bill passed finally.

Mr. Alderdice for Mr. English) presented

No. 4796. Report of the Committee on Health and Sanitation for April 16, 1929, transmitting a resolution to council.

Which was read, received and filed. Also, with an affirmative recommendation.

Bill No. 4637. Resolution authorizing the issuing of a warrant in favor of Carl O. Hornberger in the sum of \$94.50, for services rendered as Sanitary Officer of Hays Borough during the month of March, 1929, the same to be charged to Code Account 1270, Bureau of Sanitation, Department of Public Health.

Which was read.

Mr. Alderdice moved
A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage, the ayes and noes were taken, and being taken were:

Ayes—Messrs.
Alderdice McArdle
Garland Winters
Herron Malone (Pres't.)
Little

Ayes—7.

Noes—None.

And there being two-thirds of the votes of council in the affirmative, the resolution passed finally.

MOTIONS AND RESOLUTIONS.

Mr. Herron presented

No. 4797. WHEREAS, It has come to the notice of members of Council that the Bureau of Bridges and Structures, Division of Bridge Repairing by City Force, is engaged in extensive repairs to the building on Second avenue under the Boulevard of the Allies, with the purpose of occupying it by the painting activities and

WHEREAS, This activity is now housed in the Exposition Building in quarters prepared with appropriations made by Council; and

WHEREAS, Council has recently added to the expense of operating the Exposition Building by the addition of additional police protection and is desirous of having the Exposition property occupied to its fullest capacity; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be instructed to discontinue any move in the direction of removing the painting headquarters from the Exposition Building and to refrain from removing any activity of his department from said building without first securing the approval of Council; and be it further

RESOLVED, That the Director of the Department of Public Works be requested to furnish to Council an itemized statement showing the cost of the improvement as carried on in the Second avenue property, the division of the cost as to labor and material, and the appropriations

against which costs were charged, together with information as to whether such charges are in accordance with the appropriation bill and the accounting system governing said expenditures.

Which was read.

Mr. Herron moved

The adoption of the resolution.

Mr. Herron said:

Mr. President, the reason that I introduce this resolution at this time is, that the sub-committee appointed by you to look after the affairs at the Exposition Building and several other departments, on the recommendation of the Superintendent and at the request of the Mayor, in order to stop the stealing of materials, etc., recommended and Council approved the appointment of three watchmen for the Exposition Building. These employes are to keep a record of all material going in and out of this building and to keep a check on all persons going in and out of this building.

Without any attempt on our part to change the conditions after the ordinance was passed, the Bureau of Bridges and Structures started to remodel another building for its activities and are going to move into that building and set up a separate unit.

The City has expended thousands of dollars in fixing up the Exposition Building for the activities of this bureau, as well as other city activities, and for this bureau to set up a separate unit is wrong, and in order to prevent such a move, I have introduced the resolution.

Mr. McArdle arose and said:

Mr. President, I want to say that if this move as contemplated is allowed to pass unnoticed, or given tentative approbation, without any protest being made against it, it means that as fast as another piece of property looks more attractive to the particular activity occupying a portion of the Exposition Building they are going to feel free to go to the expense necessary to equip the other property, and move out in face of the facts as Mr. Herron related. I think it is very presumptuous for anybody

to attempt the move that this is intended to cure.

And the question recurring on the adoption of the resolution.

The motion prevailed.

Mr. Alderdice presented
No. 4738.

DEPARTMENT OF CITY TRANSIT

April 17, 1929.

To the Honorable Council

of the City of Pittsburgh.

Gentlemen:

Illness which has confined me to my home has delayed my writing you on what I believe to be a matter of great importance. As Chairman of the City Transit Commission, I had intended pointing out to you the error in judgment committed in the appointing of the Directing Engineer of the Commission as a member of and an advisory to a special committee to which has been assigned the development of a new subway; this to be followed by a request that this appointment be recalled.

I see in this morning's paper that this new subway is pretty well developed and that it is intended to submit the matter to the City Transit Commission.

In the light of the present situation I submit to you that, if our Commission is to give consideration to this or any other suggestions for subways, in order that these suggestions be met with open minds and searching inquiry, that no member of this Commission or its engineers should be a party to the preliminary suggestions or plans. The Commission should not either directly or indirectly share its responsibilities with others. Such a method of procedure will undoubtedly give the best attention to those problems upon which our Commission may become engaged.

Respectfully yours,

Geo. S. Davison,

Chairman

City Transit Commission

Which was read, received and filed and on motion of Mr. McArdle, ex-member to be furnished with a copy.

Mr. Little moved

That the Minutes of Council at a meeting held on Monday, April

8th, 1929, as corrected, and of Monday, April 15th, 1929, be approved.

Which motion prevailed.

Mr. Herron arose and said:

Mr. President, I would like to call your attention to the fact that the City of Pittsburgh at the present time is causing some repairs to be made at Forbes street in the vicinity of the Homewood Cemetery. When I voted for that I thought we were going to create a safety island. My own idea is that the island should be 80 feet instead of 300 feet as now proposed.

I went out there Saturday, Sunday and today, and I found a tremendous amount of traffic tied up at Dallas avenue, because all traffic coming in the boulevard that wants to make a left turn at Forbes street must go to Dallas avenue and make another turn

to go to Wilkinsburg. Forbes street is an 80 foot street and to get onto it you must go over a 50 foot street.

I asked Mr. Marsh, our traffic engineer, if he knew about it and he said he would make an investigation and take a traffic count.

Mr. Marsh, the Traffic Engineer, was sent for, and having appeared before Council, explained what was being done.

The Chair stated

That he was satisfied that Council would abide by what Mr. Herron, Mr. Alderdice and Mr. Marsh would recommend, and asked that they act as a committee and visit the work immediately after the meeting.

And there being no further business before the meeting, the Chair declared

Council adjourned.

DEPARTMENT OF PUBLIC WORKS

April 23, 1929.

SUBJECT: SHADELAND AVENUE
BRIDGE.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

Your attention is called to the condition of the Shadeland Avenue Bridge, which structure is badly in need of repairs and concerning which many complaints are received by the Department. The necessary repairs to this structure can be divided into five general headings hereinafter listed with the cost of each. The entire deck of the bridge, both sidewalks and roadway are in bad condition, particularly the sidewalks. This permits the rainfall to lay in large pools, eventually seeping through on to the steel underneath, and causing its

disintegration. It is with the condition of the sidewalk that the majority of the complaints are received. Both the sidewalks and the paving base and the surfacing should be renewed. At the same time structural repairs should be made to the steelwork underneath. These repairs can be made to a greater advantage while the deck is torn up.

There are four railings on this bridge, one on either side and the railing along the curb line separating the roadway from the sidewalk. Both of these railings are in bad condition, particularly the railings on the outside of the bridge. While the repairs to the outside railing and the renewal of the curb railing can be made to a greater advantage while the sidewalk is torn up, yet they can be done at a later date at some increased cost.

The estimate of the cost of the work is therefore divided into two classes, the first of which should be done immediately and the second, while necessary and advantageous, at the present time, could be nevertheless postponed until next year.

1. Renewal of all sidewalks	\$ 3,600.00
2. Renewal of paving base and surfacing	10,210.00
3. Miscellaneous Structural Repairs, including towers, main girder bearings and expansions	8,700.00
Total	\$22,510.00
4. Repairs to outside main railing	\$ 3,800.00
5. Renewal of curb railing	4,650.00
Total	\$ 8,450.00

GRAND TOTAL \$30,960.00

There are no funds in the Department which can be used for this purpose, and I am therefore requesting that Council provide the necessary money to meet this condition. The bridge itself cannot be said to be in a dangerous condition at this time. It is, however, disintegrating rapidly and we are now about to enter upon a period of extensive and expensive

repairs to this structure, which period always precedes the replacement of old bridges.

Yours very truly,

Edward G. Lang,
Director.

DEPARTMENT OF PUBLIC WORKS

April 22nd, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

About a year ago a committee of Council together with representatives of the Department of Public Works visited Gershon street north of Sunset avenue to view the general vicinity for the purpose of determining the best street connections with the easterly end of the proposed Charles Street Bridge over East street, and at the same time viewed Gershon street about 300 feet north of Sunset avenue where the property of Mary Winhart was being affected by the slide. It was the thought of the Department at that time that the construction of a wall was the only method for holding Gershon street at this location, but as the thoroughfare was unimproved, no action was taken on the construction of the said wall.

The slide at this location finally affected the building on the property of Mrs. Mary Winhart and we have been informed by the property owner that she expended the sum of \$2,300.00 on rebuilding the foundations of the house and repairing all damage occasioned by said slide. Since that time, the contract has been awarded to Booth & Flinn, Ltd. for the foundation work for the Bridge over East street and this firm has hauled equipment and material in from Sunset avenue over Gershon street and hauled material along Gershon street from the job. During wet weather Booth & Flinn filled in ruts in the roadway with stone in order to make same passable, and about two weeks ago the Bureau of Water relaid a water line along this portion of Gershon street, and undoubtedly refilled the trench in a proper manner, but after the trench was refilled, rain water

came from the hillside on the east of the street and on the surface of the street, and together with the trucking along the street, apparently caused the portion of the street west of the ditch to settle and sink, with the result that the westerly half of the street has settled some 4 or 5 feet and the dirt has moved down on to the adjoining property and caused the frame building below same to move off the foundation. The house is now set up on blocks and jacks, is in a very dangerous condition. There has been no break in the water line and to avoid such a possibility, the Water Department is now constructing a new main from East street up the hill to Gershon street and is cutting off the old main at both sides of the slide.

In order to construct a proper thoroughfare leading to the east end of the bridge over East street, it will be necessary to use Gershon street and it is advisable that same be widened 10 feet on either side, but the street will actually not be required until the bridge is completed, which will be approximately one year from date.

In the meantime, all access except via Geyer Road, extending from Royal street, near East street, to the top of the hill, is cut off for the contractor to get to the easterly side of the bridge work, as Gershon street is now abandoned account the settlement of same.

It is our opinion that the proper method to take care of the conditions existing on Gershon street would be to widen the street, establish the grade, enact a grading, paving and curbing ordinance for the improvement of the street, which improvement could include the necessary wall to support the street where the slide has occurred, but the enactment of this legislation will take considerable time, and we are accordingly calling your attention to the urgent necessity for permitting the Department to at once drill test holes and present legislation for the construction of a retaining wall to avoid future damage, not only to the Gershon street roadway, but to the abutting property on

the westerly or low side of the street.

It is suggested that Council visit this portion of Gershon street and view the existing conditions as there is no doubt that the building of Mrs. Mary Winghart is practically a total wreck, and she has just recently called upon this Department to obtain some relief.

It is the opinion of this Department that no matter what is done on Gershon street in the way of improvement, a wall is absolutely required with as little delay as possible.

There is available at the present time the sum of \$750.00 for test pits, which amount, we believe, will be sufficient to obtain the necessary data for the design of the wall.

Yours truly,
Edward G. Lang,
Director.

DEPARTMENT OF PUBLIC SAFETY
April 29, 1929.

To the President and Members,

City Council.

Gentlemen:—

In connection with the contract for furnishing and installing a new heating boiler and repairing of the heating system in No. 10 Police Station, Bureau of Police, Hazelwood avenue and Lytle street, I am advised by Mr. Richard Neff, City Architect, that it is essential that the steam supply and return lines in the Basement, and four steam risers in the Patrol Garage on the first floor, be covered with four-ply air cell pipe covering and banded, fittings with asbestos cement and canvassed, in order to prevent too much condensation in the pipes, and the loss of heat in the Patrol Garage. This work was not included in the original contract and will, therefore, have to be treated as an extra.

The contractor, Weldon & Kelly Company, has submitted a proposal in the sum of \$210.00 to perform this extra work, which we believe to be very reasonable.

There is sufficient balance in the amount set aside for said contract to permit of this extra work and we hereby request your honorable body to authorize the same.

Yours very truly,
James M. Clark,
Director.

DEPARTMENT OF PUBLIC SAFETY
April 23, 1929.

To the President and Members of
City Council.

Gentlemen:—

Because of the congestion which parking in the narrow stretch of Car-

son street between South 10th Street and South 17th Street causes, as well as the accident hazard which such parking brings about, I have decided to institute a 60-day trial of "no parking 8:00 A. M. to 6:00 P. M." on both sides of Carson street, between South 10th Street and South 17th Street; effective, Saturday, April 27th, 1929.

In conference with the Pittsburgh Railways Company, it has been agreed that if this regulation be instituted, the 53 car will again be routed along this stretch.

Very truly yours,
James M. Clark,
Director.

No. 4861. WHEREAS, The city stables on Swope street are located not only in the central part of the East Liberty business section, but are surrounded entirely by residences; and,

WHEREAS, The buildings at this plant are very much dilapidated and are deteriorating rapidly, creating an extremely unsanitary condition, due to the fact that there are approximately forty (40) horses still stabled at this location; and,

WHEREAS, The unpleasant situation caused by these stables is daily becoming worse, causing much discomfort and inconvenience to the business and residential people of the neighborhood; and,

WHEREAS, The streets in the East Liberty section are practically all paved, as well as some in the Brush-ton, Homewood and Lincoln avenue districts, and it might be possible to eliminate the need for a great number of these horse-drawn vehicles and to substitute in lieu thereof motorized equipment, which would create a better condition in any location where the vehicles might be stored; and,

WHEREAS, If the greater part of the equipment stored at these stables were motorized, a headquarters and garage could probably be found in a location other than on Swope street; Therefore, be it

RESOLVED, That the Director of the Department of Public Works be requested to have a survey made of the East Liberty section, with the thought in mind of moving the headquarters from their present location on Swope street to some other location more suitable to the business people and residents; and, be it further

RESOLVED, That the Director of Public Works include in his report on this survey the idea of motorizing the equipment in this district, as well as all of the other districts of the Bureau of Highways and Sewers, so that the horse-drawn vehicles attached to that bureau may be reduced to an absolute minimum.

To the President and Members of City Council.

Gentlemen:—

Supplementing my letter to you of April 23rd, relative to the 60-day trial of "No Parking 8:00 A. M. to 6:00 P. M." on Carson street, between South 10th and South 17th Streets, I desire to make this a 60-day trial of "No Parking at any time" on this section of Carson street instead of the "No Parking 8:00 A. M. to 6:00 P. M." originally requested.

Therefore, effective April 30th, a 60-day trial of "No Parking At Any Time" on both sides of Carson street, between South 10th and South 17th Streets will become effective.

No. 4868.

April 29th, 1929.

To the President, and Members of Council, City of Pittsburgh.

Gentlemen:—

I wish to congratulate you on coming to the conclusion that some definite and serious action should be taken in the matter of Fire Prevention.

It is hardly necessary to recall that I have persistently urged action for two or three years, going so far as to have an ordinance introduced to create a Fire Prevention Bureau, but

with no favorable action thereon. It has, in fact, been what you might call a pet administration measure for some time.

However, I am not concerned as to who gets the credit for consummating it. What I am concerned about is getting results for our people in the form of saving life and property and probably reduced insurance rates for our taxpayers, and I am concerned about getting those results speedily.

I therefore urge immediate action and have instructed Director Clark, and Chief Smith to co-operate with you in working out the matter to a successful conclusion.

Sincerely yours,
Charles H. Kline,
Mayor.

Which was read, received and filed.

Mr. English presented

No. 4869. Petition for the placing of cinders on Sacramento street.

Which was read, and referred to the Committee on Public Works.

REPORTS OF COMMITTEES.

Mr. Garland presented

No. 4870. Report of the Committee on Finance for April 23, 1929, transmitting two ordinances and sundry resolutions to council.

Which was read, received and filed.

Also, with an affirmative recommendation.

Bill No. 4739. An Ordinance entitled, "An Ordinance authorizing the proper officers of the City of Pittsburgh to enter into and execute an agreement with John A. Kapp, Jr. and Gertrude M. Kapp, his wife, and Harry E. Kapp and Clara C. Kapp, his wife, whereby the aforesaid named parties shall give license, privilege and right of way to lay and maintain a city water main extending through their land on Lingrove Place in the Lingrove Park Plan of Lots in the Fourteenth Ward of the City of Pittsburgh."

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Alderdice	Herron
Anderson	Little
English	Winters
Garland	Malone (Pres't.)

Ayes—8.

Noes—None.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 4405. An Ordinance entitled, "An Ordinance creating certain additional positions and certain new positions by amending Section 101, Ordinance No. 473, Department of Public Works, Bureau of Tests, approved July 16, 1926, and subsequent amendments thereto, entitled, 'An Ordinance fixing the number of officers and employees of all departments of the City of Pittsburgh and the rate of compensation thereof'."

In Finance Committee, April 23, 1929, Bill read and amended by striking out and by inserting as shown in red, and as amended ordered returned to council with an affirmative recommendation.

Which was read.

Mr. Garland moved

That the amendment of the Finance Committee be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by council, was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

Resolution authorizing the issuing of a warrant in favor of John Latsko, in the sum of \$10.00, for the purpose of refunding to him the amount of a fine imposed in the Magistrate's Court at No. 7 Police Station on March 7, 1929 (after his unwarranted arrest and conviction on a disorderly conduct charge, and charging same to Appropriation No. 42, Contingent Fund.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second time.

Mr. Winters stated

That Council should not be put in the position of passing judgment on the magistrate's court by passing the resolution, which says "after his unwarranted arrest and conviction on a disorderly conduct charge, without a hearing to establish the facts." If the arrest and conviction were unwarranted, the procedure would be to take the case to the County Court as the law provides for appeals of this character. Council is not vested with any power to review and reverse a decision of this kind and as the resolution stands he purposed voting against it.

Mr. Garland moved

To amend the resolution by striking out the words "after his unwarranted arrest and conviction on a disorderly conduct charge."

Mr. Anderson stated

That if the police were making unwarranted arrests and the magistrates unwarranted convictions, Council should know something about it.

Mr. Alderdice moved

That the resolution be recommended to the Committee on Finance. Which motion prevailed.

Also

Resolution authorizing the issuing of a warrant in favor of Rose Bass in the sum of \$1,393.70, being hospital expenses, nurse and cost of blood transfusions incurred by John Bass, an employe of the Bureau of Bridges and Structures, and husband of Rose Bass, who was injured in the course of his duty, said payment to be in addition to any money to be paid to said Rose Bass under the provisions of the Workmen's Compensation Law, and in lieu of the allowance for surgical expenses.

Which was read.

Mr. Garland moved

A suspension of the rule to allow the second and third readings and final passage of the resolution.

Which motion prevailed.

And the rule having been suspended, the resolution was read a second and third times, and upon final passage the ayes and noes were taken, and being taken were:

Ayes—Messrs.

Alderdice	Herron
Anderson	Little
English	Winters
Garland	Malone (Pres't.)

Ayes—S.

Noes—None.

And there being two-thirds of the votes of council in the affirmative, the resolution passed finally.

Also

To the President,
And Members of Council,
City of Pittsburgh.
Gentlemen:—

I respectfully call your attention to the fact that the citizens of the recently annexed territory of Hays Borough and Lincoln Place, now the Thirty-first Ward of the City of Pittsburgh, have been denied adequate police and fire protection.

The expense of supplying extra policemen and firemen and some equipment is small, and the whole thing

may appear as a small matter, but behind it looms a big principle.

When Pittsburgh accepts new territory, even though the action is voluntary on the part of the people coming in there is an implied promise on the part of our City to provide for that new territory and the people therein, the same service as exists in the old.

The child should not be adopted if we are not prepared to properly rear and safeguard it.

If the City is not prepared to properly serve new territory, then, before annexation is affected, we should manfully state: "We can't do for you what you think we can." Unless we are fully prepared to give them the things they think they are going to get, there should be no annexation.

Acquiring more territory just for the sake of gaining greater valuation, which increases our bonding power and permits us to boast of a larger population lacks in sincerity and places us in the light of dealing selfishly with our neighbors.

These new people who have just come in are, in reality, the infants of our family and they should be made to feel that their hope and confidence in the new parentage has not been misplaced.

I sincerely trust that this matter will receive reconsideration at your hands.

Sincerely yours,
Charles H. Kline,
Mayor.

Gentlemen:—

In accordance with motion adopted by the Committee of Hearings at meeting held February 7th, 1929, in re widening of Carson street West, from Smithfield Street Bridge to Chartiers Creek, which motion, in brief, is as follows—"That the Department of Public Works and the City Solicitor negotiate with all parties interested in said widening and present the necessary agreement legislation, including appraisals of private property damages involved in the proposed improvement, we report as follows:

We have held several meetings with individual interests involved in this proposed widening—particularly the Pennsylvania Railroad Company, the P. & L. E. Railroad Company, The West Side Belt Railroad Company and the Carnegie Steel Company, and at a general meeting held this A. M. at which all parties interested were present, including members of the City Planning Commission, it was apparent that the present proposed plans, especially in the vicinity of Smithfield street, were not satisfactory, particularly to the Pennsylvania Railroad Company, and an alternate plan was discussed, and it was generally agreed by all parties present that an alternate plan should be developed as quickly as possible, and another conference held, upon completion of plan, to see if the matter could be determined in a manner satisfactory to all interested.

We will report to your Committee immediately following the next conference on this matter.

Yours truly,

Committee on Public Works,
Council,
City of Pittsburgh.

Gentlemen:—

In accordance with motion adopted by Committee on Public Works at meeting of March 28th, that the Department use the necessary amount of discretion, watch the work carefully and have the terms of the contract lived up to, and that if in their judgment relief is necessary, to come back as soon as that time arrives and lay the facts before Council, all of which relates to the Irvine Street Improvement, we submit the following:

Shortly after March 28th, or as soon as weather conditions permitted, we ordered the contractor for the Irvine Street Improvement to haul the dirt to the contractor's own dump, in accordance with the terms of Item 3 of the contract—that is, \$1.50 per cubic yard. It is still impractical to haul up Saline street as the contract requires and in accordance with same, approximately 3000 yards of material is to be hauled by the contractor to Saline street, which work will be done when weather conditions leave the roadway passable. The remaining material to be removed can be hauled up Greenfield avenue and dumped at the upper end of Saline street where the City has provided a plank roadway and a bulldozer.

It is our opinion, since the City has provided these facilities, that the cost of hauling of material from Irvine street up Greenfield avenue to Saline street will be reduced from approximately \$2.00 per cubic yard to approximately \$1.10 per cubic yard.

Unless advised to the contrary by your Committee, we will order the contractor to haul up Greenfield ave-

nue to the upper end of Saline street at cost plus 15 percent, as provided by the contract, and in this manner make a saving of approximately three or four thousand dollars on the contract.

Yours truly,
Edward G. Lang,
Director.

SUBJECT: CONCRETE STEPS,

ROBT. MCAFEE BRIDGE.

President and Members of Council,
City of Pittsburgh.
Gentlemen:—

Under date of December 13, 1927, communication was addressed to Council by the Twenty-seventh Ward Board of Trade through Michael Mosurak their Chairman of Municipal Affairs Committee requesting the construction of concrete steps from Eckert Street to the Robert McAfee Bridge. This communication was later referred to this Department for a report, which is given herewith.

The Department has investigated conditions and pedestrian traffic at the site of the proposed steps and find that the pedestrian traffic is heavy at this place and includes a great many women and school children. At present, a cinder path is followed for a portion of the way. Some wooden steps have been erected and for a part of the distance, steps have been cut into the bank. This means of communication between Woods Run and California avenue is very unsatisfactory, particularly in wet weather, and the Department recommends the construction of these steps.

The accompanying blueprint gives the approximate location of the concrete steps and wall, which leads from Forsythe street at the south end to Eckert street at the north end and provides communication with Knapp street. Mr. Mosurak was consulted and the proposed location is satisfactory to him as representing the Twenty-seventh Ward Board of Trade.

The Department estimates the cost of the construction outlined above at \$6,000.00 and the itemized estimate is attached hereto. I would further advise that there are no funds available

in this Department for this purpose.

Yours very truly,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC WORKS

May 1, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:—

By Ordinance No. 400, approved June 27, 1928, the Mayor and the Director of the Department of Public Works were authorized to enter into an agreement with the Mt. Washington Street Railway Company and the Pittsburgh Railways Company for a lease of the right-of-way over the viaduct of the Railway Companies for

the construction of a boardwalk from Alton street to Kenherma avenue.

In view of the fact that on April 9, 1929, Council adopted a motion that the Department of Public Works refrain from constructing any new boardwalks or steps until Council had an opportunity to view the location of the same, will you please advise whether it is the pleasure of Council to have this boardwalk laid by our departments in keeping with Ordinance No. 400 above referred to.

I am advised by the Law Department that the contract between the Mt. Washington Street Railway Company, The Pittsburgh Railways Company and the City of Pittsburgh is ready for execution, and as this is one of the conditions of that lease. I am constrained to believe that Council desires this boardwalk be laid in keeping with this agreement

Kindly advise as to your pleasure in the matter at the earliest possible time.

Yours very truly,

Edward G. Lang,

Director.

DEPARTMENT OF PUBLIC WORKS

May 2, 1929.

President and Members of Council,

City of Pittsburgh.

Gentlemen:—

In the construction of the Watch House for Highland Reservoir No. 1, the Department found it advisable to issue Extra Work Order No. 1 under date of May 1, 1929, to Welsh Construction Company, covering three (3) small items of extra work which will entail a total cost of Thirty-three (\$33.00) Dollars. This order covered the following items of work:

(1) The top coat of concrete sidewalk in front of the Watch House was specified to be mixed of sand and cement. It was found that Lignite chips instead of the sand would harmonize better with the stone en-

trance to the Watch House. The cost of this item is Seventeen (\$17.00) Dollars.

(2) An extra manhole was required for pulling the electric feed cable to the Watch House. The cost of this item is Thirteen (\$13.00) Dollars.

(3) A wood weather strip, not shown or specified, was required at the front door. The cost of this item was Three (\$3.00) Dollars.

The total cost of the contract will be \$3,773.14, as compared with a contract price of \$3,832.00, due to the actual quantities under the unit price items of the contract being slightly smaller than the estimated quantities.

Unless we are advised otherwise, the contractor will be authorized to do the work above described.

Yours very truly,

Edward G. Lang,
Director.

CITY OF PITTSBURGH

April 30th, 1929.

To the President and Members of
Council,
Pittsburgh, Penna.
Gentlemen:—

I am returning herewith Bill No.
4663, granting the right and privilege
to Ralph A. Long, 906 Fulton build-
ing, to construct a 12" T. C. Pipe
sewer on the southeast sidewalk of
Chellis street, from a point about 120
feet Northeast of California avenue to
the existing sewer on the southeast
sidewalk of Chellis street, without my
approval, for the following reason:

It is not within the province of
Council to delegate the authority of
the City to cross private property or
individuals for the benefit of an in-
dividual and is not done by the City
itself.

Sincerely yours,

Charles H. Kline,

Mayor.

Pipe Sewer on the southeast sidewalk of Chellis street, from a point about 120 feet northeast of California avenue to the existing sewer on the southeast sidewalk of Chellis street."

In Council, April 22, 1929, Bill read, rule suspended, read a second and third times and finally passed.

Which was read.

And on the question, "Shall the bill become a law notwithstanding the objections of the Mayor, the ayes and noes were taken agreeably to law, and were:

Noes—Messrs.

Alderdice	Herron
Anderson	Little
English	Winters
Garland	Malone (Pres't.)

When the name of Mr. McArdie was called, he arose and said

Mr. Chairman, I am not voting because I do not want to pass the bill when there is no necessity for it, and I refrain from voting because the reasons cited in the Mayor's veto are not in accordance with the provisions of the ordinance. We did not delegate any power to a private individual to cross private property.

Ayes—None.

Noes—8.

And there not being two-thirds of the votes of council in the affirmative, the bill failed to become a law notwithstanding the objections of the Mayor.

REPORTS OF COMMITTEES.

REPORTS OF SPECIAL COMMITTEES.

Mr. Winters presented

No. 4951.

Pittsburgh, April 30, 1929.

President and Members of Council.

Gentlemen:—

The Committee to which was referred the matter of investigating the Refrigerating System at the Diamond Market, together with other questions of maintenance and operation of that activity, beg leave to report that a careful investigation of the conditions prevailing there leads the Committee to the conclusion that an expenditure of any considerable sum of money on the present refrigerating equipment would be unwise.

The Committee has made considerable inquiry as to the cost of installing a modern system of refrigeration and believes that such a system should be installed at this time. According to the best information obtainable, the installation of this system would cost approximately \$120,000.00. This expenditure the Committee recommends. As the Councilmanic credit is too small to safely yield

such a sum, it is the Committee's recommendation that the improvement be financed by the utilizing of the existing appropriation of \$25,000.00 and to make up the difference by transfer from existing appropriations, such as the Light contract, which appropriation could be replenished in next year's Appropriation Bill.

If this policy is carried out, it is the expectation of the Committee that substantial changes will be made in the stall rentals for the Market, so as to produce a rental that would approximate the cost of operation plus the amortization of the new refrigerating plant within a period not to exceed eight years.

So that Council may have something concrete before it for its consideration, after the receipt of this report, the Committee has caused to be prepared and introduced into Council an Ordinance for the letting of a contract for the installation of this equipment and a Resolution authorizing the transfer of the necessary funds.

The Committee feels that there is a need for a continued inquiry into the operation of the Diamond Market, with a view to reducing the cost of operation and materially and effectively improving the conditions in the market generally, so that its operation will bring no discredit to the City.

Respectfully submitted,
Daniel Winters
Chas. Anderson
P. J. McArdle
Committee.

Also

No. 4952. Resolution authorizing and directing the City Controller to transfer the sum of \$95,000.00 from Code Account No. to provide funds for the cost of a new refrigeration system at the Diamond Market.

Also

No. 4953. An Ordinance authorizing the Mayor and the Director of the Department of Public Works to advertise for bids and let a contract for the purchase and installation of a refrigeration system in the Diamond Market.

Which were severally read and referred to the Committee on Finance.

MOTIONS AND RESOLUTIONS

Mr. Herron presented (at the request of the Law Department)

No. 4954. WHEREAS, The Pittsburgh Transportation Company, operating the Green cab, and the Yellow Taxicab Company, operating the Yellow cab, have filed schedules for increases of taxi rates in the City of Pittsburgh; and

WHEREAS, The Mayor of the City of Pittsburgh has directed the Law Department of the City of Pittsburgh to file a protest against said increase of rates; Now, therefore, be it

RESOLVED, That the City Solicitor be and is hereby directed to file a protest in behalf of the City of Pittsburgh with the Public Service Commission of the State of Pennsylvania protesting the increase of taxi rates as filed by the respective companies.

Which was read.

Mr. Herron moved

The adoption of the resolution.

Mr. Herron said:

Mr. Chairman, in moving the adoption of this resolution, I wish to notify you that Mr. Waldschmidt, the City Solicitor, brought that up here and asked me to introduce it.

The Chair:

I might state that I also had a resolution on the same subject prepared.

Mr. Herron said:

Mr. Chairman, in that event, I will be glad to withdraw the resolution I presented and move the adoption of your resolution.

The Chair:

The resolution I have is similar to yours and it makes no difference which one Council votes on.

Mr. Herron said:

I shall be glad to do what you desire, Mr. Chairman.

The Chair said:

The question is on the adoption of Mr. Herron's resolution.

Mr. Winters arose and said:

Mr. Chairman, this is an important matter and I believe the City's policy

ought to be decided in a conference with the Mayor. We cannot take for granted all the things we read in the newspapers. We should not be asked to pass so important a resolution as this on the day it is presented. I believe this matter should be given careful consideration. If the city enters an appeal and goes into a hearing on this subject it might entail the expenditure of a considerable amount of money. Therefore, the Mayor and Council should co-operate.

The facts in this matter should come officially before Council and establish the fundamental facts on which the appeal is based, and if warranted, the Mayor and the Council jointly instruct the City Solicitor to proceed before the Public Service Commission and provide the necessary money to carry it into effect.

Mr. Herron arose and said:

Mr. Chairman, I asked Mr. Clark, our City Clerk, whether a similar resolution was to be presented, and so far as he knew there was none; but if you have a resolution, I wish to repeat that I will be glad to withdraw mine in favor of yours.

In answer to Mr. Winters, we have no right to wait for a conference if we are notified that on a certain date something of which we have knowledge is to take place. We ought to say whether in our opinion the facts in this case are justified or not. We have shortened the distance to the East End, we have shortened the distance to Brookline, Dormont and Beechview, and we have shortened the distance to Sheraden and this was done by public money and at public expense. Now between City Hall and Forbes Field it takes five minutes, it used to take 15 minutes. We are asking for no contribution and yet we are asked to pay more money after spending all these millions for street improvements. We have made it easier for them to do business in Pittsburgh. We have been kind and charitable to them, and because somebody sees fit to put an additional burden on we must step aside and put another burden on the same taxpayer because of the first offense. Pittsburgh people tolerate

many inconveniences resulting from taxi operation, and if the reward for such patience is to be increased costs of transportation they can be counted on to declare emphatically that the proposal will not be countenanced without a vigorous protest.

The only reason I am putting this resolution in is because Mr. Waldschmidt told me that it would give him the strength required and put the city in a better position for demanding an opening hearing on this subject, and with the knowledge that these rates must be adjudicated by the Public Service Commission, it is a stop warning without the hearing, which they and they only can give. Otherwise they will start to pay.

Mr. Chairman, as a favor to me, I hope you will introduce your resolution, because during all my career I never did a discourteous act, and if you will do this, I ask leave to withdraw this resolution.

Mr. Alderdice arose and said:

Mr. Chairman. I agree with everything Mr. Herron has said about shortening the distance. However, that is not what Mr. Winters refers to. He desires a conference between the Mayor and the Council before action is taken. I agree with him, and I believe it will be a great deal better in strengthening our case at Harrisburg, especially if the Public Service Commission knows that we have agreed and taken the question up with the corporations and those affected. I think that is Mr. Winters' idea. We should hold this over for a day or two, and in the meantime let us talk this matter over with the Mayor and the City Solicitor and go hand in hand to fight this thing.

I desire at this time to publicly state that I will bend every effort to protect the people of Pittsburgh from increased rates for taxicab rides if the charges are unjust. I think the proper method of procedure is to have the City through its proper officers call for a thorough investigation by the Public Service Commission. It seems to me the present is the wrong time for the companies to increase rates, as they are said to have lost

considerable patronage through the current unemployment and the resultant reduction of revenue in every line of business.

Mr. English arose and said:

Mr. Chairman, I think this is the proper resolution to adopt, and that is my reason for supporting it. We have a special assistant City Solicitor whose business it is to take matters of his kind up with the Public Service Commission.

The Chair said.

Let us straighten this matter out so far as we are concerned. There is nothing before the Council except that it adopt this resolution.

Mr. English arose and said:

My thought is, since the City Solicitor has drawn this and asks us to adopt the resolution, directing him to do something it is merely formal, and that the protest is going to be filed by the city.

The Chair said:

It is an unfortunate situation, Mr. English. Mr. Herron and the Chair both are in an unfortunate position. I might state that we had no conferences on the water or gas rate cases. This Council adopts the resolution and instructs the Law Department to do something. In this case if it hadn't been for the newspapers publishing stories about this matter we would not have known anything about it, notwithstanding the fact that the City Solicitor's office has a special assistant, paid \$6,000.00 a year, for the purpose of calling attention to such things as this, because we have not much time to follow up these questions. Because of the agitation on this subject, the Law Department comes in with a resolution asking Council to adopt it, directing them to intervene. We have the right to do this, to enter an objection, and after the objection is entered, the Public Service Commission will set the time of the hearing.

Mr. Anderson arose and said:

Mr. Chairman. What difference is there about the resolutions? I am not going to agree with Mr. Alderdice. If it is necessary to have a confer-

ence we can have it later. We should adopt this resolution so that our position will be made known to the Public Service Commission. That is the proper thing to do. I am not for delaying action on this resolution for a day or two. We should adopt it now. If there is going to be a large expenditure of money and we cannot agree on that with the Mayor, we will drop the proceedings.

Mr. Winters arose and said:

Mr. Chairman. Might I say another word on this? I am not concerned at all about the filing of the protest before the Public Service Commission. If these companies have levied an unjust taxation on the people of Pittsburgh, there will be no member outdo me in protesting and filing an objection before the Public Service Commission.

I have been out of the city for three days, and as far as I am concerned I can say I do not know what their rates are or what the proposed increase will be, not seeing a copy of their tariff or the scheduled rates they propose to put into effect, I have no means of comparing them with the old rates now in effect.

The Legislature passed a law recently at Harrisburg placing an extra cent tax on gasoline, of which these companies use quite a lot, and their license fees have also been doubled, and this undoubtedly is going to increase their expenditures, and everybody knows that in a business of this kind where expenditures are increased the general public pays the bill. If they are increasing the rates beyond a reasonable amount, that is an entirely different matter.

In the gas rate cases the Council spent days conferring; they had before them the proposed increase, the scheduled rates and the old rates and what the expected return would be and what it would cost. We not only had the City of Pittsburgh interested, but the surrounding towns and people in West Virginia and Ohio, and we entered into a contract with these municipalities whereby they were to pay a proportionate share of the cost of the litigation. The same is true of

the water rate case. They sent in the proposed water rates as well as the old rates.

In this particular case we have nothing before us except the resolution and regardless of the merits or demerits of the proposition, we are asked to adopt it. I think Council should proceed intelligently in this matter and have before it the present rates so that a comparison can be made with the proposed increased rates, and proceed to take action based on an intelligent conclusion.

Mr. Herron arose and said:

Mr. Chairman, I am sorry we are getting into this controversy. Mr. Winters probably has forgotten the fact that when Mr. English and I first became members of Council, Mr. English found posted in the offices of the Philadelphia Company a schedule of increased car fares. Few people knew anything about that. The law states that before a new schedule is put into operation it must be posted in certain places, but they do now need to be conspicuous places. At that time, Mr. English acted for the City, and nobody found fault with that.

In answer to the gentleman, I wish to state that by the passage of this resolution, it directs the Law Department to notify the Public Service Commission that the City desires to be heard. If we do not take this action we lose our day in court by allowing the 30 days' time to pass. There being no protest from the Council, the Mayor or the City Solicitor, we lose our day in court, and the fact that we were out of town, sick or did not know what was going on, does not enter into it. The newspapers have published this and that is the best vehicle we have for informing the public. The companies do not deny that they expect to increase their fares. Each member of Council has received a letter today from one of the companies. They are not trying to conceal anything. How in the face of this, can we say we do not know what is going on? As far as I am concerned I have no quarrel with the companies.

Mr. Winters arose and said:

How long, Mr. Chairman, have we to protest to the Public Service Commission?

The Chair:

Thirty days. I believe the schedule was certified on the 19th or 20th day of April. The only place we secured the information was from the newspaper, until we received the information from the taxicab companies today.

Mr. Garland arose and said:

I think everything is out of order here.

The Chair:

The Chair is going to disagree with you, Mr. Garland. If everything is out of order, you are out of order. There is nothing out of order. There is a motion before you and you can speak on the motion if you desire.

Mr. Garland arose and said:

Mr. Chairman, I believe in the fundamentals of this thing and I think this resolution is entirely wrong. It should be amended. The second whereas clause says:—"The Mayor of the City of Pittsburgh has directed the Law Department of the City of Pittsburgh to file a protest against said increase of rates." The Mayor of the City of Pittsburgh has not the authority to do that without the consent of this body. What it follows is diametrically opposite. It says there particularly that the Mayor has directed the Law Department to file a protest. If he has done that, why is it here? Then it says, "Be it Resolved, That the City Solicitor be and is hereby directed to file a protest in behalf of the City of Pittsburgh with the Public Service Commission of the State of Pennsylvania protesting the increase of taxi rates as filed by the respective companies." In other words, I take it that the Mayor and the Council is the City of Pittsburgh. They are the elected representatives of the City of Pittsburgh. I am going to move to strike out the second whereas clause, because the Mayor does not have the power to do that. It further says and I repeat the language, "Resolved, that the City Solicitor be and is hereby directed to

file a protest in behalf of the City of Pittsburgh with the Public Service Commission of the State of Pennsylvania protesting the increase of taxi rates as filed by the respective companies." We do this as an act of Council, whether the Mayor agrees or disagrees. I further want to say that Mr. Winters is right. We have no right to go into the merits or demerits of the case here. It has to go before the Public Service Commission. We want to see that too great a sum of money is expended in this case. We want the Public Service Commission to decide without spending \$56,000.00. We have seen like cases where a lot of money was spent by getting experts from New York, Chicago and Hong Kong, and they charge so much per day for their services, including expenses. We only won a case now and then, and generally we are on the wrong side. I believe the Law Department should go down and fight this case, but it is no case for experts.

The **Chair** said:

There is no authority provided in the resolution for the employment of experts.

Mr. **Garland** said:

You are directing the City Solicitor to file a protest. He files the protest and does everything he pleases. It seems we have no knowledge that there will be any increases in rates.

The **Chair** said:

Haven't you been in a taxicab lately?

Mr. **Garland** said:

I came up from the Chamber of Commerce in a Yellow Cab and it cost me 35 cents.

Mr. **Garland** moved

To amend the resolution by striking out the words "Whereas, the Mayor of the City of Pittsburgh has directed the Law Department of the City of Pittsburgh to file a protest against said increases of rates."

Mr. **English** arose and said:

Mr. Chairman, I think it would be a mistake if the Council would rebuke the Mayor and the City Soli-

citor in this particular instance. We are all public officials elected by the people to guard and defend the interests of the public. Now, because we propose to be technical and to get into arguments over the method or the procedure, over the time of the procedure or over the policy that might be followed, after we started some procedure, I think it would be quite to the discredit of the Council to reject what action the Mayor has taken to instruct the City Solicitor to do something for the citizens of Pittsburgh.

I for one must vote against this amendment. It is the duty of the Mayor and the City Solicitor to keep a watch on such matters as this and to advise Council, and if any legislative action is necessary to so report to Council, which has been done in this case. In the final analysis it is the duty of all officials to help in the interest of the public. It is the duty of the Mayor to instruct the city employees in matters of this kind, and he has already informed the City Solicitor, regardless of what we read in the newspapers, to file an appeal on behalf of the City of Pittsburgh, and the City Solicitor, of whom we all have a great deal of respect, is asking the Council to cooperate.

After all, let me remind you that the sole purpose of the protest filed within the 30 day period is to put the burden of proof for the new rates upon the persons or corporations who get the benefit of the proposed new rates. The Mayor has a perfect right to go to Harrisburg and file an appeal with the Public Service Commission with or without the consent of Council, the City Solicitor or anybody else. If we fail to recognize that right, we would be foolish.

Mr. **Winters** arose and said:

Mr. Chairman. That is one of the very reasons why I suggest a conference with the Mayor to iron out any difficulties or differences which may exist between the Legislative and Executive Branches and where the thoughts of the members of Council can be exchanged with the Mayor. The law provides that either can call

a conference, and I would move that the Council have a conference with the Mayor on this subject either this afternoon or tomorrow.

The Chair:

There is a motion pending before the body. The question on the motion of Mr. Garland, that the resolution be amended?

And the question recurring on the amendment as offered by Mr. Garland, Mr. English demanded a call of the ayes and noes, and the demand having been sustained, the ayes and noes were taken, and being taken were:

Ayes--Messrs.

Alderdice	Garland
Anderson	Little
	Malone (Pres't.)

Noes--Messrs.

English	McArdle
Herron	Winters

Ayes--5.

Noes--4.

And a majority of the votes being in the affirmative, the motion prevailed.

Mr. McArdle arose and said:

Mr. Chairman, what is supposed to be the historical fact recited in the preamble has been removed.

The Chair said:

Suppose we have the resolution read so everybody will understand it. The resolution as amended will be read.

The Clerk then read the resolution as amended.

Mr. McArdle said:

Mr. Chairman, I take it that it is the intent and purpose of this resolution, first, to protect the City in its right to be heard in this case and to give it a position of advantage, which it would not have if it allowed the thirty days to expire before it entered the protest. I take it in passing this resolution, we are not passing remotely upon the justice of this proposed increase in rates. What we are doing is to establish a condition where it will be the obligation of the companies themselves to establish the justice of their rates, and

I think we are clearly within our rights to take every precaution to see that that condition is brought about.

We are standing in the position of public representatives of all the users of all public utility service rendered in the City of Pittsburgh, but in this particular case, we are perhaps one of its largest single users, spending something between \$35,000 and \$50,000 a year for the service rendered by these companies.

I do not want to pass judgment on the proposal without hearing the reasons advanced for the increase, but it should not be permitted to go into effect without a thorough examination of all conditions relating to the subject; and our only means of doing this is to file a protest with the Public Service Commission. The Public Service Commission is set up for exactly that purpose, to go into all these questions very definitely, and we can only do it in a satisfactory way through our representatives in the Law Department. The filing of this protest need not necessarily mean that our Law Department will have to go into a prolonged fight to prevent these rates from being sustained. They may be convinced in a careful examination of the rates that they are reasonable. If however, they should be convinced that they are very unreasonable then they can ask for authority to prosecute the case, as they have done in other public utility cases where we had litigation.

In passing this resolution, we are just preserving our standing in Court and doing a thing that we have not a whole lot of time to do. I confess publicly that I would not have thought it entirely out of place or undue courtesy extended by both of these companies, if in the beginning they had advised Council that they were going to file these rates, and not allowed us in an accidental way to discover it as has been the case. In view of that we are justified in passing this resolution and requesting our City Solicitor to step in and file the protest, and from what facts he learns he is to bring the case back to Council as to what the policy of the City should be in future dealing

with it, and at that time we would be brought face to face with the wisdom of bringing the Mayor and the City Solicitor into closer conference and more intimate details of the matter.

And the question recurring on the adoption of the resolution, as amended,

The motion prevailed.

Mr. **English**, at this time obtained leave, and presented

No. 4955. Communication from Mr. Stanley Zawrotny relative to the dangerous condition on Dorset way on account of loose rocks that may fall upon the alley and also asking for removal of a spring which floods his cellar.

Also

No. 4956. Communication from C. E. Schwartz, Cashier Bond Department of Pennsylvania Trust Co. asking for action on petition for the improvement of Central avenue, between Woods Run avenue and Grand avenue, which was filed in April, 1928.

Also

Also

No. 4958. Communication from J. H. O'Donnell, 618 Clyde street, relative to squeaking brakes of taxi cabs.

Which was read and referred to the Committee on Public Safety.

The **Chair** requested

That the Special Committee, consisting of Messrs. McArdle, English and Herron make a survey of the stables under the jurisdiction of the Bureau of Highways and Sewers with a view to motorizing the equipment.

Mr. **Alderdice** moved

In view of the report from Mr. L. W. Monteverde, Chairman of the Special Committee on the Penn avenue—Pennsylvania Railroad project and in relation to a proposed subway on Grant street and Penn avenue, that the Transit Commission be requested to give to Council at the earliest date possible a report as to the feasibility and practicability of such a subway so as not to delay the Pennsylvania Railroad Company with their contemplated improvements.

Which motion prevailed.

Mr. **Herron** moved

That the Clerk correct the Minutes of April 22nd, 1929, by striking out, at the end of the meeting, the remarks relative to "Safety Island" at Forbes street near Homewood Cemetery.

Which motion prevailed.

Mr. **Herron** moved

That the Minutes of Council, at a meeting held on Monday, April 22nd, 1929, as corrected, and at a meeting held on Monday, April 29th, 1929, be approved.

Which motion prevailed.

And there being no further business before the meeting, the **Chair** declared Council adjourned.

DEPARTMENT OF PUBLIC WORKS

May 9, 1927.

President and Members of Council,
City of Pittsburgh.

Gentlemen:

Referring to the lease on the fruit stand and the confectionery store at the north end of the Smithfield Street Bridge, beg to advise that by authority of Council a lease was entered into on June 30, 1919 for this property for a period of 5 years with the privilege of a 5 year extension.

Accordingly this lease will terminate on June 30, 1929 and the Director

has notified the Bureau of City Property to issue proper notice to the present occupant of said building to vacate same on or before June 30th in keeping with the provision of the lease, having had notice that it is desired to remove this building which, in the judgment of the Director, is a good suggestion and could be carried out, as this building has been an obstacle to the visibility of the approach of the bridge ever since it was constructed at Water Street and the bridge.

Yours very truly,

EDWARD G. LANG,
Director.

PITTSBURGH TRANSPORTATION CO.
Pittsburgh, Pa.

May 15, 1929.

Mr. Daniel Winters,
Member of Council,
City County Building,
Pittsburgh, Pa.

Dear Sir:—

The Pittsburgh Transportation Company has forwarded to the Public Service Commission its withdrawal of its schedule for an increase in rates. We have been moved to do this because of the strongly adverse position taken by the officials of the City of Pittsburgh and the Complaint that has been filed with the Public Service Commission.

You, of course, realize that we can only give a service which corresponds with the rates paid. We are convinced that we cannot under the present rates give the type of service

we would like to give, and the type of service that we believe the people of Pittsburgh really want and are willing to pay for. We are also convinced that unless there is a greatly increased public use of taxicabs the summer business will show a substantial net deficit which will result, as we have heretofore stated, in a net deficit for the year's operations. However, after reviewing the whole situation, it has seemed to us advisable to maintain the present rate until we demonstrate by actual experience the imperative necessity for increased revenues not only because the Company is entitled to them to earn a fair return but also to maintain the best type of taxicab service, to pay wages which will attract and hold the proper type of experienced men, and to discharge our legal obligations for liability claims.

This will therefore satisfy and dispose of the City's Complaint now pending before the Commission and will make it unnecessary for us to file a further answer to the Complaint.

Very truly yours,

PITTSBURGH TRANSPORTATION CO.

By P. L. Houston,

Secretary and General Manager.

YELLOW CAB COMPANY
Of Pittsburgh

Pittsburgh, Pa.

May 15, 1929.

Honorable Daniel Winters,
Pittsburgh Council,
Pittsburgh, Pa.

Dear Sir:—

The Yellow Cab Company of Pittsburgh begs to advise you that it is withdrawing the proposed increased schedule of taxicab rates filed with the Public Service Commission of Pennsylvania, which would have become effective May 21st, 1929.

The facts and conditions still exist, however, that made the original application for the fare increase necessary, among which was the decreased

rate which went into effect last August. This decreased rate did not produce the increased volume of business anticipated, and instead receipts fell off during the winter months when business is always at its peak. This condition still exists at this time, and we anticipate a large decrease this summer.

The withdrawal of the proposed schedule of rates makes it unnecessary that we file an answer to the protest which the City of Pittsburgh has at this time before the Public Service Commission.

Yours very truly,

YELLOW CAB COMPANY
OF PITTSBURGH.

Walter S. Laird,
President.

Which was read, received and filed.

Which was read and referred to the Committee on Finance.

The Chair presented

No. 5069. WHEREAS, During the month of April, 1929, three districts of former Mifflin Township have been annexed to the City of Pittsburgh; and,

WHEREAS, The residents of the annexed portion of Mifflin Township, like the citizens of that portion not annexed, had paid to the Township taxes up to and including June 30th, 1929; and,

WHEREAS, There has been some question as to whether the citizens of the annexed portion were to be billed by the City of Pittsburgh for the year of 1929, and as these residents will live in the City of Pittsburgh for the last half of 1929; Therefore, be it

RESOLVED, That the City Solicitor be and he is hereby authorized and directed to prepare the necessary leg-

islation, so that the citizens of the annexed portion of Mifflin Township will not pay taxes to the Township, but to the City of Pittsburgh, and inasmuch as they paid taxes up to July 1st to Mifflin Township, no taxes should be charged for any period prior to that date; and, be it further

RESOLVED, That the taxes for the last half of 1929 of the citizens of the annexed portion of Mifflin Township, now part of the City of Pittsburgh, shall be paid only to the City Treasurer of Pittsburgh.

Also

No. 5070. Resolution authorizing and directing the City Controller to set aside the sum of \$250.00 from Code Account No. 42, Contingent Fund, for the use of the Veterans Association of the 107th Field Artillery for the celebration of Memorial Day Services to be held Sunday, May 26th, and authorizing the issuing of warrants drawn on said fund in payment of expenses incurred by the said Veterans Association of the 107th Field Artillery.

DEPARTMENT OF PUBLIC WORKS

May 13, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

It has come to the notice of this Department that the West Penn Sand and Gravel Company have applied to the Public Service Commission for authority to erect a sand and gravel hoist on the Allegheny River, occupying a portion of City property at Brilliant Pumping Station. Inasmuch as we have under considerations, plans for the construction of a new pumping station at this point, and in view of the fact that our main water lines supplying water to the City of Pittsburgh through Highland No. 1 and No. 2, are now located on this property, we deem it unwise to lease any of this property whatsoever, but to hold it sacred for the extension and reconstruction of our water plant at that point.

We are enclosing herewith formal notice of a change in rates.

The reduction of 20 per cent in the service charges provided for in the

new tariff will be reflected in the bills rendered commencing June 1st. All service charge advance payments for the months of June and July will be adjusted and proper credit for the reduction for these two months shown on the bills rendered July 1st and August 1st.

The new meter consumption rates will be effective on water consumed after June 1st and reflected in subsequent bills, the consumption being pro-rated as to the part before and after June 1st, until such time as a full quarter's meter reading is obtained subsequent to June 1st.

The new rate schedule as filed is in accord with the agreement reached between representatives of the municipalities having complaints filed and representatives of this company. We are pleased that it has been found possible to arrive at an agreement as to our rate schedule and thereby terminate the recent rate controversy.

Yours very truly,

A. B. Lynn,
Vice President.

Which was read, received and filed, and ordered printed in full in the record.

DEPARTMENT OF PUBLIC WORKS

May 21, 1929.

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

May I call your attention to the condition of Highview street, Wellsley avenue and Jackson street, which thoroughfares are in such condition that patching is impossible and would be a waste of money to undertake. These streets need attention very badly and should be resurfaced at once and will require approximately \$7,700.00 to put the streets in the shape that they should be. There are no funds available in the resurfacing appropriation and we await

your further advice and pleasure.

Yours very truly,
Edward G. Lang,
Director.

BUREAU OF HIGHWAYS AND
SEWERS

May 17, 1929

Subject: Highview Street.

Edward G. Lang, Director,

Department of Public Works,
City of Pittsburgh.

Dear Sir:—

I am rendering you a report relative to the condition of Highview street as complained of by Mr. Harold R. Wade, of 1910 Highview street.

The portion of Highview street to which I refer is located between Stanton and Wellsley avenues. It is in such extremely bad condition that it cannot be patched and to render any improvement at all will require resurfacing thereof.

This same condition exists on Wellsley avenue, between Highview and Chislett, and also Jackson street, between Highview avenue and Heths street.

To resurface the streets referred to will require the following funds:

Highview Street from Stanton to Wellsley 3,200 yards. Cost \$5,120.00; Wellsley avenue, from Highview to Chislett 850 yards. Cost \$1,360.00; Jackson street, from Highview avenue to Heths, 800 yards. Cost \$1,280.00. Total \$7,760.00.

I would suggest that Council view the streets in question.

Yours very truly,
Charles A. Hillegas,
Superintendent.

CITY OF PITTSBURGH,
Penna.

May 22, 1929

Committee on Public Service and
Surveys.

City Council,

Pittsburgh, Pennsylvania.

Gentlemen:—

Under date of May 9, we received a letter requesting report and recommendation on two bills concerning Pittsburgh Railways Company track construction.

At this time, I wish to report favorably on Bill No. 4878, An ordinance granting right to the Pittsburgh Railways Company to construct a connecting curve at the intersection of Charles street and Perrysville avenue. We have investigated this situation. The new curve will eliminate the present very objectionable switching movement made by the street cars returning to the barns. We believe that this plan will eliminate a potentially serious accident hazard at this intersection.

Concerning Bill No. 4877, An Ordinance granting right to the Pittsburgh Railways Company to construct a track at Liberty and Fifth avenues. We wish to make further investiga-

tions and will report on this matter shortly.

Very truly yours,

Burton W. Marsh,

Traffic Engineer.

The Chair presented

No. 5230

County of Allegheny,
Pittsburgh, Pa., June 3, 1929.

Hon. James F. Malone,
President of Councils,
City of Pittsburgh.

Dear Mr. Malone:

On behalf of the Hearst-Sun-Tele-
graph annual Junior Golf Tournament
Committee, request is hereby made for
the reservation of the Schenley Park
Golf course for this event to be held
July 11.

Inasmuch as there will be several
hundred boys from the Pittsburgh dis-
trict participating in this affair, re-
servation of this date for this tourna-
ment is not depriving the people of
the use of the course, but is rather
giving preference to the younger
generation of golfers for this one
occasion.

Thanking you on behalf of those in-
terested in this affair for any courtesy
extended by Councils, I am,

Very truly yours,

Jno. Jay Burke.

P. S. This action is taken with the
consent of Director Lang of the De-
partment of Public Works.

Which was read, and on motion of
Mr. Garland, received and filed, and
the Director asked to grant the re-
quest.

And on motion of Mr. Alderdice,
Council adjourned.

DEPARTMENT OF PUBLIC WORKS

June 8, 1929

President and Members of Council,
City of Pittsburgh.

Gentlemen:—

During the prosecution of the contract for the improvement of Irvine Street, from Greenfield Avenue to a point near Hazelwood Avenue, several slides developed at different points throughout the extent of this improvement.

A couple of these slides developed last Fall and necessitated some increase in the quantities of Grading

and Spoil required on this contract. Recently more slides developed and a thorough inspection was made on the ground of the hillside above the street on June 5th to determine the approximate extent and a method of treatment that would seem advisable.

Predicated thereon, the Department estimates that the increased Grading, Spoil and other work made necessary account these slides will increase the cost of this improvement in the sum of \$55,000.00 based upon the current prices for the items of work involved.

The development of slides prior to May necessitated immediate action and the removal of additional quantities of materials. Work is also being done at present on the largest slide which must be considered as an emergency measure. The estimate above however, covers the cost of all work done on slides to date together with our estimate of the probable amount of work required to cope with all the slides developed to date.

The aforesaid additional cost of \$55,000.00 will not cause the total cost of this improvement to exceed the total estimated cost of \$280,000.00 for completing this improvement.

Due to the nature of work and the fact that extension of the area involved in one (1) of the major slides may cause damage to existing houses abutting on Sylvan Avenue, so will continue to proceed with the additional Grading involved, unless we are advised of Council's objection thereto.

Yours very truly,

Edward G. Lang,
Director.

Gentlemen:—

We are advised by the Bureau of City Property that the elevators in the Diamond Market are in such condition that it is dangerous to life and limb to operate them.

The Building Inspector has notified this Department that the operation of the elevators should be discontinued at once, in order to avoid any accident that may cause the loss of life or limb. The closing down of these elevators will, in a great measure, effect the business interests on the second floor, which we regret very much, but inasmuch as we have no funds available to have these elevators repaired and have an estimate that to put them in safe and proper condition, it will cost \$7,310.00, I should like to have the advice of Council as to what course to pursue.

Yours very truly,

Edward G. Lang,
Director.

Gentlemen:—

Parking on Epiphany Street has become so bad that fire apparatus would be seriously hindered in case of a fire in that section.

In addition to this the owners of property along this Street are registering objections to the all day parking.

In order to relieve the situation, I am instituting a 60-day trial of the following regulation effective June 11, 1929.

EPIPHANY STREET

No Parking at any time on the northerly side between Washington place and Elm street; one-hour parking from 9:00 A.M. to 6:00 P.M. on the southerly side between Washington Place and Elm Street.
